Dancing Her Way Through School

– Online Learning Allows Local Student To Pursue Dance Dreams

By Anne Trautner

Carly Bartel, 13, loves to dance.

She dances in the bank. She dances in the grocery store.

"At some places I get some looks. Partly because they wonder why I am not in school, and why am I dancing" Carly said.

For the past year, Carly attended seventh grade at eAchieve, an online public charter school in the Waukesha School District. The classes allowed her to study from her Kewaskum home while having time to travel to Brookfield for her ballet lessons.

Throughout the school year, Carly traveled there three days a week. Depending on traffic, it takes 40 to 50 minutes to drive to the dance classes.

Carly has taken dance

lessons from the Milwaukee School of Ballet's Brookfield dance studio since she was about 6 years old.

She recently learned that she will be traveling for dance even more. She is skipping a level and will be dancing with a more advanced class at the pre academy, so will be traveling to classes four to five times a week.

Carly doesn't mind the travel time because it gives her a chance to fix her hair. She uses the flip-down mirror in her mother's car to make sure she pins her hair into a perfect bun.

Sometimes she fixes her friend's hair at the studio, also.

"They call me the hair master," Carly said.

Village Of Kewaskum Cracks Down On Those Not Paying Water Bills

By Anne Trautner

The Village of Kewaskum notified 230 residents that their water will be disconnected if they do not pay their water bills by July 1.

Since the notices went out on May 19, about 10 percent of those notified paid their bills or inquired about a deferred payment plan, Village Treasurer/Deputy Clerk Janet Knops reported to the village board on Monday, June 6.

At the village board meeting on May 16, the board discussed the number of accounts that owed money on their water bills.

Approximately 20 percent of utility customers owe money on their accounts.

As of May 11, there were 26 accounts that had balances in excess of \$1,000, with one account owing more than \$9,000.

"Some of these people have not paid on their water bill since July 2015. I think they are just using the village sewer water department for their finance committee," Village Trustee Dave Zehren said at the May 16 board meeting. "Let's raise that interest rate so they don't think we are a finance company."

On Monday, June 6, the village's administrative

committee discussed various ways to change the village's policy for charging water bills to ensure better payments.

In some municipalities, residents prepay the bills based on estimated usage, Village Trustee David Spenner said. In some locations, disconnection notices are placed on houses, and some places automatic withdrawals from bank accounts, Spenner said.

The Wisconsin Public Service Commission requires that customers be given 20 days after the billing date to pay utility bills without penalties.

After the due date, cus-

tomers have seven days until the bill is past due, according to PSC rules. After a disconnect notice is mailed, the customer has 10 days to make a payment before the water is turned off.

A reconnection fee of up to \$75 may be charged.

As the village faces shortfalls in its water and sewage utility budgets, village trustees want to do something to ensure better compliance with payment of bills.

Once the board agrees on a new policy, it plans to pass a new ordinance on how delinquent water bills will be handled.

Becoming A Model Student

– Online Learning Enables Kewaskum Student To Model Around The World

By Anne Trautner

Alaina Rosenthal has always been into fashion.

"My mom used to own a kids' clothing store, so I would always window model for her. And I love

reading fashion articles," Alaina said.

So when she was in eighth grade at Kewaskum Middle School and grew to be 5 feet 10 inches, Alaina contacted a modeling agency in Milwaukee.

The agency signed on Alaina, and she has been modeling ever since.

Alaina soon found that she was in high demand, and was asked to model in Los Angeles for a year.

So Alaina and her moth-

er, Kelly Rosenthal, moved to Los Angeles, while her father, Craig Rosenthal, stayed in Kewaskum with Alaina's older sister, Liza Rosenthal.

WENINGER 50TH ANNIVERSARY

George and Mary Ann Weninger are celebrating their 50th Wedding Anniversary. Join them at an "Open House" on Sunday, June 19, at the Lomira Legion Hall from 1:30 p.m. to 4 p.m. No gifts please, your presence is their treasure.

George Weninger and the former Mary Ann Batzler were married on June 18, 1966, at St. Martin's Church in Ashford.

They have four children, David (Kathi) Weninger of Lomira, Daniel Weninger of Fond du Lac, Teresa (Jon) DeMars of Faribault, Minnesota, and Anne Elizabeth Weninger (deceased). They are also blessed with five grandchildren, John, Jakob, and Jared Weninger and Donnie and Anna DeMars.

The Weninger family farmed in the Lomira area for many years. They now live near Thorp, WI, on their farm along the Black River.

Susan Martin poses as her character "Go To Hell Kitty" in the musical Chicago. The Musical Masquers, a community theatre company in West Bend, will present the wildly popular musical Chicago at the Silver Lining Theater in West Bend High School beginning June 17th and ending June 26th.

CAMPUS NEWS

– Leah Rodenkirch from Kewaskum, Wis., has made the University of Wisconsin-Whitewater Dean's List for the 2016 spring semester.

These students have demonstrated their academic abilities by receiving a grade-point average of 3.4 or above in a single semester.

"Making the Dean's List is a tremendous honor for our students. It is a recognition for their hard work and commitment to success," said Susan Elrod, provost and executive vice chancellor for academic affairs. "We are proud of all of the students on the list and hope to see their names there again!"

The Registrar's Office reports 3,179 students were selected for the Dean's List for the spring

semester. About 12,000 students are currently enrolled at UW-Whitewater.

– Edward (Eddie) Trautner of Kewaskum has been awarded a \$1,000 scholarship from the Wire Association International Midwest Chapter.

Trautner is a student at the University of Wisconsin-Platteville, majoring in industrial technology management, with an emphasis on manufacturing technology management and a minor in occupational safety management. He is currently working at FWD Seagrave Fire Apparatus as a college engineering co-op. He is the son of David and Anne Trautner.

ATTENTION: Kewaskum Class of 1976

Our 40th year reunion is coming up this summer on August 19 & 20, 2016. You should receive an invitation this month. If you do not, we do not have your current address. If you have moved since 2009, please forward your address to Pam (Scannell) Lahmann at pjvolley@sbcglobal.net. Please put class reunion in the subject heading. Please share this notice with anyone you are in contact with from our class.

LETTER TO THE EDITOR

Dear Editor,

Round 2! It appears Town of Ashford and Town of Auburn residences (STOMP U.A.) are being thrust into another battle with the Town of Ashford and Batzler Trucking, Inc. Batzler Trucking Inc. has once again applied for a special use permit to conduct non-metallic mining operations and resource extraction on the property located on W2545 Ashford-Auburn Dr (50+ Acres).

The meeting will take place on Monday, June 13, 2016, at 6 p.m. at the Ashford Town Hall - N1410 Rolling Dr., Campbellsport, WI 53010.

What are the citizens missing? 1) March 2016, STOMP U.A. WINS in Fond Du Lac County Court. 2) At the April 2016 Annual Town Board meeting, Town of Ashford constituents voted in opposition to the construction of a mine at the W2545 Ashford-Auburn Dr. property.

Since the March 2016 Fond du Lac County court decision, Batzler Trucking, Inc., and the proposed mine on Ashford-Auburn Dr. has not been an agenda item of the Town of Ashford. Yet, there is a Board of Appeal hearing on June 13th? The Town of Ashford elected officials have even gone as far as to use the Town of Ashford tax dollars to hire an attorney and a stenographer for the June 13th meeting. This was done during the public opinion section of May's Town of Ashford monthly meeting. When the board was made aware of the violation of the open meeting statutes, their fix is to have a special board meeting at 5 pm on June 13th to approve these hirings.

Why would anyone put an extraction site next to an existing subdivision and surrounding residential properties? Where is the next neighborhood?

Sincerely,
STOMP, UA

Asphalt Scam
The Washington County Sheriff's Office is reminding citizens to use due diligence when entering into a contract with anyone who wants to complete work on the citizen's home or property. This is specifically important when the "contractor" initiates contact with the property owner to complete the services.

During this time of year, driveway sealcoating scams seem to become increasingly common. Law enforcement will oftentimes have difficulty proving criminal violations for these types of incidents, but these unscrupulous individuals will overcharge and use inferior products to take advantage of citizens.

The Sheriff's Office recently became aware of an incident that occurred in the Town of Hartford on Wednesday, May 25 where a home owner was pushed into a sealcoating "deal" after the contractor stopped at the home unannounced. The homeowner paid the "contractor" \$600 to seal coat the driveway. The contractor completed the seal coating within 15 minutes and left.

Within 30 minutes of the completion of the job, the homeowner contacted his bank to stop payment on the check, but it was too late. The contractor already cashed the check.

The Sheriff's Office had the opportunity to review the contract which had very general terms with no company name on it. The contractor identified himself as "Tommy Michael Sherlock" and was driving a red two-door Dodge Dakota.

The Sheriff's Office would like to emphasize the importance of using a reputable sealing contractor. Avoid using a sealcoating contractor that knocks on your door and indicates, "I have extra material and can do your driveway cheap."

Any reputable sealing contractor will have very little sealer left after completing a job. Sealer does not go bad, unless it freezes, so there is no rush to use it.

Other tips to consider is to beware of contractors that do not have lettering on their trucks or out-of-state license plates. This may be an individual that

does not want to be identified. Ask for references and exact addresses, so you can take a look at previous worksites. If the contractor indicates this is "for today only" or they are only in the area during the upcoming week, use caution. These are typically traveling type contractors that move out of the area, even from state to state, after they have worn out their welcome in one area. Do not be rushed into a decision.

Lastly, any reputable contractor will also always ask for a check made out in the name of the business. In our case the check was made out to an individual who promptly cashed it.

Although the Sheriff's Office may have difficulty moving forward with a criminal investigation, the department wants citizens to be aware so vulnerable family members/friends are not taken advantage of.

Injury Accident

On Friday, June 3, at 6:35 p.m., the Washington County Sheriff's Office was notified of an accident with injury at the intersection of Highway WW and Beaver Dam Road in the Town of Wayne. While responding further information provided was that of a female operator being unconscious. Dispatched to assist at the scene were the Kohlsville Fire Department, Allenton Rescue, and West Bend Rescue.

Two damaged vehicles were located in the northwest ditch of that intersection. The male operator (sole occupant) of the involved truck was mobile and able to speak with rescue personnel and law enforcement. The female operator of the involved car was unconscious and still inside the vehicle. Her female passenger also remained inside the car.

Rescue personnel removed both females and began medical assessments. The driver was evaluated and a determination to have her flown from the scene via flight for life was made. The passenger was evaluated and ultimately transported to St Joseph's Hospital (Town of Polk) for precautionary reasons. The male driver was released from the scene with no injury. The male is

40 years old and the females are both 16 years old.

Preliminary investigation shows the truck northbound on Highway WW and the car westbound on Beaver Dam Road. There was no traffic control on Highway WW, but a stop sign did control Beaver Dam Road. The car entered the intersection and was struck on the driver's side.

At this time it is unknown if the car stopped for the stop sign or slowed for the stop sign prior to entering the intersection to continue westbound. This investigation is on-going. Alcohol does not appear to be a factor.

Garage Fire

On June 3, at 11:13 a.m., the Sheriff's Office received a report of a garage fire at 7115 Arthur Road in the town of Hartford. The caller was one of the homeowners who reported the garage was not attached to the residence and was not fully engulfed. The Hartford Fire Department was paged and requested assistance from St. Lawrence Fire Department, Slinger Fire Department and Lifestar Ambulance.

Upon arrival at 11:22 a.m., smoke was seen coming out of the structure, but no flames were observed. Deputies on scene closed the roadway to traffic. The fire departments were quickly able to suppress the fire so the structure did not become fully engulfed.

The investigation revealed there was a child who was playing with a trigger-ignited liquid propane torch. The child started a wall calendar on fire and the flames spread to the insulation in the attic

area. The Hartford Fire Chief requested a fire investigator from the Sheriff's Office to confirm these findings. There was approximately \$10,000 worth of damage to the garage structure/roof and approximately \$2,500 worth of damage to the contents. The garage was not occupied at the time of the fire and there were no reported injuries to personnel on scene.

Assist other Police Agency

On June 2 at 12:38 a.m., the Washington County Sheriff's Office was notified by Milwaukee Police Department of a high speed pursuit entering Washington County. The vehicle that was being pursued by Milwaukee Police Department officers was reported as stolen in a carjacking during the afternoon of June 1.

The vehicle became disabled at State Highway 164 and Tuckaway Lane in the Village of Richfield. At that time, five suspects fled on foot from the stolen vehicle. Washington Sheriff's Deputies and the SWAT Team responded to the scene to assist numerous Milwaukee Police Officers in an extensive search of the area.

At 4:45 a.m. a citizen contacted the Sheriff's Office and advised that one of the suspects was observed in the area of State Highway 164 and Monches Road. Authorities responded to the area and apprehended all five suspects. The male suspects ranging from age 15 to age 17 were successfully tracked by Milwaukee Police Department Canine Units and taken into custody without incident.

Washington County's Most Wanted

The Washington County Sheriff's Department is seeking:

Name: Glen A Gingras
Also Known As:
Age: 54
Race: White
Sex: Male
Height: 5'10" **Weight:** 200
Hair: Brown **Eyes:** Hazel
Scars/Tattoos: Scar on shoulder, scar on arm

The Musical, Chicago, Opens June 17th In West Bend

Musical Masquers, a community theatre company in West Bend for more than 50 years, will present the wildly popular musical Chicago at the Silver Lining Theater in West Bend High School beginning June 17th and ending June 26th. You can select your seats and purchase tickets at www.MusicalMasquers.org for as little as \$15 each.

The exact performance dates and times are June 17th, 18th, 24th and 25th at 7:30 p.m. and on June 19th and 26th at 2 p.m. The story is set in Chicago during the roaring '20s and loosely follows the murders committed by seven women who were

sensationalized by the media and for which all but one of the women eventually were acquitted. The sensationalism was based on the fact that all of the murders were crimes of passion.

While the story may seem serious it is anything but. The musical is a zany comedy, often times farce, full of physical and visual humor.

The show is loaded with dance, more than 20 dance numbers, and terrific music of the vaudeville era. The best known musical numbers are "All That Jazz" and "Razzle Dazzle" which you will immediately recognize when you hear them.

June Is Alzheimer's And Brain Awareness Month

– Alzheimer's Association Uncovers "Truths" And Confronts Damaging Myths About The Disease

It is common knowledge that Alzheimer's disease robs people of their ability to remember, but other truths about the disease remain unknown. For instance, many people are unaware that Alzheimer's is a fatal disease, its symptoms extend further than memory loss and that early diagnosis matters.

"Alzheimer's & Brain Awareness Month provides a key opportunity to pull Alzheimer's disease and dementia out of the shadows," said Tom Hlavacek, Executive Director of the Alzheimer's Association, Southeastern Wisconsin chapter. "The more people know about the disease and understand the warning signs and symptoms, the more likely they will be to access the extensive care and support services available at no cost to assist them in navigating the Alzheimer's journey."

Greater understanding is urgently needed given the dramatic impact of the disease. Alzheimer's disease is the sixth-leading cause of death in the United States and the only cause of death among the top 10 that cannot be prevented, cured or even slowed. To improve the public's understanding of the disease and to underscore the need for swift action, the Alzheimer's Association is highlighting essential truths aimed at curbing common misconceptions about Alzheimer's. These truths include:

Alzheimer's disease is fatal – there are no survivors. From 2000-2013, the number of Alzheimer's deaths increased 71 percent, while deaths from other major diseases decreased. More than 5 million Americans are living with Alzheimer's disease, including 110,000 in Wisconsin.

Alzheimer's disease is not normal aging. Alzheimer's is a fatal and progressive disease that attacks the brain, killing nerve cells and tissue, affecting an individual's ability to remember, think and plan. Brain changes associated with Alzheimer's may begin 20 or more years before symptoms appear. Although age is the greatest known risk factor, Alzheimer's is not a normal part of aging.

Alzheimer's is more than memory loss. Many believe the disease only manifests itself through memory loss, when it may appear through a variety of signs and symptoms. However, since Alzheimer's affects people in different ways, each person will experience symptoms and progress through the stages of Alzheimer's differently. Experts from the Alzheimer's Association have developed 10 key warning signs of Alzheimer's disease that everyone should learn to recognize in themselves and others.

Alzheimer's risks are higher among women, African-Americans and Hispanics. African-Americans are about twice as likely as whites to have Alzheimer's or another dementia. Hispanics are about one and one-half times as likely. Additionally, more than two-thirds of Americans with Alzheimer's disease are women.

Early detection matters. More than five million people are living with Alzheimer's disease, but only about half have been diagnosed. Additionally, less than half (45 percent) of seniors diagnosed with Alzheimer's disease or their caregivers are aware of the diagnosis. Diagnosis is often delayed due to low public awareness of the early signs of Alzheimer's and general misperceptions about Alzheimer's and other dementias.

Alzheimer's cannot be prevented, but adopting healthy habits can reduce your risk of cognitive decline and contribute to brain health. Staying mentally active, engaging in regular physical activity and eating a healthy diet benefits your body and your brain. There is also some evidence people may benefit from staying socially engaged with friends, family and the community. The Alzheimer's Association is sharing steps to reduce your risk of cognitive decline with 10 Ways to Love Your Brain.

Alzheimer's is the most expensive disease in the country. Alzheimer's disease remains one of the most critical public health issues in America, costing taxpayers \$18.3 billion each hour. The total national cost of caring for those with Alzheimer's and other dementias are estimated at \$236 billion a year, of which \$160 billion is the cost to Medicare and Medicaid alone. As the number of Americans with Alzheimer's grows, the total annual payments for health care, long-term care and hospice care for people with Alzheimer's and other dementias are projected to increase to more than \$1 trillion in 2050.

Caregiving can become anyone's reality. The enormity of the Alzheimer's crisis is felt not only by the more than five million peo-

ple in the United States living with the disease today, but also by their more than 15 million caregivers, friends and family. According to the 2016 Alzheimer's Association Alzheimer's Disease Facts and Figures report, it is estimated that 250,000 children and young adults between ages eight and 18 provide help to someone with Alzheimer's disease or another dementia. In addition, 23 percent of Alzheimer's disease and dementia caregivers are "sandwich generation" caregivers – meaning that they care not only for an aging parent, but also for underage children.

The Alzheimer's Association works with caregivers to enhance care and support for all those affected by Alzheimer's and other dementias. Some of the resources available in Southeastern Wisconsin include a 24/7 Helpline, care consultations, education and training programs for persons with the disease and caregivers, Early-Stage services, support groups, and Memory Cafés. Other comprehensive online resources and information are available through the Association's website at alz.org and the 24/7 Helpline at 800.272.3900. The Association provides assistance to more than 310,000 callers each year, offering translation services in more than 200 languages.

During Alzheimer's & Brain Awareness Month, the Alzheimer's Association is encouraging everyone to uncover the truth about Alzheimer's and to show their support for people living with the disease by doing the following:

Participate in The Longest Day® on June 20, a sunrise-to-sunset event to honor those facing Alzheimer's disease with strength, heart and endurance.

Join the Alzheimer's Association in wearing purple throughout the month, especially on June 20. Share photos of yourself, family, friends and co-workers wearing the movement's signature color via Twitter, Facebook, Instagram, etc. with the hashtag #ENDALZ.

Visit alz.org to uncover the critical truths about Alzheimer's and why they matter.

The Alzheimer's Association is the leading voluntary health organization in Alzheimer's care, support and research. It is the largest nonprofit funder of Alzheimer's research. The Association's mission is to eliminate Alzheimer's disease through the advancement of research; to provide and enhance care and support for all affected; and to reduce the risk of dementia through the promotion of brain health. Its vision is a world without Alzheimer's. Visit alz.org or call 800.272.3900.

DAYS GONE BY

**5 Years Ago
June 9, 2011**

Former South Milwaukee schools superintendent hired for interim position. David Ewald is just getting to know Kewaskum this week, but he has more than 20 years as a superintendent behind him.

For senior T.J. Schlice, he peaked at the right time, clearing 13 feet, 6 inches (13-6) in the pole vault in the regional, sectional and finally at the Division 2 State Track and Field Meet on June 3, placing him in a tie for fourth place and earning him a medal in the event.

Talon Ralph is the Kewaskum District Speed Rope Jumping Champion. His scores of 47, 41, and 38 gave him a high total of 126 points. Ralph received a first place trophy in Division III.

A son, Miller Patrick, was born to Jodi and Tim Droese of Kewaskum, on May 5.

Lois E. Bunkelman, 82, of Kewaskum, died May 31.

**15 Years Ago
June 7, 2001**

Charlie Sparks crosses the finish line to take first place in the 4x200 relay at the state meet held in LaCrosse this past weekend. Sparks, along with Chris Canter, Tony Fitts and Tom Ogi set a new state record of 1:30.04.

Twenty students received their eighth grade diplomas from Principal Mrs. June Gauvin and Pastor Mark Jones during graduation exercises held at Holy Trinity Catholic Parochial School on Thursday evening, May 31.

A Farewell to Kewaskum Elementary School will be held Saturday, June 16, from 1 to 3 p.m.

Mrs. Frances Rohlinger, 86, of Kewaskum, died June 4.

Mrs. Clara Wiesner, 91,

of Kewaskum, died May 29.

Daniel S. Strancke, 31, of the Town of Wayne, died May 28.

William Palmer, 84, of Kewaskum, died May 22.

**25 Years
June 13, 1991**

Tim J. Herman, 5901 Willow Lane, Allenton has been awarded the Robert Grummer, and Myron and Anna Atwood Scholarships for the 1991-92 academic year according to Richard H Daluge, director of the Farm and Industry Short Course and assistant dean in the College of Agricultural and Life Sciences, University of Wisconsin - Madison.

Craig Garbisch of Boltonville, a member of the Boltonville Fire Department, was chosen as Firefighter of the Year.

A son, was born to Greg and Laura Giessen, of Kewaskum, on May 22.

**50 Years
June 10, 1966**

A special congregational meeting was held on Sunday, June 5, at Peace Church, Kewaskum, to consider preliminary sketches drawn up for a renovation and decorating program at the church. The estimated cost of the project is \$25,000. The project includes expansion of an improved foyer and cloak room facilities into a 100 coat area and lounge area, increased storage facilities for chairs and tables in the basement, stabilizing of the balcony as well as painting and carpeting of the sanctuary.

Four students from Kewaskum were among the 3,600 students who were candidates for degrees at the University of Wisconsin's June commencement at Madison. They were Robert N. Kroncke, Bachelor of Arts, Aldwin H. Seefeldt, Doctor of Law, Norman E. Rodenkirch, Master of Science, Richard N. Groh,

Bachelor of Business Administration.

Births - A daughter to Mr. and Mrs. Willis Haumschild, R.1, Kewaskum, Saturday, June 4. A son to Mr. and Mrs. Elwood Berg, R.2, Kewaskum, Tuesday, June 7.

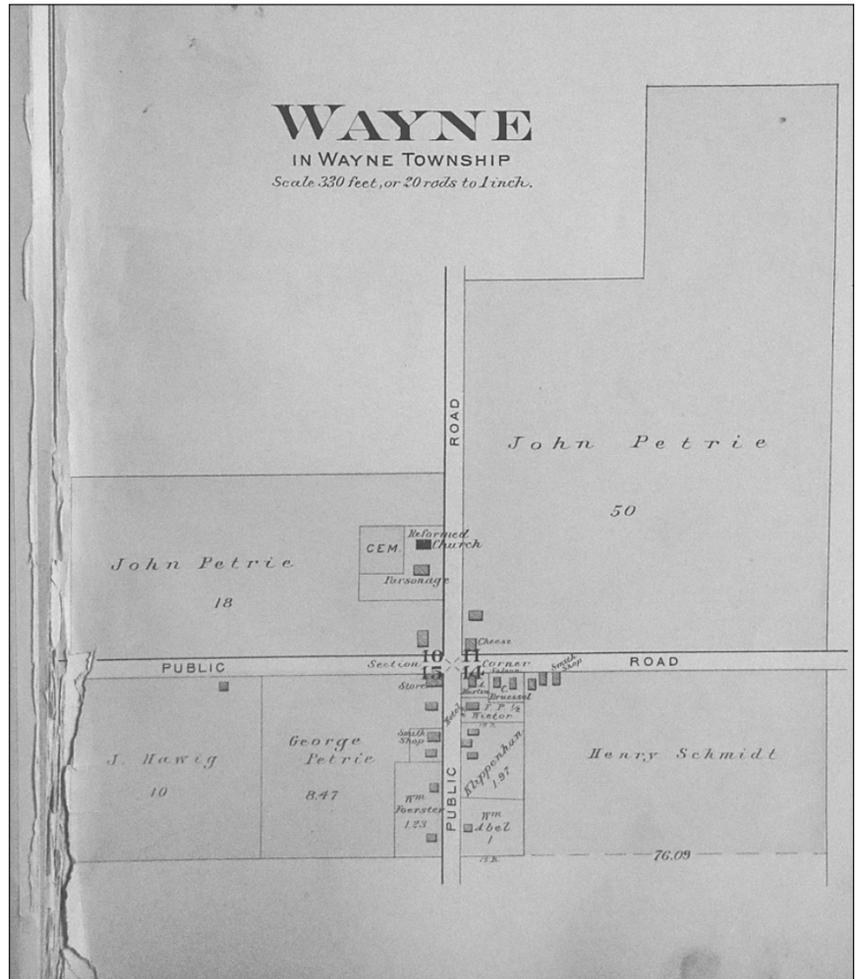

Marriage Licenses - Raymond W Dobberpuhl, R.1, Kewaskum and Deanna J. Rowley, LaCrosse, wedding June 25. Theodore J. Schneider R. 1, Kewaskum and Frances A. Backhaus, R.2, Kewaskum, wedding June 18.

**75 Years
June 13, 1941**

Autos driven by George Petri, of Wayne, and Harold Hatch of Milwaukee, collided at Barton at 8 p.m. Sunday. Several friends from this village were passengers in the Petri car, a Dodge sedan, but no one was injured. The collision resulted when Petri turned into Barton's Main Street and smashed into the side of the Hatch auto. The radiator, fenders, and other parts of the Petri car were damaged while that of the other machine was more severe.

Members of the Kewaskum Fire Department and helpers were at work the past two weeks erecting a large new stationary bratwurst and hamburger stand in the village park just south of the bandstand. The closed stand is 40 ft. long and 18 ft. wide. It has solid concrete floor and is entirely covered by a roof that extends out four feet on each side to cover the counter. The firemen expected to have the new building in operation next Sunday.

About 60 friends and relatives were entertained at the home of Mr. and Mrs. Richard Trapp, New Prospect, Friday evening in honor of their daughter

The Town of Wayne is depicted in a map in the 1915 Plat Book of Washington and Ozaukee counties.

Virginia's graduation. Mr. and Mrs. Alois Wietor, Mr. and Mrs. Frank Wietor and Mr. and Mrs. Oscar Boegel motored to Milwaukee Friday evening to attend the graduation at Pio Nono High School. Cryil Wietor was one of the graduates.

Old time dance at Gonring's Big Cedar Lake, this Sunday, June 15.

**100 Years
June 10, 1916**

At the stockholders meeting of the newly organized Farmers & Merchants Bank, held last Saturday afternoon, the following directors were elected: Christ Schaefer, Jr., Herman Meilahn, Emil Backhaus, A. L. Simon, Elywn Romaine, Louis Guth and Geo. Romaine and August Heberer, of the Town of Auburn, Authur Koch of Beechwood, Jos. Umbs and Phillip Jung of the Town of Wayne. The

newly elected directors elected the following officers namely: President, Christ Schaefer, Jr., Vice-president L. Guth, Cashier Elywn Romaine.

Miss Olive Opgenorth of Kewaskum, a junior in the College of Letters and Science at the University of Wisconsin, was awarded the "W.A.A." pin of the Women's Athletic Association at their annual banquet.

Muslin underwear. Just received another big shipment. Supply your wants now, Rosenheimer.

Herbert Martin returned to Campbellsport Tuesday after spending the past year at Stockbridge where he was principal of the high school.

Mr. and Mrs. E.A. Senn were pleasantly surprised by a number of their friends at their home Tuesday evening, the occasion being their tenth anniversary. A social time

was enjoyed by all present and dainty refreshments were served at 10:30, after which the guests departed wishing Mr. and Mrs. Senn many happy returns of the day.

Free Walking Club And Pedometer Available To Cancer Survivors

Froedtert & the Medical College of Wisconsin St. Joseph's Hospital is hosting a free walking club for cancer survivors and their family members and caregivers, Tuesdays at 9:30 a.m. and Thursday's at 6 p.m. Locations vary and are available at www.froedtert.com/cancer/walk.

To register or for more information, contact the Froedtert & MCW Small Stones Wellness Center at 262-836-7272 or 414-805-0998. Registration is also available through the Hartford Parks and Recreation Department by calling 262-670-3730. Those who register receive a complimentary pedometer provided by the American Cancer

Society.

A cancer diagnosis creates physical, emotional and spiritual challenges, including regaining strength after treatment. The Froedtert & the Medical College of Wisconsin Cancer Network and Hartford Parks and Recreation are offering an outdoor experience to help cancer survivors build up strength and stamina with guided walks throughout the parks system. It's also an opportunity to find solace in nature and to inspire and be inspired by others experiencing the cancer journey.

Participants should check with their physician before participating in the walking club.

Froedtert & the Medical College of Wisconsin St. Joseph's Hospital, founded in 1930 by local doctors, community leaders and the Sisters of the Divine Savior, is a full-service hospital serving residents of West Bend and Washington County. St. Joseph's Hospital, specializing in women's health and birthing services, cancer care, surgical procedures and rehabilitation services, is part of the Froedtert & the Medical College of Wisconsin health care network, which also includes Froedtert Hospital, Milwaukee; Community Memorial Hospital, Menomonee Falls; and more than 30 primary and specialty care health centers and clinics.

Weekly HEALTH TIP
NEAT WAYS TO BURN CALORIES
Non-exercise activity thermogenesis (NEAT) is calories burned while doing common daily activities such as walking, climbing stairs, pacing, fidgeting, etc. that are not related to structured exercise. Studies show that increasing your NEAT can play a part in helping to maintain a healthy weight along with a healthy diet and regular exercise. NEAT movements can burn up to an extra 300 to 700 calories a day. To increase your NEAT, take the stairs, park farther from your destination, pace or stand up while talking on the phone, take a walking coffee break, walk to lunch, clean your house, walk the dog more, etc.

An Upcoming Calendar of Events for the Northern Kettle Moraine State Forest...

Thursday, June 9 - In Search of Bats, 8 p.m. - 9:30 p.m., Mauthe Lake Recreation Area Picnic Shelter (located off County Road GGG south of County Road SS near New Prospect) Join Heather Kaarakka, DNR bat researcher, as she shares what bats are found in Wisconsin, the status of their populations, and the effects and spread of white nose syndrome. Then discover firsthand how researchers are learning about northern long-eared bats through mist netting and tagging. This program is best for people over 12 years old.
Saturday, June 11 - Extreme Saturday Morning, 10 a.m. - 11 a.m., Picnic Shelters at Mauthe Lake Recreation Area (located off County Road GGG south of County Road SS near New Prospect) and Long Lake Recreation Area (located off Division Road north of County Road F near Dundee) Calling all youth to come explore the extremes of nature by participating in the Wisconsin Explorers program! The program involves completing a required number of activities in one of three age appropriate books (ages 3-5; ages 6-8; and ages 9+) to earn a very cool patch. Get help from a naturalist who will work with youth on activities from one of the first four topic areas of the books.
Saturday, June 11 - "Tree"mendous Trees Drop In at the Beach, 1 p.m. - 4 p.m., Mauthe Lake Recreation Area Beach (located off County Road GGG south of County Road SS near New Prospect) Stop in to find out how the "tree"mendous trees touch almost all parts of our lives. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.
Saturday, June 11 - Those Sly Coyotes and Foxes, 7 p.m. - 8:30 p.m., Sponsored by Friends of the Kettle Moraine, Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee) Coyotes and foxes are common critters, adapting well to both urban and rural parts of the state. They help keep rodent and rabbit populations in check. But, it can be frightening to see them wander through your backyard. Learn from Dianne Robinson, DNR Wildlife Biologist, about these wild canines' biologies, myths, facts, and nuisance management. This program is most appropriate for people over 8 years old.
Sunday, June 12 - "Tree"mendous Trees Drop In at the Beach, 12 p.m. - 3 p.m., Long Lake Recreation Area South Beach (located off Division Road north of County Road F near Dundee) Stop in to find out how the "tree"mendous trees touch almost all parts of our lives. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.
Sunday, June 12 - Guided Walking Meditation, 10 a.m. - 11 a.m., Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee) Looking to get your personal zen on or want to get active with people who have the same interests as you? Join Kimberly Gellings from the Essence Wellness Center as she begins the walk with a quick guided "grounding" mantra and meditation focused on feeling complete. She will then lead a short hike where the goal is to be observant and mindful of the world around you. Bring a water bottle and dress in comfortable "work-out" clothes. To register, call (920) 533-8322 by June 11. Children are welcome and encouraged!

dren are welcome and encouraged!

Wednesday, June 15 - Forest Ramblers, 7 a.m. - 8:15 a.m., Ice Age National Scenic Trail (Meet at the Shelter 1 Parking Lot on the north side of County Road H east of Hwy 45 near Kewaskum), Join us for an energizing morning hike of 3 to 4 miles on the Ice Age National Scenic Trail between County Rd H and Hwy 28.

Thursday, June 16 - When I Grow Up Nature Storytime, 6 p.m. - 7 p.m., Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee), We know what babies look like when they grow up. But what do goslings, fawns, and polliwogs become when they grow up? Join us as we uncover the answer to that question and more. This hour of nature fun awaits 3 to 6 year olds with accompanying adults.

Friday, June 17 - When I Grow Up Nature Storytime, 9:30 a.m. - 10:30 a.m., Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee), We know what babies look like when they grow up. But what do goslings, fawns, and polliwogs become when they grow up? Join us as we uncover the answer to that question and more. This hour of nature fun awaits 3 to 6 year olds with accompanying adults.

Saturday, June 18 - Alien Attack Drop In at the Beach, 1 p.m. - 4 p.m., Long Lake Recreation Area South Beach (located off Division Road north of County Road F near Dundee), We're being invaded not by outer space aliens, but by alien plants and animals. Uncover what foreign species are taking over our native communities and what can be done to help control their spread. You will have a chance to make several unique crafts including a smashed-plant bandanna. Bring your own bandanna or purchase one that day for a small fee. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.

Saturday, June 18 - Extreme Saturday Morning, 10 a.m. - 11 a.m., Picnic Shelters at Mauthe Lake Recreation Area (located off County Road GGG south of County Road SS near New Prospect) and Long Lake Recreation Area (located off Division Road north of County Road F near Dundee), Calling all youth to come explore the extremes of nature by participating in the Wisconsin Explorers program! The program involves completing a required number of activities in one of three age appropriate books (ages 3-5; ages 6-8; and ages 9+) to earn a very cool patch. Get help from a naturalist who will work with youth on activities from one of the first four topic areas of the books.

Saturday, June 18 - Get Outdoors! Go... Twilight Paddle, Sponsored by Friends of the Kettle Moraine, 6:30 p.m. - 8:30 p.m., Mauthe Lake Recreation Area Boat Launch (located off County Road GGG south of County Road SS near New Prospect), Presenter: Jackie Scharfenberg, Forest Naturalist, Join us for an evening canoe trip around Mauthe Lake and up the Milwaukee River. As we paddle, we will keep our eyes and ears open for evening birds and other wildlife. Class limit is 24 to 30 people without canoe equipment. Basic canoe skills will be covered. No experience is necessary. In the event of threatening weather, the program will be canceled. This program is most appropriate for people over 8 years old. To register, (920) 533-8322 by June 17.

Sunday, June 19 - Alien Attack Drop In at the Beach, 12 p.m. - 3 p.m., Mauthe Lake Recreation Area Beach (located off County Road GGG south of County Road SS near New Prospect), We're being invaded not by outer space aliens, but by alien plants and animals. Uncover what foreign species are taking over our native communities and what can be done to help control their spread. You will have a chance to make several unique crafts including a smashed-plant bandanna. Bring your own bandanna or purchase one that day for a small fee. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.

All the events are free except at locations where a Wisconsin State Park System vehicle admission sticker is required or where a fee is listed. The events are held within the Kettle Moraine State Forest - Northern Unit at the locations listed for each event. The Ice Age Visitor Center is located about 20 miles north of West Bend and 20 miles south of Fond du Lac.

An Upcoming Calendar of Events for River Edge Nature Center

Thursday, June 9 - Little Explorers Play Group, 10 a.m. - 11:30 a.m., Let's gather in the Natural Play Area and share the wonder of nature through outdoor play. We will also venture into forests, fields, ponds and more. Nature sensory bins for babies and exploration tools for older children will be available. Indoor activities will be planned in case of inclement weather. Suggested Ages: 0-4 yrs, Trail Pass & Non-Members: \$5 per child, All Access Members: Free.

Saturday, June 11 - Riveredge Kids Cooking Series, 4th of July Favorites, 10 a.m. - 11:30 a.m., This program will be feast for your mind and your appetite! Create delicious, easy-to-make recipes for beginner chefs and harvest fresh ingredients from the Children's Organic Garden. This session's menu will focus on eating a rainbow, summer smoothies, and a 4th of July parfait. Each beginner chef will decorate their own apron. Please be prepared to share any food allergies your child may have. Pre-registration required. Suggested ages: 8-13, no adults, Non-Members: \$15 per participant, Riveredge Members: \$10 per participant.

Saturday, June 11 - Weekend Wild Things, 9:30 a.m. - 11:30 a.m. Come join the Riveredge Nature Center's new, once monthly Saturday land stewardship group, "The Weekend Wild Things". Are you interested in getting involved with land stewardship at Riveredge? Can't make it to Habitat Healers because of school or work? We now have a weekend option! Fee: Free.

Saturday, June 11 - Permaculture Gardening at Woodland Harvest: What, Why, How?, 10 a.m. - 11:30 a.m., Come see the Woodland Harvest Permaculture Garden and take a tour through our 4-acre sustainable garden! Learn what permaculture gardening is, why Riveredge has committed to this style of agriculture, and how it is managed for long-term food production. Specifically, the program will include subjects in permaculture design, soil and water management, crop rotations, managing free-range animals, and an overall tour of the garden. This is an educational hands-on experience will help you manage your own garden at home and expand your knowledge of sustainable agriculture! Non-Members: \$5 per person, Riveredge Members: Free.

Friday, June 17 - Walking the Labyrinth, 6:30 p.m. - 9 p.m., Come and experience Riveredge's newly created labyrinth, lighted by the full moon and firelight, this is the perfect chance for you to experience meditation in motion. Labyrinths are structures that help to facilitate inner peace and reflection. Participants are free to come and go anytime throughout the program time. Upon arrival to Riveredge, participants should come to the Main Building to register. Non-Members: \$5 per person, Riveredge Members: Free.

Friday, June 17 - Unwind in the Woods, 5 p.m. - 8 p.m., Venture into the woods, prairies and wetlands of Riveredge on a journey of self-discovery. Connect with the rhythms of the land, with your inner artist, naturalist, poet and child. We'll naturalize, botanize, and create a reflection of the places we visit around the sanctuary. Bring a journal, camera or notebook as well as your water bottle and hat. You are welcome to visit our new labyrinth before or after the program. Please pre-register at least 24 hours in advance, \$25 per person.

Saturday, June 18 - Children's Library Adventure Time, Marsh Music by Marianne Berkes, 10 a.m. - 11:30 a.m., Meet in the Children's Library and venture to Frog Haven Pond to hear the story Marsh Music. Follow your guide as you listen and search for toads, frogs and polliwogs! Children under 6 must be accompanied by an adult. Suggested ages: 7 & under, Trail Pass & Non-Members: \$5 per person, All Access Members: Free.

Sunday, June 19 - Father's Day Fly Fishing for Beginners, 12:30 p.m. - 3:30 p.m., This is an opportunity for fathers and their children to learn something new together on this special day. It also makes a great gift for a dad. We will supply all the equipment. Class size is limited to 12. Suggested ages: 12 & up, Non-Members: \$35 per person, Riveredge Members: \$25 per person.

For more information about Riveredge Nature Center, please go to their website at riveredgenature-center.org or call (262)375-2715. The Center is located about a mile northeast of Newberg off of County Highway Y/Hawthorne Drive. The center is open seven days a week

Smale And Stack Honored With St. Joseph's Hospital's Excellence In Medicine Awards

Dr. Jeffrey Smale, pulmonologist, and Heather Stack, physician assistant, have been honored with the third annual Excellence in Medicine Award from Froedtert & the Medical College of Wisconsin St. Joseph's Hospital.

Physicians and nurses at St. Joseph's Hospital were invited to nominate one of their peers for the award, which recognizes the accomplishments of an individual physician or advanced practitioner at St. Joseph's Hospital. Nominees were evaluated based on upholding clinical practice standards, leadership, innovation, volunteerism to improve health care in a local community, the ability to communicate with colleagues and staff, and how the nominee supports the hospital's mission, vision and values.

"In all the time that I have known Jeff, he has always been cheerful and easy to talk to," said nominator Chuck Herdeman, clinical pharmacist in the St. Joseph's Hospital Kraemer Cancer Care Center. "He listens extremely well, and is willing to consider suggestions pertaining to patient care from pharmacists, nurses, social workers, therapists and the patient's family. I feel that he is looked up to by all of his physician peers, and certainly so by all of the employees of the hospital." After he cared for a

patient whose life was saved by a Boy Scout, Dr. Smale wrote a letter in support of the Scout, who received a National Heroism Award for helping save the patient's life. "This 'going the extra mile' to write a letter for the Boy Scouts of America Investigative Committee was another example of Jeff's thoughtfulness and involvement with the community," said Chuck.

Dr. Smale chaired the Medical Staff Performance Improvement Committee and has served as the chief of the medical staff, served on the Credentials Committee, and served on the Medical Executive Committee. He was the chief physician champion for what is now the St. Joseph's Hospital Pharmacy, Nutrition and Therapeutics Committee, served as the pulmonologist member of the Pneumonia Task Force, was the physician leader of the Core Measures Committee, and was one of the driving forces behind the creation of the hospitalist positions in the hospital.

"Heather has consistently gone above and beyond in patient care since starting practice several years ago," said nominator Dr. Mark Bosbous, plastic surgeon. "She has excellent communication, is consistently praised by patients and staff for her work ethic, compassion in patient care and willingness to

pitch in, as well as goes above and beyond the call of duty. She is an integral part of our plastic surgery quality program and continually looks for ways to advance her skills -- for example becoming a certified Botox and filler injector."

Heather serves as mentor and runs a physician assistant rotation in plastic surgery for the Concordia University Physician Assistant Program and gives a lecture each year on plastic surgery to the class. She served on the Quality Committee for the Froedtert & the Medical College of Wisconsin health care network, and on the PA Compensation sub-committee.

Froedtert & the Medical College of Wisconsin St. Joseph's Hospital, founded in 1930 by local doctors, community leaders and the Sisters of the Divine Savior, is a full-service hospital serving residents of West Bend and Washington County. St. Joseph's Hospital, specializing in women's health and birthing services, cancer care, surgical procedures and rehabilitation services, is part of the Froedtert & the Medical College of Wisconsin health care network, which also includes Froedtert Hospital, Milwaukee; Community Memorial Hospital, Menomonee Falls; and more than 30 primary and specialty care health centers and clinics.

Kiwanis®

Kewaskum Kiwanis Club

- Local Club Supports Community

Kiwanis is a global organization of member-volunteers who are dedicated to changing the world, one child and one community at a time.

The club is a big part of what is happening around Kewaskum - and the world - today.

During the 1970s and 1980s the Kewaskum Kiwanis Club continued its tradition of giving back to the children and community with the most notable gift of \$75,000 for the pool pond in the Kiwanis Park. The pool has been enjoyed by many over the years.

While the pool is involved with some controversy today, as the community considers replacing the pond with a pool or splash pad, it is hoped that it will be around for many years to come. The Kiwanis

Club hopes the pool will be enjoyed by children and adults alike.

In addition to establishing the community pool, the Kewaskum Kiwanis Club made other contributions during the 1970s and 1980s. During those two decades, the club donated money to the hospital drive in West Bend and sent students to leadership conferences. The club sponsored summer recreation programs, Christmas parties and senior citizens' bus trips to Milwaukee. The Kiwanis Club helped send a local Boy Scout to Norway and gave more than \$14,000 for tennis courts at the high school. The list goes on and on, with continued support for the schools, village, fire department, those in need of help, Badger Boys and Girls,

Boy Scouts, Girl Scouts and much more.

Remember, it can't be said enough, but over the history of the Kewaskum Kiwanis Club, more than \$500,000 has been raised and given to the children, schools and village of Kewaskum. Quite an accomplishment! Wouldn't you like to be part of that?

Join us!

The Kewaskum Kiwanis meets on the first, third and fourth Mondays of each month at 6 p.m. at the American Legion Hall in Kewaskum.

Anyone who is interested in joining the club or who would like more information should contact Larry Ammel, club president, at ammel_larry@yahoo.com or (262) 343-6446.

Wisconsinites Can Enjoy Breakfast On The Farm During June Dairy Month

This year, Wisconsin Milk Marketing Board's (WMMB) June Dairy Month promotion, Dairy Days of Summer, encourages residents to celebrate America's Dairyland by enjoying fresh dairy products and attending a local farm breakfast.

"If you've never attended a farm breakfast, you're missing out," said Dave Bavlinka, vice president of Advertising at WMMB. "Farm breakfasts are family-friendly, educational events that offer attendees various opportunities to enjoy fresh Wisconsin-made dairy products and a home cooked breakfast while learning more about dairy farms and animals,

and meeting hard-working farm families."

For decades, Wisconsin residents have been invited to celebrate June Dairy Month by attending events hosted both on and off dairy farms throughout the state. The first official breakfast was hosted in 1970 in Jefferson County as a fundraiser for the local 4-H Club. Today, more than 70 farm breakfasts and other dairy-friendly events are hosted each June. Residents looking for breakfasts and other events to attend are encouraged to visit www.DairyDaysofSummer.com to access an interactive event calendar that is searchable by date and

location.

The Dairy Days of Summer team will be accompanying June Holstein, a life-size cartoon cow and the official ambassador of June Dairy Month, to six farm breakfasts, including; June, 11, Dane County Breakfast on the Farm; June, 18, Sheboygan Farm Breakfast; June, 19, Kewaunee Farm Breakfast.

At events, the team will hand out recipe brochures and giveaways as well as host an interactive photo booth where kids of all ages can have their photos taken with June. To learn more about June Holstein and view her full

travel schedule, visit www.DairyDaysofSummer.com.

Beyond events, the website is host to a collection of more than 70 delicious dairy recipes including new Chocolate French Toast, Ice Cream Sundae Tacos, Strawberry Ricotta Pancakes and Southwestern Pasta Salad.

For additional recipes and photos, contact Amanda Triest at atriest@stephanbrady.com, (608) 772-3201. For additional information about June Dairy Month, contact Heather Porter Engwall, hporterengwall@wmmb.org, (608) 203-7235.

2016 Wisconsin Farm Breakfast & Dairy Facts

For more than 45 years, Wisconsinites have enjoyed going to farm breakfasts to learn about and celebrate the Wisconsin dairy industry and the people who make it great. As you make plans to attend your local farm breakfast, consider these facts.

In the early 1960s, Wisconsin residents celebrated June Dairy Month with Farm Bureau Breakfast and Dairy Farms. The first official farm breakfast was hosted in 1970 in Jefferson County. The

event, which was organized by the local 4-H Club, had 155 attendees. Today, tens of thousands of residents attend more than 70 farm breakfasts in Wisconsin.

The first farm breakfast was hosted by Craig and Laura Beane at Howlis Farms. As 96 percent of the 9,900 dairy farms in Wisconsin are still family-owned and operated, the majority of farm breakfasts continue to be hosted on family farms.

At the first farm breakfast, visitors enjoyed scrambled eggs, sausage,

Tuesday morning cake, ice cold milk and strawberry ice cream sundaes. Today, each farm breakfast has their own unique menu. It is anticipated that this year more than 5,000 gallons of milk will be served, more than 300,000 eggs scrambled and more than 100,000 pancakes will be flipped at farm breakfasts throughout the state.

A Wisconsin dairy cow produces an average of 2,639 gallons of milk yearly, or about seven gallons of milk each day.

In 1970, a gallon of milk

cost \$1.65. When adjusted for inflation, milk prices have fallen by 65 percent since then.

The average 250-cow dairy farm contributes more than \$1 million each year to our state's economy. In total, the dairy industry contributes more than \$43.4 billion to Wisconsin's state economy, more than double the entire state economy in 1970.

For additional information, contact Heather Porter Engwall, hporterengwall@wmmb.org, (608) 203-7235.

Kewaskum High School students Camryn Rhianna and Devon celebrate placing at the bronze level in Job Olympics on May 26. Students from schools around the area competed in various job-related activities to prepare them for life after high school. Examples include: filing, folding clothes, job application, job interview, packing a lunch and counting money, among many more.

FEATURE BUSINESS OF THE WEEK

Tuttle Creek Learning Center, Inc.

Tuttle Creek Learning Center, Inc. is proud to be in business for over 18 years. After purchasing the established center in 1997, Mike and Audra Beyer began molding the business, adding their own unique touches and continued the growing process to accommodate the communities changing needs. Over the past 15 years an infant, toddler and two year old room have been added to the already existing preschool room at the main site, as well as adding before and after school programs in Kewaskum Elementary School and Farmington Elementary School. They have been providing quality childcare for Kewaskum and the surrounding area for over 18 years, while continually improving and adding new features!

Audra brings 27 years of experience to the business and the Administrator, Shelly Marx, brings 23 years of experience. Along with them, there are 10-14 employees depending on the time of year. Mike and Audra Beyer are supportive of their staff going back to school through funding in conjunction with TEACH.

Thank you to all of the parents who have shared their precious children with us! We feel truly blessed to have met each and every one of you. We look forward to many more years of helping your children grow!

Students On The Write Track

Kewaskum School District students have increased their average writing score by 73 percent in elementary grades and 52 percent in middle school over the 2015-2016 school year based on an in-district writing assessment. This year marks the second of a three year strategic focus to improve literacy in the district.

Over the past school year, there has been an increase of 19 percent of elementary students writing on-grade level and an increase of 20 percent of students writing on-grade level at the middle school.

"We are very proud of our students and teachers and the growth we have seen this year in our writ-

ing," said Superintendent Jim Smasal.

The new writing curriculum is designed to give students direct instruction of important writing skills and then time to practice these skills in their own writing. Students work individually and collaboratively as they improve their writing. Teachers confer with individual students on writing goals and work with small groups based on their writing needs.

"This year was a great year for our students. The teachers have put a lot of time and energy into improving our writing program, and it has paid off," Curriculum Director Mark Bazata said.

Kewaskum Middle School Principal Julie Skelton addresses the crowd at the eighth-grade promotion ceremony on Wednesday, June 1.

Washington County 2016 Wild About Parks Summer Program

The Washington County Planning and Parks Department is kicking off the 2016 Wild About Parks Program on Saturday, June 25, at Ackerman's Grove County Park, 4875 County Highway Z just south of West Bend. This free event will be held 5 p.m. - 10 p.m. and includes the following activities for families of all ages:

Tree Climbing provided by the Wisconsin Arborists Association (5 p.m. - 8 p.m. - first come - first served.)

Night Star Gazing provided by the Northern Cross Science Foundation - Astronomy Club of Wisconsin (8:30 p.m. - 10 p.m.)

Soccer Scrimmage organized by the Washington County

Football Club (6 p.m. -7:00 p.m.)

Footgolf Putting Contest with prizes (7 p.m. - 7:30 p.m.)

Geocaching and Letterboxing Quest with prizes (5 p.m. - 8 p.m.)

Meet Smokey Bear and Fire Safety Program provided by the US Forest Service (7 p.m. - 8 p.m.)

Family Campfire with S'mores (8 p.m. - 10 p.m.)

Guided Glow Hike provided by Riveredge Nature Center (8:30 p.m. & 9:15 p.m.)

Beaks and Talons Raptor Program provided by the Schiltz Audubon Nature Center (6 p.m. - 7 p.m.)

Guided Kayaking on Little Cedar Lake provided by the Wisconsin DNR and Zodiac (5 p.m. - 8:15 p.m., pre-registration is

required.)

Learn to Fish (5 p.m. - 7 p.m.)

Paddle a canoe around Little Cedar Lake (5 p.m. - 8 p.m.)

There will be two kayaking programs available at the event. A 2-hour kayaking adventure around Little Cedar Lake is available for participant's ages 15 years or older. A shorter 45-minute kayaking exploration is also available for participant's ages 10 years or older who want to experience kayaking closer to shore. To reserve your spot, please contact the Washington County Planning and Parks Department at 262-335-4445. There is a limit of 28 participants for each of the kayaking programs.

The Geocaching and Letterboxing Quest is a treasure hunt for explorers of all ages. Explorers will use a series of clues to find letterboxes and geocaches hidden throughout Ackerman's Grove County Park during the event. Explorers that complete the Quest will be eligible for a variety of prizes.

The 2016 Wild About Parks Program is sponsored by GRAEF, Cabela's, West Bend Mutual Life Insurance, the Washington County Golf Course, Wachtel Tree Science, Inc. and Geidel's Piggly Wiggly.

For more information about these events please visit <http://www.co.washington.wi.us/parks>, www.facebook.com/washcoparks, Twitter @WashCoParks or contact Deb Sielski at 262-335-4445.

Summer Fun At The Campbellsport Public Library

Kids of all ages are encouraged to join in the Summer Reading fun at the Campbellsport Public Library. If you haven't had time to register for the reading prizes portion of the program there is plenty of time to sign up. Stop by the Library anytime we are open to pick up the forms, a book bag, and bookmark. Teens and adults are also invited to participate in the program, ask someone on the staff for details.

Kids of all ages are invited to drop-in at the library on Tuesday mornings at 10:30 a.m. to play recess

games. Miss Katey will get the fun started and supervise the kids. This program will only be held if it is nice enough to be outside. We are looking for college or high school kids to volunteer their time during this program. Call the Library for more information.

On Wednesday, June 15 Mrs. Salm will be at the Library to get kids moving. Kids ages three to six should come to the Library at 10:30 a.m. and kids ages six and older should be at the Library at 1 p.m. to play games. Wear your tennis shoes; the kids

always have a blast playing gym games with Mrs. Salm. This free drop-in program is open to everyone and will be held rain or shine.

On Friday, June 10 the library will be offering a free showing of Racing Stripes. An abandoned zebra grows up believing he is a racehorse, and, with the help of his barnyard friends and a teenage girl, sets out to achieve his dream of racing with thoroughbreds. This movie is rated "PG". Free popcorn will be handed out at this free drop-in event.

If you have any questions about any Library program or service please call (920) 533 - 8534 or email director@campbellsportlibrary.org. The Campbellsport Public Library is located at 220 North Helena Street, Campbellsport WI 53010. The library is open Monday - Friday, 9 a.m. until 6 p.m. The library is closed on the weekends. The library is open 24/7 at www.campbellsportlibrary.org. Like us on Facebook.

Homeowners On Meadow Lane In Kewaskum To Foot Portion Of Repair Bill

By Anne Trautner

Homeowners on Meadow Lane in Kewaskum are going to be spending some money to keep rainwater from going into the village sewage.

By village ordinance, residents are not allowed to put rainwater into the village sewer.

However, the majority of homes on Meadow Lane have been doing just that since they were built in the 1940s or 1950s. Drain tiles were built on the houses that connect directly to the sanitary lateral, which sends the water into the village's sewer system.

The 18 houses on Meadow Lane are now being told they need to fix the problem so that rainwater no longer mixes with the sewage.

Each sewer lateral is owned in its entirety by the property owner, from the house, extending under the sidewalk and all the way to the main located under the street.

"The reason for that is we can't control what people flush down their toilets," Kewaskum Village Administrator Matt Heiser

said.

Therefore, it is up to each property owner to foot the bill to correct the problem.

The village realizes this can be a hardship on homeowners, so it is offering to have the work done by a contractor at a reduced rate.

To install a new sanitary lateral, a sump pump and a discharge pipe will cost approximately \$4,300 to \$5,300 per household, depending on how much work needs to be done at the house.

"Some of the properties already have sump pumps and some already have laterals, so the cost will be different for each property," Heiser said.

The price that the village is offering may be considerably lower than what the homeowners could find elsewhere, Heiser said.

"To replace just the sanitary lateral can cost \$10,000 to \$12,000 in the private sector," Heiser said.

For homeowners who wish to finance the work, the village is offering a 3 percent interest rate for those who pay off the bill in three years, and will charge 5 percent for those

who pay it off in six years.

A meeting will be held on June 21 to go over options with property owners. Property owners are being asked to sign a consent or waiver to have the work done.

The issue is currently being addressed because the Wisconsin Department of Natural Resources wants the village to reduce the amount of rainwater going into its plant. That amount impacts how thoroughly the wastewater gets cleaned, Heiser said.

The village uses a natural process, where gravity flows from one chamber to the next, so that good bacteria eats bad bacteria. With higher volumes, that process gets sped up. The water rate increases, and then the water isn't cleaned as thoroughly, Heiser said.

The village water is currently at a safe level, but the problem still needs to be addressed, Heiser said.

"We haven't had a violation in a long time. The last time we did have a violation, which was three or four years ago, was due to stormwater inundating our plant," Heiser said.

It is unusual for village projects to go onto private property.

"Normally, our projects are limited to the right-of-way, which is essentially sidewalk to sidewalk. Anything else, that's up to the homeowner," Heiser said.

There likely will be other streets in the village facing this same issue in the future, Heiser said.

RECIPE OF THE WEEK

June 9, 2016

KRISTEN'S BACON RANCH POTATO SALAD

makes about 8 servings

Adapted from www.allrecipes.com

INGREDIENTS

- 2 pounds red potatoes, cut into bite-size pieces
- 1 (16 oz) container sour cream
- 1 (1 oz) package ranch dressing mix
- 1 1/4 cups cooked bacon, crumbled
- 1 1/2 cups shredded Cheddar cheese
- 2 bunches green onions, thinly sliced

DIRECTIONS

Place the potatoes into a large pot and cover with salted water. Bring to a boil over high heat, then reduce heat to medium-low, cover, and simmer until tender, about 20 minutes. Drain, then run under cold water until cool.

Combine the sour cream and ranch dressing mix in a small bowl until well-blended. Transfer the potatoes, bacon, Cheddar cheese, and green onions to a large bowl. Stir in the sour cream mixture until well-coated. Cover and refrigerate for about 2 hours before serving.

Continued From... **Becoming A Model Student**

Although they were moving halfway across the country, both Alaina and Kelly wanted to continue living the lives they knew in Kewaskum. Kelly was able to continue working for Allen Edmond Shoe Company from Los Angeles.

Alaina found that she could attend Kewaskum High School through its online program with the Wisconsin eSchool Network.

After Alaina and her mom moved back to Kewaskum, Alaina continued learning through the online classes so she could model in Milwaukee and Chicago.

Then, earlier this year, Alaina was chosen to model in Milan, Italy, for two months.

The online classes allowed Alaina to model in Italy, while still attending classes in Kewaskum.

Alaina does not know from day to day where her next modeling job will be, but with the online school, she can go with the flow. She knows that modeling can be a short-lived career, so for the time being, she's enjoying it.

"Everything is so unpredictable, and I never know what is going to be happening next, so I'm just kind of going where the wind takes me," Alaina said.

Kewaskum Online Schooling

Although Alaina was a student at Kewaskum High School for the past two years, most of her teachers were not in Kewaskum.

"Everything was through the Kewaskum School District. The teachers are located in different cities, but it is all Wisconsin based," Alaina said. "This year my English teacher was here, but I have a teacher in Baraboo and one in Kiel, and they have students all over."

To complete her classes, Alaina simply logged on to her computer. She did go into the Kewaskum Career Academy to complete some of her finals, but the majority of her work was done at home — or wherever she happened to be for her modeling career.

"It provides flexibility with my location and my times that I can do it, so that's nice. That's the big reason I like it," Alaina

said.

Even though Alaina has remained a 4.0 student through the online classes, she says it is not for everyone.

"I feel like a lot of students wouldn't be able to get their work done because there are so many distractions. You could just watch TV all day," Alaina said.

To stay on task, Alaina makes lists and writes things on her calendar.

"It definitely takes a lot of self motivation and time, I think, because you have to teach yourself the information by reading it. If you don't understand something, you are looking for examples on your own, where it probably would get answered a lot faster if you could just talk to a teacher," Alaina said.

Alaina admits that she misses seeing friends at school every day.

"I never thought of myself as a social person, but not interacting with people every day is kind of strange, but when I'm modeling I get to interact with people," Alaina said.

Alaina's favorite subject is history, but online schooling did not make her chemistry class more appealing.

"Science, in general, I really don't like. Online school doesn't make it any more or less enjoyable compared to if I was in regular school," Alaina said.

"It's nice that you have an actual teacher that you can email for questions, but mostly it's kind of on your own with reading the information and doing the assignments," Alaina said.

One of the advantages of online classes is working at convenient times.

"I probably get up later than the average kid, but I'm probably working a lot later. Sometimes I will still be working at 8 p.m. I don't want to only half finish an assignment, you want to get it all done," Alaina said.

While Alaina works on her schoolwork, her mom, Kelly works from home in another room in the house.

"Personally, I was a good student, but I never would have had the discipline to do that, or the motivation. I don't think it's for everyone," Kelly said.

Modeling Career

Alaina is grateful that her modeling career has given her real-life learning

experiences.

"Culturally, the travel, the exposure has been incredible. It's a wonderful experience that so many people never have. My only reservation is that she should be allowed to be a kid," Kelly said.

When she was in Milan earlier this year, she went by herself for the two-month modeling gig. She was housed with other models there.

"I made a lot of great friends from all over the world, and we still talk all the time," Alaina said.

Now that Alaina is back in Kewaskum, she still travels a lot to model clothing. She goes to Milwaukee or Chicago on a fairly regular basis.

"It's a lot of fun, but it's unpredictable," said Alaina, who usually doesn't know which jobs she will have more than a week in advance.

Finding work can be competitive, and the models have different niches.

"There is more serious modeling and then there is happy, smiling modeling," Alaina said.

Alaina is more of the serious type of model. Her father, Craig Rosenthal, who is a dentist, is not always happy with that type of modeling.

"He always wants me to show my teeth," Alaina said. "I never smile, unless it's for Kohl's."

Alaina Rosenthal attends online school from her Kewaskum home. Alaina has attended Kewaskum High School's online program while modeling in Los Angeles and Milan, Italy.

Kewaskum Schools Offer Online Learning

By Anne Trautner

For the past three years, the Kewaskum School District has offered online learning for students in middle school and high school by partnering with the Wisconsin eSchool Network.

"Basically, students can take courses with teachers throughout the state that are in the network with us. It's really all about creating a big nice network where we can all work together to provide opportunities to our students," said Joel Dziejczak, director of Next Generation Learning for Kewaskum Schools.

Kewaskum students can take either all or some of the classes online.

"With the blended piece, where students attend some classes in person and some virtually, they get the best of both worlds," Dziejczak said. "We have found that when students take only one or two online courses at first, and still have some traditional ones that they can

fall back on, that has been the most successful."

Still, Dziejczak warned that online learning is not the best choice for everyone.

"The relationship piece is a little more challenging. If you are sitting in a classroom and are not engaged, the teacher can see that. In the online environment, teachers just see the backend of that," Dziejczak said.

The online program does have the ability to offer virtual conferencing, however. There are phone interviews between the students and teachers, with discussion-based assessments. Also, the computer can track how much time students spend on the computer.

But a key factor in the success of online learning is parental support.

"Parents play a very important role," Dziejczak said. "You still need a learning coach to make sure you are keeping up with the classes."

Offering online courses does not come without a price tag. A single online course can potentially cost

the district about \$400 for one student to take one class.

Still, that is less expensive for taxpayers than if a student school chooses out of the district, Dziejczak said.

An online program can be attractive to busy families because it offers flexibility in schedules. In addition, it can be geared toward certain individual learning styles.

"As technology and education evolve, you will see more and more online activities in classes," Dziejczak said.

In fact, some schools require an online course for graduation, just to prepare students for the real world, he said.

"I don't think it's for everybody, but I definitely see education changing, evolving, as we move forward and online learning being more prevalent," Dziejczak said. "But you still need that time to interact with people in real life, not just virtually. It is really important to learn how to do that."

Continued From... Dancing Her Way Through School

Online School

For eAchieve online schooling, Carly's teachers are able to track the hours she spends on each class.

"You don't have to be on for a specific amount of hours, but you decide when you do it," Carly said.

Carly keeps a chart that shows what work she has to complete each week. And her parents can monitor how she is doing.

"Every Friday morning, I get a report showing if Carly has all her work completed. I have my own password, so I can go in and see what she has handed in," said Carly's mom, Julie Bartel.

Carly typically spends about five hours a day on her school work.

"Sometimes it takes me a little longer," Carly admitted.

But she doesn't mind spending time on the classes, especially language arts or history.

Carly and her family researched different online programs to decide which one to go with.

"When we initially looked at online programs, some of them were more book-based and you had to online at an exact time. There wasn't flexibility," Julie said. "What we really liked about eAchieve, is not only are the kids learning from home, the majority of teachers are teaching from home. So there is just a different energy about that. It is more relaxed."

The eAchieve students have the ability to log into a live class, or they can watch a recording of the class.

"The benefit of going to the live class is that you can press the button to ask a question," Julie said.

The thing that Carly likes best about online learning is there are not

the distractions that are in the traditional classroom.

"There aren't any distractions with any kids that might not understand, because the teacher is focusing on you, one person at a time, and you can email them personally. And during the class, students only talk when they have a question," said Carly, who earned all A's this year.

"It is also nice not to have to deal with bad behavior. The students can spend their time learning and then move on," Julie said.

Not For Everyone

Julie had previously homeschooled Carly and her three sisters for two years.

"Carly did an exceptional job with homeschooling, she was very self-guided," Julie said.

Now, though, online learning seems to be the best solution for Carly, the only dancer in the family.

"Online is a little more structured than homeschooling," Carly said.

Still, both Carly and Julie warn that online learning is not for everyone.

"Even within my own family, it didn't work for everyone," Julie said.

Carly's older sister, Jayna, is a freshman at St. Mary Springs High School in Fond du Lac. Jayna attended eAchieve for two years, but then decided to go to a regular high school.

Carly's younger sister Brynn, who just completed fourth grade, found that online schooling wasn't the right choice for her.

Brynn and Shaye, who just finished first grade, both attend Holy Trinity in Kewaskum.

"With Carly, though, online learning may be a longterm solution through high school, just because

of the other schedule requirements. Everything with her is focused on dance, so whatever can get her to dance is what she will pursue," Julie said.

Ballet Lessons

Earlier this year, Carly was featured in an eAchieve commercial that highlighted how the school allows Carly to spend more time ballet dancing.

Carly's dance classes are typically made up of 11 to 13 girls. The other girls in the class attend traditional middle schools, but there are other dance students who attend eAchieve.

"We've been told there are a lot of dancers who are homeschooling or doing some online program for high school," Julie said.

"Your schedule gets crazy when you are in high school, so you need the time to be able to learn so that you can be smart, but you also have to be dance smart," Carly said.

The extra time that Carly puts into ballet seems to be paying off.

She auditioned to attend a three-week intensive dance camp this summer, and was bumped up to the six-week intensive with older students. The camp will be held at UW-Milwaukee, but there are dancers coming from all over the world.

For Carly's mom, the ballet offers more than dance lessons.

"These girls are respectful, poised. I think that what they are learning in the discipline of dance carries over into every other aspects of their life," Julie said.

For Carly, it offers the opportunity to follow her dream.

"It's what I like to do," she said.

Kiwanis Park Pond Opens For Summer

The Kiwanis Park pond in Kewaskum opened on Monday, June 6. The pool will hold hours each day this week from noon to 5 p.m. through Saturday, June 11.

Beginning Sunday, June 12, The Kiwanis Park Pond will begin regular summer hours: Monday - Saturday, 11 a.m. - 7 p.m.; and Sunday, 11:30 a.m. - 7 p.m.

All scheduled hours depend on the weather and number of swimmers. For pool closings or lesson cancellations call (262) 626-8011.

626-8011.

Swim lesson registration will be held June 12 - 18, from 12 noon to 4 p.m. Registration will be held at the Kiwanis Park Bathhouse. A list of classes will be available at that time.

Swim lessons begin on Monday, July 11 and end Friday, Aug. 12. Swim lessons are held Mondays, Wednesdays, and Fridays. Tuesdays and Thursdays are make-up days, in case of inclement weather. For lesson cancellations call (262) 626-8011.

Youth tennis lessons registration will be held July 10-16, 9 a.m. - 12 noon at Kiwanis Park Bathhouse. Youth tennis lesson are held on Tuesdays and Thursdays (rain dates are made up at the end of the regular session). Lessons begin on July 19, and end on Aug. 4. Make-up lessons, if needed will be held after Aug. 4.

Passes will be sold during regular hours at the Kiwanis Park Pond, after June 11.

Jesse Dieckman proudly watches his son, Trent Dieckman, hold up a fish that he caught at Riverhill Park on Saturday, June 4.

Indians Come Up Short In Bid For State Golf

— Otto Earns Individual Berth

By Judy Harlow

The season ended a week early for the Kewaskum High golf team, but senior Andrew Otto is alive to play another day after qualifying for the Wisconsin Interscholastic Athletic Association's D-2 State Tournament.

Otto fired 41-35—76 at the Sheboygan Falls sectional held at The Bull of Pinehurst Farms on May 31 to earn the second individual spot to move on to state.

The Indians had more on their minds going into the tournament, and while all five players bettered their scores on the second nine, the effort wasn't enough to get past the Catholic Memorial and Sheboygan Falls teams on the scoreboard.

The Memorial Crusaders, who had been up and down this spring according to KHS coach Glenn Eichstedt, were definitely "up" on this day, carding a 317 from its low four players. Sheboygan Falls, which started off with a sizzling 150 on its first nine, struggled a little on the closing holes, but still ended up at 323. Kewaskum was third at 335, six strokes in front of Winnebago Lutheran.

"We picked the worst time to shoot our worst nine-hole total (179) of the season, then followed that up with our second lowest nine-hole total of the season (156)," Coach Glenn Eichstedt said. "Going into hole 18, we were on a 152 pace, but the hardest handicapped hole added four more strokes to our team total."

WLA's Chris Colla, who had nines of 38 and 37 for a three-over-par 75, was the meet medalist and will also play at the University Ridge Golf Club on June 6-7.

Then came Otto, who was tied with two other players, Ian Tisonik of

Catholic Memorial and Matt Bachmann of Sheboygan Falls.

Senior Sam Schlosser ended his fine career with a 43-42—85, several strokes over his season average. Schlosser, the Player of the Year in the new East Central Conference, tied for 15th with two others. Next came seniors Sean Murray and Trent Griesemer, who were at 87, tied for 23rd place. Murray started out with a 46 and knocked five shots off that total on the back nine for his final score. Griesemer finished the No. 8 and 9 holes with eights on both for a 48, then on the back he got things going with and ended his career with a fine 39.

Freshman Jacob Schlosser, who shot an 80 (tie for sixth) in the regional at Rolling Meadows in Fond du Lac, may have felt additional pressure in the sectional and had to settle for a 46-44—90. His score did not count.

Otto was scheduled to play 18 holes on June 6 and another 18 on June 7 in the state tournament.

Sheboygan Falls Sectional

Catholic Memorial, 317; 2. Sheboygan Falls, 323; 3. Kewaskum, 335; 4. Winnebago Lutheran Academy, 341; 5. Brookfield Academy, 355; 6. University School of Milwaukee, 359; 7. (tie) Grafton and Racine St. Catherine's, 365; 9. Martin Luther, 369; 10. Oostburg, 484; 11. Kettle Moraine Lutheran, 385; 12. Shorewood, 439.

Schlosser Gets First Ace At Kettle Hills

While practicing with Andrew Otto, Sam Schlosser aced the par three number 17 hole on the Kettle Hills Valley Course. Schlosser used a 50-degree wedge to hit his first hole-in-one, according

to Glenn Eichstedt, who was playing with the two members of his high school team.

Eichstedt said the hole, which is uphill, measures 124 yards.

First Round Isn't What Otto Hoped For

By Judy Harlow

KHS senior Andrew Otto struggled mightily on the first three holes of his first round in the WIAA State D-2 Golf Tournament on June 6, leading to a score of 92, putting him in 46th place in the competition.

"He got off to a horrendous start," KHS coach Glenn Eichstedt said, reporting Otto, going off on the back nine at University Ridge, went quadruple bogey, bogey and triple bogey on numbers 10, 11 and 12 for a score of 49. He went out of bounds on the first two holes, according to Eichstedt, who reported he had bunker trouble on the par three number 12 hole where he took a six.

In typical Otto style, he batted back as best he could on the front putting together a string of three pars and staying away from big numbers until he hit number nine and went four-over to end with a 43.

Otto, a first-team all-East Central Conference player, had a chance to redeem himself in the final round on June 7.

Hanson Finishes Third In High Jump; Brock Places Eighth

By Judy Harlow

The curtain closed on the 2016 track season on June 4, with Jason Hanson and Derrek Brock as the lone place winners for Kewaskum High in the Wisconsin Interscholastic Athletic Association's State Track and Field Meet held in La Crosse.

Hanson had his eyes on the big prize in the Division 2 high jump but had to settle for third place as Fox Valley Lutheran's Ben Gucinski stole the show by clearing seven feet, one inch (7-01) for a new state record in all classes, D-1, D-2 and D-3. "I'll tell you what, I'm extremely proud of him. He was a great leader and a great captain, an incredible force on the team," KHS coach Kris Evans said about Hanson.

Evans said that normally Hanson was able to finish his jumping and then run, but the WIAA schedule had the 800 on Friday and the high jump on Saturday, so he was "probably jumping on tired legs" after finishing ninth in the 800 with a time of 1 minute, 57.22 (1:57.22) seconds.

Evans said Hanson set the school 800 record, which he held, by two seconds. "He really laid it all out. I'll take that any day," he said.

Hanson made 6-02 and 6-04 on his second attempts, passed at 6-05, then cleared 6-06 on his final try and then decided to pass on 6-07 and go right to 6-08, according to Evans, who said Hanson

figured he had just so many jumps left in him. When asked if he was close at 6-08, Evans said, "He was," but still missed all three tries at that height and was eliminated from the competition.

"He was mad at himself for 10 minutes, then after watching Gucinski go 7-1 said, "OK, I concede defeat."

"He walked out of there with his head held high," Evans said. "He's looking ahead to going to UW-M (UW-Milwaukee) and high jumping there."

Brock, a junior, nearly was unable to make the trip as he came down with a fever the day before prelims. Still, Brock was fairly poised in the qualifying race, running a time of 40.30, which was fifth fastest of the two heats and gave him a premium lane in the finals.

In the finals, Brock "stutter stepped the third to last hurdle, lost his momentum, and I think he lost a full second," according to Evans, who said he finished eighth with a time of 41.03.

"He had the worth ethic, the form and the skills, I think, to go all the way" next year, Evans said of Brock.

These two young men gave KHS seven points to finish tied for 33rd place with three other teams.

Ben Watzig ended his career with a 15th place in the shot put, behind an effort of 47-01.25, several feet shorter than his sectional distance.

"It's a funny thing how the state meet can get in

your head. People who have performed incredibly well during the season can come up short at state," Evans said, reporting one of the top discus throwers scratched on his three preliminary throws and didn't even get to the finals.

The Lady Indians performing at state were seniors Ellie Debelak and Krystina Lepp.

Debelak just qualified for the finals in the 400 as the two preliminaries provided some very quick times. Her time of 59.69 was 10th fastest, putting her in the outside lane for the finals.

"In the finals, she ran a 1:01," Evans said of Debelak's ninth place in 1:01.39. "I don't know what to attribute that to ... maybe it was tired legs" after Friday's run, Evans said, noting Debelak knew she had to go out fast in the first 200. "She was right there but couldn't hang on."

Still, considering Debelak missed the first five or so weeks because of an injury, taking ninth was "incredible," according to the coach.

Krystina Lepp cleared 5-00 on her second attempt but missed all three tries at 5-2, so she finished 17th overall based on misses. There were six girls who made 5-0. "She just came up a little short," the coach said.

Kewaskum had a successful season, highlighted by the boys' win in the D-2 regional it hosted.

Neu's Gem Lifts Indians To 4-3 Win At Germantown

By Judy Harlow

While the hitting has been a little sporadic, Kewaskum's pitching has been outstanding in recent North Shore Conference baseball games.

At Germantown on June 3rd, that trend continued as sophomore Andrew Neu turned in the best performance in his young pitching career, tossing a one-hitter against the host Warhawks for a 4-3 victory.

The win puts the Indians' conference record at 3-2 and overall mark at 5-3. Germantown fell to 2-3 and 4-3.

KHS coach Doug Gonring was downright bubbly about the back-to-back efforts of Prochnow in the 2-0 victory over Port and then Neu's one-hitter.

"I'm extremely pleased with the pitching staff," Gonring beamed. He also had high praise for Jared Chesak, saying, "Our catcher had blocked every ball" that has been off target.

"We had 98 pitches (Prochnow) and 101 pitches (Neu)," Gonring said. That's at the threshold of being excellent!"

The game didn't start the best for the southpaw Neu but it sure ended on a high note as he needed just nine pitches in the sixth inning and 11 in the seventh to hold the Warhawks at bay.

"I was just trying to take my time, concentrate on hitting the mitt and throw

strikes," Neu said, indicating he wasn't worried if the Warhawks would hit the ball because he knew the defense was behind him.

"We just feed off each other," Neu said about his fellow pitchers and the rest of his teammates. "There's a lot of energy here. We just have fun."

All but one of the seven runs in the contest were scored in the first two innings. Germantown sent seven to the plate in the bottom of the first when the Warhawks used Blake Kuhn's double to deep left-center for a 1-0 lead and Tony Steger's error in center field to score twice more.

Neu had no trouble getting the first two outs, but as Connor Stowming was facing a one-and-two count, Chesak was called for catcher interference, allowing Stowming to take first base. He scored on Kuhn's hit.

Never fear, the Indians came right back, however, with three runs of their own off G-town starter, Max Miller. Cole Surprenant got things started with a solid single to center, and after Chesak was hit by a pitch, Devyn Zillmer bunted and Miller threw the ball over the first baseman's head, allowing one run to score.

Miller got Zack Heberer to strike out, but then Steger came through with an RBI single scoring Zillmer, and after John May got hit by a pitch to load the bases, the

Indians got run number three on a wild pitch.

Germantown never really threatened after the first as Neu was patient and kept the Warhawks off balance with a mix of pitches. He didn't allow a base runner in the fifth, sixth and seventh, wound up with eight strikeouts and three walks.

While the pitching was good, the defense was a bit shaky in the first inning but it got better. "Outside the first, it was real clean," Gonring said, still looking at areas that need improvement like taking pitches with two strikes in the count. "Nothing good happens when the bat stays on the shoulder," he said.

Kewaskum wound up with four hits. In addition to those already mentioned, Heberer and Michael Prochnow both had singles.

After hosting the Southeast Wisconsin Christian Homeschool team and playing non-conference New Berlin West, the Indians are home this evening (June 9) against West Bend East.

North Shore standings as of June 4: 1. Whitefish Bay, 4-1; 2. Homestead, 3-1; 3. (tie) Cedarburg, 4-2 and Grafton, 4-2; 5. Kewaskum, 3-2; 6. West Bend West, 2-2; 7. Germantown, 2-3; 8. (tie) West Bend East, 1-4 and Nicolet, 1-4; 10. Port Washington, 0-4.

Kewaskum High School Trap Team Wins Division Title

The Kewaskum High School trap shooting team finished its season at the Kettle Moraine Conference 100 Target Shoot in Rome, Wis., on May 14.

Despite the weather, the varsity team shot a 472, which gave it first place in the Large Schools division. Team members were Hannah Antonia (97), Jake Moser (96), Austin Heberer (93), Conor MacFarlan (93) and Jack Felten (93). The varsity team placed second out of 20 teams at the Conference Shoot.

The junior varsity placed second overall at the Conference Shoot, with a score of 423. Team members were Kyle Beth (89), Nick Hetebrueg (89), Cody Oelhafen (85), Caleb DeYoung (80) and Cody Marks (80). Jake Moser, Hannah Antonia, Kaitlyn Valley, Kyle Beth, Nick Hetebrueg and Serena Vetter earned individual Conference Shoot awards.

For the season, the var-

sity had a 5-4 record, placing the team in fourth place in the Southern Division with 2,591 of 2,750 targets hit. This was second highest in the conference.

Students receiving All-Conference awards were: (First Team) Justin Limberg and Jake Moser; (First Team - Ladies) Hannah Antonia; and (Second Team - Ladies) Kaitlyn Valley.

The junior varsity ended with a 7-2 record, placing the team in second place in the Southern Division, with 2,235 of 2,750 targets hit.

"It was a really solid season, with great scores. Unfortunately, the varsity lost two tie-breakers, which dropped us in the standings," said Head Coach Brian Taylor. "We had some real consistent shooters on our varsity, with Jake Moser, Justin Limberg, Jack Taylor and Austin Heberer. We also had two freshman, Isaac Rohlinger and Nicholas Thill, who were able to

contribute to varsity scores."

The team celebrated a successful season with an Awards Night and Fun Shoot on May 31. Team awards were given to Jake Moser for Team High Gun with an average of 47.2 and Hannah Antonia with an average of 45.3.

The Team MVP award went to Justin Limberg with a 47 average, eight varsity scores, seven 25s for the season and a perfect score of 50 against Campbellsport.

Kyle Beth received the award for Most Improved Shooter of the season with a 29 target increase. The Rookie of the Year award went to freshman Isaac Rohlinger with a 42.3 average, three varsity scores and three 25s.

"We had a great season, with a quality group of kids, and we want to thank the parents who helped out and supported the team throughout the season," Taylor said.

Sarauer's Walk-Off Homer Lifts A's Past Oakfield

The Kewaskum A's baseball team picked up a gritty 9-8 walk-off win in 11 innings over Oakfield on Sunday afternoon, May 29, to move their Rock River League record to an even 3-3 (4-5 overall).

In what was an outstanding back and forth game, Oakfield raced ahead to an early 5-1 lead after four innings. The A's left a small village on base on Sunday, but were finally able to scratch across a single run in the fifth and

three runs in the sixth to tie the game at five apiece. Austin Cairo had a huge two RBI single in the sixth while Mike Aiello pushed in a run on bases loaded walks in both the fifth and sixth innings.

The A's grabbed their first lead of the day in the seventh on a Jim Ziegler RBI single and Austin Cairo followed with a single that led to another run to give the A's a brief 7-5 lead. This was a short-lived lead as Oakfield

responded with three quick runs in the eighth to retake the lead at 8-7.

After two quick outs by Kewaskum in the bottom of the eighth, Adam Sarauer came up huge with a game-tying homer that just cleared the fence in left. Both teams went quietly until the 11th, when Sarauer led off the inning with his second home run of the day to give the A's the walk-off win.

Brad Young (3IP, 6 Ks) picked up the win in relief of Jim Ziegler (6IP, 7Ks, 4 ER) and Jordan Dreikosen (2IP, K, 3 ER). Adam Sarauer finished the day 3x5 (2 HRs, 2B, 2 RBIs, 4 runs) at the plate, while Austin Cairo had his best day as a Kewaskum Athletic as he went 4x5 (2 RBIs). Jake Spaeth (HR) and Nate Grzybowski finished with two hits each on the day.

KHS Knocked Out Of The Tournament By Top-rated Hawks

By Judy Harlow

Try as they might, the Kewaskum Indians were unable to stop Xavier's Natosha Amack and Jenna Schmitt in a Division-2 regional soccer match played in Appleton on June 4.

Amack and Schmitt combined for five goals as the host Hawks, who were the number one seed in the regional, won the contest 6-0, ending the Indians' season and bringing to a close the careers of seniors Jeray Riffel, and Emily Krier, who divided their time between soccer and track.

The loss came two days after the Indians had defeated Waupun 2-1 in first-round action.

"Kinda what we expected," KHS coach Luke Piwoni said about his club going 1-1 in the tournament, ending its year at 8-11-5. (Ties were not broken this year in regular-

season games as they have been in the past.)

Kewaskum got off 10 shots in the game while the winners had 16.

"Number nine and number 10 ... they beat us up pretty good," Piwoni said about the two Xavier stars. "They had good speed up top. Our defense did a real nice job, but when they got behind us, they were able to score."

The Terrors scored three times in the first half, and Piwoni said there was an eight- or nine- minute stretch in the second half when they scored three more goals. "We had scoring opportunities, but a couple of times we kicked it right at the goalie," he went on.

"I thought our defense improved a lot this year," but many of the players were new to varsity soccer or to the game itself, Piwoni said, adding, "I knew we would be able to score goals this year. We

just needed a few more players so we could have more consistency."

Kewaskum 2, Waupun 1

"It was very tight like we thought it would be after tying them twice," Piwoni said about the game against Waupun, indicating his girls wanted to win this one to keep the season going.

Kewaskum broke the 0-0 tie with a goal 1:22 before halftime. "Jeray scored that one on a corner kick. There was a lot of traffic (in front of the net) so the goalie couldn't see it. The goalie couldn't catch it, and it went in."

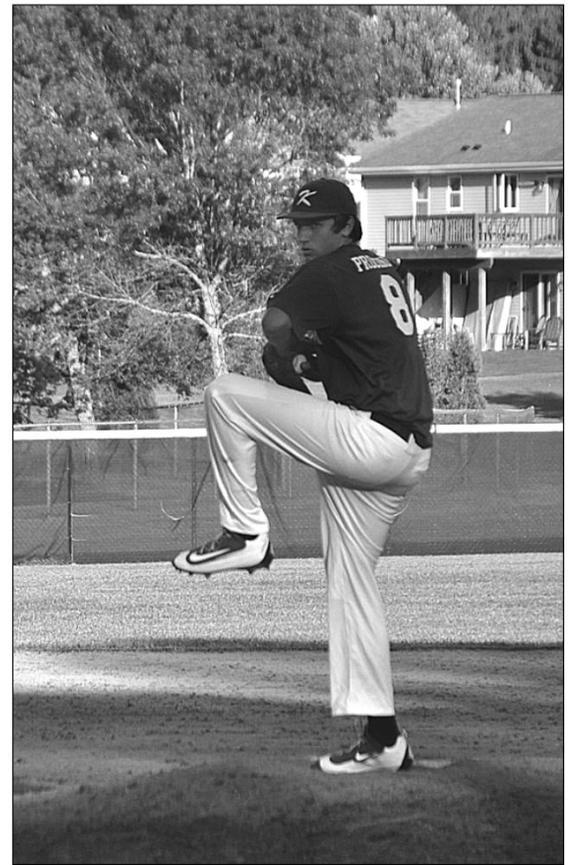

Waupun tied the score with a goal at 70:00. "It was hard to explain," Piwoni said, reporting the ball rolled through two Indian defenders. "It became a one-on-one with Courtney (Aker). She made her change direction, but the girl was still able to put it in."

It was Riffel to the rescue at 84:00. "She scored the game-winning goal. She made a couple people miss, got a clean shot off and put it in," the coach said. Riffel ended the season with 29 goals and 13 assists for a total of 71 points. Both are records for Kewaskum girls soccer.

The defense held the rest of the way, and the Indians had earned the right to move on in the tournament.

KHS had 13 shots in this effort compared with seven for Waupun. Aker was credited with six saves.

When it came to defensive standouts, Piwoni quickly cited Hailey Herriges. "It's been Hailey all year," he said. "She cleaned up everything, and every time they had something brewing, she shot it down."

Kewaskum High School's Mike Prochnow pitches for the Indians in a game against Port Washington on Thursday, June 2.

photo by Dan Miller

Prochnow Handcuffs Pirate Hitters In A 2-0 Win

By Judy Harlow

It was Michael Prochnow to the rescue for the Kewaskum High baseball team after losing back-to-back games to Homestead and Whitefish Bay. Prochnow came through in a big way, limiting visiting Port Washington to no runs and just two hits in the 2-0, complete-game victory.

The win was the second for the lanky senior in North Shore Conference play, and it helped KHS to move to a 2-2 conference record and 4-3 overall. Prochnow struck out nine and needed just 98 pitches for the win.

When asked what was working for him, Prochnow said, "I could locate my curve ball really well," and added, "I was hitting my spots more the second half of the game."

The few times his curve got away from him, Prochnow said his catcher, Jared Chesak was right there to stop it. "He (Chesak) did a great job blocking curve balls in the dirt," he said.

The Pirate's Jack Kinzer

had a single in the first inning and a single in the third and that was pretty much it, as Prochnow faced just three batters in the fourth, fifth, sixth and seventh innings.

Port's Kale Knaub pitched fairly well too, giving up single runs in the first and fourth on five total hits before he was lifted in the sixth. Reliever Matt Wozniak gave up one hit in the sixth.

The Indians scored their first run when John May drew a walk, advanced to second on a fielder's choice and scored when Andrew Neu ripped a single up the middle.

Chesak, in the batting order for the first time this season, went 3x3 with three singles, including one that opened the fourth and led to KHS' second run. With runners at second and third, May hit a dribbler to third and beat it out for an RBI single.

Concerning his big day at the plate, the sophomore Chesak said his hits came "mostly on fast balls," adding, "It was good to get up there and swing. I had a blast!"

Homestead 2, Kewaskum 0

In the June 1 makeup game in Thiensville, it was a case of the more experienced Highlanders making the most of its scoring opportunities while the young Indians are still learning how to do that. KHS outhit the hosts six to four but lost a 2-0 decision.

Both pitchers, Joe Panella of Homestead and Kewaskum's Cole Surprenant brought their A-games to this matchup. Surprenant, mixing his pitches well and going to the change-up effectively, allowed one run on just two hits and struck out seven in five innings of work, while Panella, who handcuffed the Indians in the WIAA sectional last July 12-2, went the distance, striking out 11 and scattering six hits.

The Indians had two good scoring opportunities, one right away in the top of the first when John May led off with a single, was sacrificed to second and advanced to third when Mike Prochnow singled to left.

May got picked off third base, however, and Panella managed to get the third out when he struck out cleanup hitter, Andrew Neu.

Kewaskum threatened again in the top of the fifth when Tony Steger hit a single off the second baseman's glove, stole second and was moved to third on a bunt down the third baseline by May, who reached first as the third baseman never fielded the ball.

Coach Gonring wisely called for the suicide squeeze, but Dalton Poole's bunt went right to the pitcher, who threw home in time to get Steger before he could touch the plate.

Homestead got its first run in the third when Sam Brink hit a two-out single after Brooks Ralph and Tyler Woldt drew walks.

Dalton Poole came on in relief of Surprenant in the seventh, giving up a triple by Woldt past a diving Mike Prochnow and an RBI single by Ryan Cho.

Alexa Walczak holds up a bluegill that she caught during the 25th annual JAKE's Fishing Day on Saturday, June 4. The fish measured 9 3/8 inches.

Kewaskum Youth Soccer Organization Results

On Monday, May 30, the Knights took on Hustisford Impact and won with a score of 5-1. Kewaskum had an outstanding defensive team led by goalies Gannon Kreuser and Andrew Bolek. Kewaskum's defenders Tayllor Fischer, Emma Penfield, Colin DeYoung and Trevor Geldnich did a great job keeping

Hustisford on their toes. Kewaskum's offensive team of Andrew Carlton, Mark Moran, Isaiah Cochran and Gannon Kreuser scored five goals.

On Saturday, May 28, the Knights took on the Jackson Tigers and won with a score of 7-0. Kewaskum's midfielders worked hard backing up both the offensive and

defensive team. Hunter Koss, Elena and Emma Vlotho, Skylar Schmitt, Lucas Becker, Brett Moran and Trevor Geldnich worked up a sweat keeping the Tigers on their toes. A great job was done by the Knights.

The Knights' scorekeeper Kaylee Du Charme contributed to the team throughout the entire sea-

son. She was injured this season and was unable to play the field. But she led the way on the sideline, keeping her team in high spirits and guiding them along the way.

All the parents showed great support for the players and the coaches all season long.

E.H. Wolf Memorial Day Special Goes To Conrad Morgan

By Dan Margetta

South Eastern Wisconsin Short Track Hall of Famer Conrad Morgan notched yet another win in his impressive career as he drove to victory in the E.H. Wolf and Sons Memorial Day 75-lap super late model feature Sunday night at the Singer Super Speedway.

After taking the lead near the halfway mark, Morgan held off a hard charging Alex Prunty his first super late model feature victory of the season while for Prunty, it was the super late model rookie's second consecutive runner-up finish.

Ryan DeStefano and Fred Winn brought the field to the green flag with Nick Wagner and Mitch McGrath behind them and all spent time near the front of the field as caution flags slowed the action on lap seven and lap 22. DeStefano was out front following the lap 22 slowdown over Conrad Morgan, Gary LaMonte, and Alex Prunty, while Dennis Prunty, Jeff Holtz, and Steve Apel lurked

close behind. DeStefano paced the event until just before halfway when Morgan made his move to take the lead while Alex Prunty and Holtz moved into third and fourth respectively as Dennis Prunty, Apel, and LaMonte battled for fifth place behind them. Hard racing between Dennis Prunty and Apel on lap 35 drew another caution flag and both took the restart from the rear of the field, leaving DeStefano out front over Morgan, Alex Prunty, and Holtz. Morgan went to work on the restart and a lap later, grabbed the lead on lap 36 while Apel and Dennis Prunty began to work their way forward again. With Morgan out front over Alex Prunty, Holtz was able to take third place from DeStefano who faded a bit as Apel, Dennis Prunty, and LaMonte all were able to get by for position. Morgan would not be denied in the final laps and he drove under the checkered flag to take the victory, leaving Alex Prunty to settle for second place for the second consecutive week. Jeff Holtz advanced

from deep in the field to finish third while Steve Apel and Dennis Prunty rounded out the top five. Gary LaMonte finished in sixth place ahead of Ryan DeStefano and John DeAngelis Jr. in seventh and eighth respectively while Grant Griesbach and Brad Keith completed the top ten finishers.

Gary LaMonte was the fastest qualifier with a lap of 11.328 seconds.

Jordan DeVoy won his second late model feature event of the season as he held off Tyler James to win the 40-lap main event. Mike Held finished third while Mike Meyerhofer and Al Stippich rounded out the top five. The event was stopped momentarily when Jack Stern's car made hard contact with the turn one wall before coming to rest and erupting in flames. The Slinger Speedway safety crew brought the blaze under control and Stern emerged from the incident uninjured. Al Stippich and Jakob Hassler each won a late model heat race and Jordan DeVoy was the fastest qualifier with a lap of 12.236 seconds.

Aiello's Big Night Carries Kewaskum In Blowout

The Kewaskum A's baseball team cruised past the West Bend Benders on Wednesday night, June 1, by a 19-5 score moving their record to 4-3 in the Rock River League (5-5 overall).

The A's pounded out 24 hits for the game, but the story was Mike Aiello who had a monster night at the plate finishing 4x4 (2 HRs, 2 2Bs, 10 RBIs, BB). Aiello got things going in the first

inning with a grand slam to put the A's up early.

After a walk in his second at-bat, Aiello blasted a three-run homer in the third inning to make it an 11-0 game. Aiello's monster night continued in the fifth inning as he doubled in another run and in the sixth he capped his night with a two run double off the base of the wall in rightcenter.

Nate Grzybowski (HR, 3

RBIs) and Brad Young (RBI) also finished with four hits, while Alex Zommers added a three hit night. Randy Finger (2 2Bs, RBI) Jason Strobel (2B, RBI) and Brett Boegel all finished with two hits as well. Sam Bernhardt (5IP, 4ER, 6Ks) picked up the win on the mound, while Brad Young (2IP, 5 Ks) closed out the game in relief.

Spaeth Hits For Cycle As A's Top Slinger 11-1

Behind the bat of Jake Spaeth and right arm of Jim Ziegler, the Kewaskum A's picked up an 11-1 (seven innings) Rock River League win over Slinger on Sunday afternoon, June 5, at Kiwanis Park. The win moves the A's to 6-5 on the year (5-3 Rock River).

Spaeth got the scoring started in the third inning as he ripped a triple to the leftcenter field gap to score Brett Boegel. Brad Young followed with a RBI single up the middle to make it 2-0 A's after three innings.

Slinger pushed across a run in the fourth, but Jim Ziegler got that back with one swing of the bat as he blasted a solo homer to left, putting the A's up 3-1. Nate Grzybowski added a RBI double in the fifth and Ziegler followed with a RBI single as the A's started to pull away.

Spaeth meanwhile collected a single in the fifth and a double in the sixth, needing just a home run to complete his quest for the cycle. With the A's up 7-1 in the seventh, Cody

Nuernberg reached with a pinch hit single and Brett Boegel followed with a double to bring up Austin Cairo. Cairo delivered with a single up the middle to make it 8-1 setting the stage for Spaeth.

Spaeth didn't waste much time as he blasted a towering three-run homer to complete the cycle and also ended the game via the 10-run rule. The last time a Kewaskum A's player hit for the cycle was by Steve Ketter on June 6, 2008, against the West Bend Benders.

Spaeth finished 4x5 (4 RBIs, SB), while Jim Ziegler (HR, 2 RBIs) and Brett Boegel (2B) each finished with two hits. Ziegler (7IP, 0ER, 6 Ks) picked up the complete game win on the mound. The A's return to action later this week as they head to West Allis on Thursday, June 9, at 7:30 p.m.; Juneau on Friday, June 10, at 7:30 p.m. They return home to Kewaskum Kiwanis Park on Sunday, June 12, for a big matchup with Cedarburg at 1:30 p.m.

A's Come Up Short Against West Bend 7-Up

The Kewaskum A's could not overcome an early deficit on Wednesday night, May 25, as they fell to West Bend 7-Up by a 10-6 score.

West Bend tallied runs in each of the first five innings to build a 9-1 lead, but even with a four run

fifth inning it was as close as the A's would get. Harry Steldt and Mike Aiello each collected RBI singles in that fifth inning. Nick Erd led the A's with two hits on the night while Sam Bernhardt picked up the loss on the mound (4IP).

LEGAL NOTICES

VILLAGE OF KEWASKUM, WISCONSIN NOTICE OF PUBLIC HEARING

Notice is hereby given that the Village Board of the Village of Kewaskum, Washington County, Wisconsin, will conduct a public hearing at 7:00 p.m., Monday, June 20, 2016, in the Council Room of the Municipal Building, 204 First Street.

The purpose of said public hearing will be to hear any and all parties, for or against an ordinance to continue the temporarily suspended collection of Impact Fees under the Village of Kewaskum Code Section 86.14. The temporary suspension of Impact Fee Collection will be for the period of July 9, 2016 through July 8, 2017. The Village shall not collect impact fees that would be required to be paid under Village of Kewaskum Code Section 86.14 in connection with applications for building permits for industrial, commercial and residential construction in the Village of Kewaskum.

A copy of the supporting public facilities needs assessment and proposed ordinance is on file in the office of the Village Clerk at the Municipal Building and is available for public inspection between the hours of 7:30 a.m. and 4:30 p.m. Monday through Friday.

All interested persons will be given an opportunity to be heard.

Henry J. Derler, Zoning Administrator

TOWN OF KEWASKUM NOTICE OF PUBLIC HEARING

Notice is hereby given that a Public Hearing will be held on Monday, June 20, 2016 at 7:00pm or shortly thereafter before the Town of Kewaskum Town Board / Plan Commission of the Town of Kewaskum at the Town of Kewaskum Community Center, 9019 Kettle Moraine Drive, Kewaskum to consider the minor land division application of Francis & Judith VandeBoom. Granting this application would allow the applicants to divide a 9.87-acre parcel into two 4.933-acre parcels. The parcel, T8-0256-00Z, is located on the south side of Hwy 28, approximately 800 feet west of the intersection of Hwy 28 & Forest View Road, Section 13, Town of Kewaskum.

The parcel is currently zoned A-1, Agricultural Open Space. All interested persons wishing to comment on this issue should appear at the hearing.

6-2(2) WNAXLP

Nancy Boden, Clerk/Zoning Secretary

2015 CONSUMER CONFIDENCE REPORT DATA
KEWASKUM WATERWORKS, PWS ID: 26701125

Water System Information

If you would like to know more about the information contained in this report, please contact Matt Heiser at (262) 626-8484.

Kewaskum continues to invest in its water utility to make certain it runs efficiently and safely. In 2015 the reservoirs at pump houses 2 and 3 were cleaned and both water towers were drained and inspected. Water tower 3 (the new tower) was cleaned as well.

Opportunity for input on decisions affecting your water quality

The Village Board meets the first and third Monday of each month at 7:00 PM in the Council Chambers of the Municipal Building at 204 First Street. Every agenda has an item for public input.

Health Information

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Source(s) of Water

Source ID	Source	Depth (in feet)	Status
2	Groundwater	503	Active
3	Groundwater	460	Active
4	Groundwater	360	Active
5	Groundwater	280	Active

To obtain a summary of the source water assessment please contact, Matt Heiser at (262) 626-8484.

Educational Information

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally- occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

Definitions

Term	Definition
AL	Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
MCL	Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MFL	million fibers per liter
MRDL	Maximum residual disinfectant level: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
mrem/year	milliremms per year (a measure of radiation absorbed by the body)
NTU	Nephelometric Turbidity Units
pCi/l	picocuries per liter (a measure of radioactivity)
ppm	parts per million, or milligrams per liter (mg/l)
ppb	parts per billion, or micrograms per liter (ug/l)
ppt	parts per trillion, or nanograms per liter
ppq	parts per quadrillion, or picograms per liter
TCR	Total Coliform Rule
TT	Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.

Detected Contaminants

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

Inorganic Contaminants

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2015)	Violation	Typical Source of Contaminant
ARSENIC (ppb)	None	10	n/a	6	0 - 6	6/5/2014	No	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronics production wastes
BARIUM (ppm)	None	2	2	0.170	0.092 - 0.170	6/5/2014	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2015)	Violation	Typical Source of Contaminant
CHROMIUM (ppb)	None	100	100	1	0 - 1	6/5/2014	No	Discharge from steel and pulp mills; Erosion of natural deposits
FLUORIDE (ppm)	None	4	4	0.1	0.0 - 0.1	6/5/2014	No	Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum factories
NICKEL (ppb)	None	100		4.5000	0.0000 - 4.5000	6/5/2014	No	Nickel occurs naturally in soils, ground water and surface waters and is often used in electroplating, stainless steel and alloy products.
SODIUM (ppm)	None	n/a	n/a	57.00	34.00 - 57.00	6/5/2014	No	n/a
THALLIUM TOTAL (ppb)	None	2	0.5	1.0	0.0 - 1.0	6/5/2014	No	Leaching from ore-processing sites; Discharge from electronics, glass, and drug factories

Contaminant (units)	Action Level	MCLG	90th Percentile Level Found	# of Results	Sample Date (if prior to 2015)	Violation	Typical Source of Contaminant
COPPER (ppm)	AL=1.3	1.3	0.2000	0 of 20 results were above the action level.	7/16/2014	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
LEAD (ppb)	AL=15	0	2.60	0 of 20 results were above the action level.	7/16/2014	No	Corrosion of household plumbing systems; Erosion of natural deposits

Radioactive Contaminants

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2015)	Violation	Typical Source of Contaminant
GROSS ALPHA, EXCL. R & U (pCi/l)	None	15	0	6.1	3.3 - 6.1	6/5/2014	No	Erosion of natural deposits
RADIUM, (226 + 228) (pCi/l)	None	5	0	2.5	1.5 - 2.5	6/5/2014	No	Erosion of natural deposits
GROSS ALPHA, INCL. R & U (n/a)	None	n/a	n/a	6.1	3.3 - 6.1	6/5/2014	No	Erosion of natural deposits

Additional Health Information

While your drinking water meets USEPA's standard for arsenic, it does contain low levels of arsenic. USEPA's standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water. USEPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Kewaskum Waterworks is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.
