Learning The Art Of Music

– New Musicians Attend Sixth-Grade Band Camp

By Anne Trautner

When the 65 students started band camp on Monday, Aug. 13, they essentially knew nothing about their instruments. By Friday, the sixth graders were able to play several songs.

“It is incredible how fast the students progress when starting an instrument,” said Kewaskum Middle School Band Teacher Rachael Holmes. They went from hardly being able to assemble their instruments and make a sound to playing recognizable melodies.

The students met all week at Kewaskum Elementary School, working three hours a day for five days. They spent time in large group rehearsals and small group instruction. The band camp ended on Friday with a concert, in

which the students played several pieces all together and each section played a few solo features.

The camp was taught by sixth grade Kewaskum Middle School band directors Rachael Holmes and Josh Michlig, and local band directors Clayton Frounfelkr and Corey Murphy, along with the help from middle and high school band student volunteers.

Teaching new musicians can be challenging.

“You have to be very patient and encouraging all of the time. Playing an instrument is difficult and takes perseverance. You don't get the instant gratification like one gets with all of the technology available today,” Holmes said.

Putting a lot of time and work into learning

how to play an instrument makes it rewarding for the young musicians once they master the instruments, according to Holmes.

Village Board Votes Down Cell Phone Ordinance

By Anne Trautner

The Village Board Monday night unanimously voted down a proposed ordinance that would have given police the authority to ticket students who used their cell phones at Kewaskum High School.

“This is an issue the village should not be addressing at all. The School Board, students, teachers and the parents should develop their own policy,” Village Trustee Jim Hovland said.

Under the proposed ordinance, students could have been fined \$124 for repeatedly using their cell phones in the high school without permission.

The issue drew attention from outside the area. An article about the proposed ordinance appeared in the Milwaukee Journal Sentinel on Monday, and TV news crews from Channel 58 and Channel 12 out of Milwaukee attended Monday night's meeting.

“I don't think I've ever seen an ordinance go down in flames as badly in the history of the village,” said Board President Kevin Scheunemann told Mark McPherson of Channel 58 WDJT-Milwaukee after the meeting.

Kewaskum Police Chief Tom Bishop said he proposed the ordinance because he wanted to help out the school district.

“They wanted to add a little teeth to their policy, and I want to be a good partner with the school district. Detentions or suspensions will deter some of the students from using their cell phones, but the district wants something to stop those kids who just keep violating the no-cell phone policy,” Bishop said.

Kewaskum High School is implementing a no-cell phone policy for the first time this year. Because the school now has a Chromebook for each student, cell phones are

not needed, according to the district.

According to the school's 2018-19 student handbook, the first time a student is caught using a cell phone in school without permission, issue could be referred to the school's resource officer or other law enforcement for police action, which could include, but is not limited to a municipal citation.

“As a seated board member for the Kewaskum School District and as newly elected representative of the 59th, my understanding of this issue is a little different than what administration may have presented,” School Board Member Tim Ramthun said at Monday night's Village Board meeting.

The School Board did not vote on what the consequences should be for cell phone use during school, Ramthun said.

THANK YOU

We would like to express our deepest, sincere thanks to everyone for all their support & friendship we have made in the past 27 years. We have made a lot of great new family "friends." But all good things must come to an end. As of September 3rd, 2018, C.C. Cody's Restaurant 'N Pub will be closing due to personal health conditions. We can not express enough how much we enjoyed making our "family" a lot larger. All of your company has been greatly appreciated. Your business was awesome. We are so glad we had the chance to meet all of you. We are working on some plans to re-open in the future. God bless all of you. We met so many great & caring people, you will forever be in our hearts & thoughts.

Thanks again!

Chad, Casey, Cody, Janis, Derby & The Entire Staff at C.C. Cody's

Week's Wit...

Money may be the root of all evil but it certainly grows into nice shrubbery.

WASHINGTON COUNTY SHERIFF'S OFFICE REPORT

Fatal Crash

On August 17 at 3:42 p.m., the Washington County Sheriff's Office was notified of a crash involving a passenger car and a semi-truck on Interstate 41 approximately one mile north of County Trunk K in the Township of Addison.

Washington County sheriff's deputies, along with rescue personnel from Allenton Fire and

St. Lawrence Fire, were dispatched to the scene. An on-scene investigation shows the north-bound passenger car, operated by Benjamin E. Hewett, a 37-year-old man from Menomonee Falls, crossed over the center median and into southbound traffic on Interstate 41. The passenger car struck the driver's side of the semi-truck and continued

under the semi-truck's trailer, where it struck the tandem axle, causing the axle to become dislodged from trailer.

Hewett sustained fatal injuries. The semi-truck driver did not sustain any injuries.

Assistance with traffic direction and signage was requested from Wisconsin State Patrol, Slinger Police Department, West Bend Police

Department and the Washington County Highway Department.

Southbound traffic on Interstate 41 between Highway 33 and County Trunk K was shut down for seven hours to facilitate investigative and clean-up efforts.

The accident remains under investigation by the Washington County Sheriff's Office.

Turning Dreams Into Realities

Many of us dream of publishing our very own book someday. Perhaps a work of fiction we've thought about, or an autobiographical memoir or family history. But few of us actually do it.

Once in a while, someone takes the plunge. Campbellsport's LuAnn Larson did. Larson has become a prolific writer and has now self-published nine books.

What was it like? The challenge of creating new characters. The joy of writing and self-publishing. The thrill of seeing your words in book form. Was it satisfying?

For LuAnn Larson, it was. When she speaks to the Fond du Lac Area Writers on Tuesday, Aug. 28, at MPTC, Larson will tell how the whole process has improved her mental well-being, has brought her happiness, and has opened a whole new world of people she

never dreamed she would become friends with.

In her presentation, Larson will debut her two newest releases. The first is "The Story of Dorothy," the biography of Dorothy Degnitz Wilke, based on the autobiography written by Dorothy. Dorothy grew

up in the Beechwood/Batavia area of southern Sheboygan County. She was a very social person and was well-known and well-liked. There were many hardships in her life, but her faith in God always got her through.

Larson will also present the first book in her

new Breakwater Series, "Dani." While "Dorothy" is completely non-fiction, "Dani" is complete fiction and both books are on the opposite ends of the rating scale, from family-friendly G to whatever is highest on the other end. "Dani" is a story of true love and consuming passion.

Larson will also talk briefly about her previous books: her four-book "Shadow of a Cowboy" series, her 700-plus-page coming-of-age novel "To Love a Simple Girl," and her two-book Sunrise Series "At Sunrise Deceptions" and "At Sunrise Redemption."

Larson's talk will be at Moraine Park in room O104 on Tuesday, Aug. 28, at 7 p.m. The presentation is open to the public.

After her talk, Larson will have a meet-and-greet and book signing. Anyone interested in romance, in Larson's

LuAnn Larson, a local writer, will give a presentation on her books at Moraine Park Technical College in Fond du Lac on Tuesday, Aug. 28, at 7 p.m.

photo submitted

work, or in writing is welcome and encouraged to attend. It is free, there are no charges or dues of any kind. Club mem-

bership is not required. Further information is on the club's website at www.fdlw.wordpress.com.

Kettle Moraine ATV Association Obtains AED

The Kettle Moraine ATV Association has recently obtained an Automated External Defibrillator (AED).

According to Randy Harden, president of the Wisconsin ATV/UTV Association, it is believed to be the first AED acquired by an ATV/UTV group in Wisconsin.

Sudden Cardiac Arrest (SCA) happens quickly and unexpectedly. With immediate medical care, survival is possible. Administering cardiopulmonary resuscitation (CPR) along with a defibrillator increase the possibility of survival.

According to the Sudden Cardiac Arrest Foundations website, "SCA leads to death

within minutes if the person does not receive immediate help. Survival depends on the quick actions of people nearby to call 911, start CPR (cardiopulmonary resuscitation), and if available, use an AED (automated external defibrillator) as soon as possible."

While trail riding in remote areas of Wisconsin and Northern Michigan, cellular service can be inadequate or non-existent while emergency service response can be prolonged. Possessing an AED will allow for immediate availability to

enhanced lifesaving equipment. The AED will additionally be available at association sponsored event locations where AEDs currently are unavailable.

The Kettle Moraine ATV Association was formed with the purpose of promoting ATVing (including UTVs) as a safe and social experience while fostering a positive public image. The AED strengthens and reinforces the associations mission of providing a safe experience, as well as a positive public image.

DAYS GONE BY

5 Years Ago August 29, 2013

Principal William Loss hoped students sense the energized atmosphere at Kewaskum High School when the doors open September 3. Loss was one of several new faces that included two new school counselors and 10 teachers at KHS.

After a lengthy investigation charges have been filed against a 30-year old Milwaukee man who assaulted a Hartford man outside a Kewaskum apartment building. Charges were requested on George J.D. Ewing Jr., Milwaukee, through the Kewaskum Police Department for substantial battery, disorderly conduct while armed and second-degree recklessly endangering safety. The investigation was set in motion November 29, 2012, when the Kewaskum Police Department responded to a call in the 200 block of Knights Avenue for a male victim who was attacked and beaten. While responding to the incident, officers discovered a 9mm shell casing and a thorough investigation was conducted with the assistance of the Washington County Sheriff's Department Detective Bureau. The investigation uncovered that Ewing allegedly used the butt of a handgun to strike Juston Schnorenberg, 37, in the head and while doing so the firearm discharged. A release from the Department states the assault was not a random act of violence, but that the victim and suspect were familiar with each other. Charges were also requested against Schnorenberg for obstruction of justice.

Ronald (Ron) and Rosemary Fink celebrated 50 years of marriage with family and friends August 17.

Jerry and Diane (Becker) Buchel of Waukesha, formerly of Kewaskum, will be celebrating their 50th wedding anniversary on September 21.

Charles M. "Chuck" Kleinke, 66, of Kewaskum, passed away on August 21.

Lucille F. Dricken, (nee Mueller), 86, passed away on August 24.

Margaret M. DuCharme, (nee Ploed-erl), 96, of the Town of Farmington, passed away on August 21.

15 Years Ago August 21, 2003

The Kewaskum Village Board met Monday and approved a conditional use permit that would allow Wayne and Dodie Sargent to operate a day-care center in the village. They operate a center in the Town of Wayne.

Lynn and Pam's Creekside Bar and Grill held its grand opening on Saturday night with live entertainment by "Badger Crew Returns." Creekside is open every day except

Mondays at 11 a.m.

A daughter, Emily Mia, was born to Stacy and Robert Weseljak of Howards Grove on July 25. Maternal grandparents are Wayne and Carol Oppermann and paternal grandparents are Karl Weseljak and Lorraine Friedrich.

A son, Adam Michael, was born to Lisa and James Reuther, Kewaskum, on August 9.

Ronald E. Kumrow, 61, of the Town of Farmington, passed away on August 14.

Elizabeth J. "Betty" Emmer, nee Feucht, 71, of Allenton, passed away on August 17.

Jase Michael Zurn, 10 months, of West Bend, passed away on August 11.

Andrew J. Brodzeller, 83, of West Bend, passed away on August 16.

25 Years Ago August 26, 1993

Prize-winning sausages made by Kewaskum Frozen Foods sold for a total of \$1,075 at the second annual Governor's Sweepstakes Meat Products Auction held at the Wisconsin State Fair on August 10. The Kewaskum meat processor's State Fair grand champion summer sausage sold for \$725 to The Lavin Group, Brookfield. Its champion snack sticks went for a bid of \$350 to Spella Law Office of West Bend.

Blowing fans in the town hall could not cool a group of over 100 concerned Town of Wayne residents at the monthly town meeting held on Wednesday, Aug. 18. A pornography store has entered their township and they are vehemently opposed to this type of business operating there.

The Kewaskum High School Indians confront the Campbellsport Cougars in an exhibition football game this Friday, Aug. 27 in Kewaskum. Kickoff time is set for 7:30 p.m.

The United States Achievement Academy announced today that Kristin L. Danielson has been named an All-American Scholar.

A son, Tanner William, was born to Terri and Trev Timblin, Kewaskum, on August 23.

A daughter was born to Christine and William Flasch, Campbellsport, on August 21.

A boy, Michael Anton, was born to Brian and Mary Brenner, New London, on August 13.

Glenway E. Ehnert, 88, of West Bend, passed away on August 21.

Joseph K. Karoses, 66, of Kewaskum, passed away on August 17.

Esther M. Kahut, nee Schlueter, 73, of West Bend, passed away on August 17.

Alvin Butzke, 86, of Campbellsport, passed away on August 17.

Diane G. Wieting, 51, of Random Lake, passed away on August 21.

Elmer E. Albright, 80, of West Bend, passed away on August 16.

Margaret A. Nordhaus, nee Grueschow, 83, of Plano, Texas, passed away on August 13.

50 Years Ago August 23, 1968

Freshmen at Kewaskum High School will report for school on Tuesday, Aug. 27, and again on Wednesday, Aug. 28, with the rest of the student body. Kewaskum Elementary School pupils, which includes the Beechwood Elementary, Farmington Elementary, Kewaskum Elementary, and Wayne Elementary, will also report for school on August 28. Holy Trinity Parochial School will also open on August 28, with an enrollment of 243 pupils.

Dr. Richard L. Wesenberg, son of Mrs. Walter Wesenberg, Kewaskum, has recently received the appointment of assistant professor of diagnostic radiology at the University of Wisconsin Medical Center, Madison. Dr. Wesenberg will be working primarily in the subspecialty of pediatric radiology and as such will be the first pediatric radiologist at University Hospitals. Dr. Wesenberg is a 1955 graduate of Kewaskum High School.

A daughter was born to Mr. and Mrs. Lawrence Galabinski, Kewaskum, on August 17.

A daughter was born to Mr. and Mrs. Gerald Wagner, Route 2, Kewaskum, on August 19.

75 Years Ago August 20, 1943

When the two-man Japanese submarine captured at Pearl Harbor arrives in West Bend, August 30, on its war savings national tour for the U.S. Treasury, it will have traveled around the rim of the United States from San Francisco to the Oregon line, down to San Diego, through Arizona, New Mexico and Texas, south to the mouth of the Rio Grande up to Fort Worth and Dallas via Houston and East Texas, through New Orleans, Biloxi, Mobile, Birmingham and Atlanta, through the Carolinas and Virginia, to Washington D.C. Thence it makes its way on the first overland submarine cruise in history up to Maine and then westward along the Great Lakes.

A boy, Michael Anton, was born to Brian and Mary Brenner, New London, on August 13.

Glenway E. Ehnert, 88, of West Bend, passed away on August 21.

81 foot submarine sits, the rig is 94 feet long and weighs 75,000 pounds. This two-man Japanese submarine will be in West Bend on Monday, Aug. 30, from 10 a.m. to 3:30 p.m.

A baby girl was born to Mr. and Mrs. Hugo Kuester of this village on Wednesday, Aug. 18. Mrs. Kuester is the former Lillian Weddig, daughter of John Weddig.

A son was born to Mr. and Mrs. Ralph Ruplinger of St. Kilian on Thursday. Mrs. Ruplinger is the former Florence Klein, daughter of Mr. and Mrs. Hubert Klein of St. Bridgets.

100 Years Ago August 24, 1918

As the summer months of the year of 1918 are fast passing into history, with the grain fields stripped of their crops, and the autumn leaves in the forest soon to show their colors of warning that vacation days are fast coming to an end, and the cold winter months are soon to be taking the place of the hot, summer days. One can see groups of children gathered anywhere in the village, asking each other, "When will school begin?" For their information, we are reluctant to inform them that the Kewaskum High School and graded school will open on September 9, 1918.

The Holy Trinity Catholic Church of this village, was the scene of a very pretty military wedding on Monday forenoon, August 19th, the first of its kind ever held in this village, when Miss Rowe Ockenfels, daughter of Mr. and Mrs. John Ockenfels of this village, became the bride of Private Peter J. Haug, son of Mr. and Mrs. Christ. Haug of Campbellsport.

The many readers of the Statesman who contemplate buying a passenger automobile, better do so before January 1, 1919. After that time every automobile plant will be put on a 100 percent basis. That is to say, no more passenger cars will be manufactured after that date, at least not during the period of war. If war continues at any length of time, automobiles will be scarce articles. Anyone who owns a car now, better hang on to it. This order does not affect the manufacture of trucks.

John Van Blarcom, the popular and genial saloon keeper of Beechwood, has opened a garage at that place and will handle the Ford, Buick and Oakland cars. He will keep on hand all kinds of accessories and repairs. All work will be promptly and cheerfully done. Give him a trial and be convinced.

A number of the girls employed at the Kissel Kar factory at Hartford, are wearing male attire.

A baby boy was born to Mr. and Mrs. John Heriges Jr., of St. Michaels, last Saturday.

Sunday, August 26 - Riveredge Adventure Challenge. Paddle the pond, sing a silly song, and jump around at the third annual Riveredge Adventure Challenge! Teams of family and friends are invited to complete a 3 mile trek dotted with a string of up to 8 physical and mental, wacky and wet, squishy and silly, fun-filled challenges! Teammates must work together to complete a challenge (task, obstacle, relay, etc.) before advancing to next challenge station. Participants should wear closed toed

shoes and be prepared to get a little dirty and wet – it's part of the fun. Ready to accept the challenge? Registration is \$50 for a non-member team of 4 or just \$35 for a member team of 4. Don't have enough for a team of 4? Register as individuals, and we'll pair you up with other folks looking to make a team. Individual registration is \$15 for non-members or \$12 for members. 1 - 4 p.m.

An Upcoming Calendar of Events for the Northern Kettle Moraine State Forest...

Saturday, August 25 - Saturday Morning Secret Finders. Calling all youth to discover secrets of nature by participating in the Wisconsin Explorers program. The program involves completing a required number of engaging nature activities in one of three age appropriate books (ages 3-5, ages 6-8, and ages 9+) to earn a very cool patch. Get help from a naturalist who will work with youth on activities from one of the first four topic areas of the books. Picnic Shelters at Mauthe Lake Recreation Area (located off County Road GGG south of County Road SS near New Prospect) and Long Lake Recreation Area (located off Division Road north of County Road F near Dundee). 10 - 11 a.m.

Saturday, August 25 - Marvelous Mammals Drop In at the Beach. What do humans have in common with bears, bats, mice, and deer? We're all mammals. Uncover what characteristics mammals share and how they're adapted for survival. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children. Long Lake Recreation Area South Beach (located off Division Road north of County Road F near Dundee). 1 - 4 p.m.

Saturday, August 25 - Family Concert with Ken Lonquist. Summer Saturday Evening Event. Sponsored by Friends of the Kettle Moraine. Join Ken Lonquist for a wonderfully entertaining evening of music and merriment. Ken, a musician for all ages, is sure to delight the entire family. This is an outdoor concert so remember to bring your lawn chairs and blankets. In case of inclement weather, the concert will be held at the Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee). Mauthe Lake Recreation Area Picnic Shelter (located off County Road GGG south of County Road SS near New Prospect). 6:30 - 8:30 p.m.

Sunday, August 26 - Marvelous Mammals Drop In at the Beach. What do humans have in common with bears, bats, mice, and deer? We're all mammals. Uncover what characteristics mammals share and how they're adapted for survival. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children. Mauthe Lake Recreation Area Beach (located off County Road GGG south of County Road SS near New Prospect). Noon - 3 p.m.

Friday, August 31 - Fading into Darkness Night Hike. As the sun sets and the light fades from the sky, the day animals retire and a new group of animals awakens. Bring your bug spray and sense of adventure as we listen for all those night sounds. This night hike is for families/groups with children at least 5 years old. Zillmer Trails Area (located off County Road SS between County Road G and Hwy 67 near New Prospect). 8 - 9:30 p.m.

Saturday, September 1 - Saturday Morning Secret Finders. Calling all youth to discover secrets of nature by participating in the Wisconsin Explorers program. The program involves completing a required number of engaging nature activities in one of three age appropriate books (ages 3-5, ages 6-8, and ages 9+) to earn a very cool patch. Get help from a naturalist who will work with youth on activities from one of the first four topic areas of the books. Picnic Shelters at Mauthe Lake Recreation Area (located off County Road GGG south of County Road SS near New Prospect) and Long Lake Recreation Area (located off Division Road north of County Road F near Dundee). 10 - 11 a.m.

Saturday, September 1 - Fascinating Fish Drop In at the Beach. How do fish swim? How do they breathe under water? How do they eat? Come find the answers to these questions and much more as we wade through the world of Wisconsin fishes. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children. Mauthe Lake Recreation Area Beach (located off County Road GGG south of County Road SS near New Prospect). 1 - 4 p.m.

Saturday, September 1 - Widening of the Universe: Telescope's Influence. Summer Saturday Evening Event. Sponsored by Friends of the Kettle Moraine. Presenter: Jeff Setzer, Northern Cross Science Foundation. Today, telescopes bring the night sky into focus providing a way to see what's beyond the Earth. Find out how the invention of the telescope changed the way people viewed their place in the universe and opened a whole new realm of discovery. This program is best for anyone more than 8 years old. Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee). 7:30 - 8:30 p.m.

Saturday, September 1 - Summer Star Gazing. Summer Saturday Evening Event. Sponsored by Friends of the Kettle Moraine. Presenter: Northern Cross Science Foundation. Look through a telescope or binoculars to bring into focus the wonders of the night sky. With the help of experienced night sky observers, spy distant planets, dumb-bell nebulas, globular clusters, and so much more. The program will be held only if the skies are clear. This program is best for anyone more than 8 years old. Drop in any time and stay as long as you like. Ice Age Visitor Center (located off Hwy 67 half mile west of Dundee). 8:45 - 11 p.m.

Sunday, September 2 - Fascinating Fish Drop In at the Beach. How do fish swim? How do they breathe under water? How do they eat? Come find the answers to these questions and much more as we wade through the world of Wisconsin fishes. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children. Long Lake Recreation Area South Beach (located off Division Road north of County Road F near Dundee). Noon - 3 p.m.

All the events are free except at locations where a Wisconsin State Park System vehicle admission sticker is required or where a fee is listed. The events are held within the Kettle Moraine State Forest - Northern Unit at the locations listed for each event. The Ice Age Visitor Center is located about 20 miles north of West Bend and 20 miles south of Fond du Lac.

SPORTS

Indians Open League Tennis Play With A Big Win

By Judy Harlow

Under ordinary circumstances, the August 16 girls tennis match between Kewaskum and Ripon would have been postponed because of the weather, but not at Ripon, which has the good fortune of having indoor courts at the Wilmore Center owned by Ripon College.

The two teams moved indoors and a couple hours later, the visiting Indians had their first win of the year and first win in the East Central Conference.

Playing much better than they did at Mayville, the Indians' singles players gained a sweep and the new number three doubles unit of Elizabeth Beine and Abby Kopfhammer won in straight sets for a 5-2 team win.

KHS coach Peter Garcia said his anxious moments were gone soon after Grace Marchello prevailed "in one of her signature, long-rally matches" to even the

score with the Tigers, who led 1-0 after a win at number one doubles.

Garcia said Emma Preder "was convincing" at number two and Kaitlyn Miller "showed off her big serves" to win 6-2, 6-3 at number four.

In the big doubles victory, "Abby served bullets while Elizabeth had some smashing volleys left and right," the coach said.

Kewaskum 5, Ripon 2

Singles: No. 1 Grace Marchello def. Dayton Coehoorn, 6-3, 6-4; No. 2 Emma Preder def. Layne Neunfeldt, 6-3, 6-1; No. 3 Megan Krolski def. Lexi Tebon, 6-3, 6-3; No. 4 Kaitlyn Miller def. Hallie Hadel, 6-2, 6-3

Doubles: No. 1 Nikki Bruss/Nicole Brzozowski lost to Elle Lewis/Hadley Neper, 3-6, 0-6; No. 2 Sydney Ostranger/Carly Meyer lost to Tamara Holland/Olivia Ruter, 1-6, 1-6; No. 3 Elizabeth Beine/Abby Kopfhammer def. Abby Cody/Danica Anderson,

6-4, 6-4
All KHS girls listed first.

Mayville Match

With limited practice space and just one coach working with 21 players the first week, the Kewaskum High tennis team was unable to win any of its matches in the season-opening 7-0 loss to host Mayville.

"A disappointing loss," KHS coach Peter Garcia said. "Restricted court access is not the whole story here but a contributing factor. Four courts and 21 athletes prevent a lot of match play at practices. For example, two singles matches at a practice forces 17 other girls to share two courts. Clearly just running drills at a practice does not translate into good match play."

While Garcia started the season without an assistant coach, he said former head coach Dan Ross was able to donate his time at one practice, and what got accom-

plished on that day was really helpful and appreciated.

Coach Garcia praised the effort turned in by Grace Marchello at No. 1 singles. "(She) almost pulled out an upset against a great player (Taylor Trost), losing 6-4, 3-6, 3-6," he said.

Mayville 7, Kewaskum 0

Singles: No. 1 Grace Marchello lost to Taylor Trost, 6-4, 3-6, 3-6; No. 2 Emma Preder lost to Alaina Hazelberg 0-6, 1-6; No. 3 Megan Krolski lost to Olivia Boelk, 0-6, 1-6; No. 4 Kaitlyn Miller lost to Jenna Pasbrig, 3-6, 3-6

Doubles: No. 1 Nikki Bruss/Nicole Brzozowski lost to McKenna Podbrscek/Emily Boeck, 2-6, 1-6; No. 2 Carly Meyer/Sydney Ostranger lost to Emily Schellpfeffer/Lexi Janzer, 0-6, 1-6; No. 3 Abby Kopfhammer/Elizabeth Beine lost to Shelby Liebnow/Kendall Pliner, 5-7, 4-6

KHS Tennis Team Has Tough Day At WC Meet

By Judy Harlow

It might be a good idea to reconsider scheduling the Kewaskum High tennis team for future Washington County meets, which traditionally draw six Division 1 teams, including several with very strong programs.

The Indians managed to win just one match in the competition held August 18 on courts in Slinger and Hartford.

Slinger amassed 33 points to claim the team title, ahead of Germantown's 28. Then came Waukesha South and West Bend West in the number three and four spots with 19 and 17 points, respectively. Rufus King had 13 points, three ahead of

West Bend East (10), then came Port Washington with 5 and 1 points, respectively.

After losing her opener to Addison Korvec of West Bend West, 6-1, 6-0, the Indians No. 4 singles player, Kaitlyn Miller defeated Zaara Rehman of Port Washington 7-5, 6-4 to reach the consolation finals where she lost to Kayla Patterwon of Rufus King by a score of 6-3, 6-1.

All of the other Indians went 0-2, but several of them battled hard in losing close matches. One example was Megan Krolski who lost a 6-4, 7-5 decision to Slinger's Mackenzie Schaefer, at number three singles.

"Megan probably played the best tennis

for Kewaskum on Saturday," said KHS coach Peter Garcia, indicating at number two Emma Preder played well against good players

from Waukesha South and West Bend East. She lost to West's Maggie Scanlon, 6-2, 6-2 and then to East's Olivia Harter, 6-3, 6-2.

It's Anderson Against Gonring In Hon-E-Kor Title Match

By Judy Harlow

The stage is set for the Men's Club Championship at Hon-E-Kor Country Club, featuring Craig Anderson of West Bend, who has won four titles since 2005 and has won the last two Kettle Moraine Amateur titles, and Tony Gonring of Kewaskum, who reached the finals for the first time. One of the semifinal matches was convincing while the other was a nail-biter.

Anderson, the former head coach of the West Bend West High School boys golf team, eliminated defending champion Jim Rohlinger 5-and-4 in one bracket while Gonring needed 20 holes to get past Jay Krueger of West Bend. Krueger first had a match against Evan Doherty, which he won by a score of 5-and-3.

In the First Flight, there are two familiar players in the finals — Dan Gibbon Jr. and Larry Sterr. Gibbon

earned his spot by defeating Ryan Wietor, two-up, while Sterr turned back Chad Pivoni by a score of 5-and-3.

Lou Santini is one of the finalists in the Second Flight. His opponent is still to be determined as Eric Swanson and Scott Rindt still have to play their semifinal match.

One Third Flights finalist is Bob Deters who beat Chris Kerry 3-and-1. The match between the other semifinalist, Eric Mueller and Ben Miller, is yet to be played.

Senior finalists are Al Bohn and Ken "Swede" Erickson. Bohn edged Jim Volesky one-up in one semifinal match, while Erickson defeated Dan McCollough in the other, but no score was available on this match.

The 18-hole finals will be played this Saturday, Aug. 25, on the Red and White Nines. The rain date is Sunday, Aug. 26.

The News Office
will be closed on Monday,
Sept. 3 for Labor Day.

Early deadline is
Friday, Aug. 31 at 12 p.m.

PUBLIC NOTICES

**VILLAGE OF
KEWASKUM
VILLAGE BOARD
MEETING
JULY 9, 2018
7 P.M.**

The Kewaskum Village Board, Washington County, Wisconsin, met in regular session in the Council Room of the Municipal Building, 204 First Street.

President Scheunemann called the meeting to order at 7 p.m. Board members present were Richard Laubach, Jim Hovland, Sarah Severance, Dave Spenner, Richard Knoebel, Jim Wright, and Kevin Scheunemann. Staff members present: Police Chief Tom Bishop, Fire Chief Mark Groeschel, DPW Working Foreman Dennis Aupperle, Administrator Matt Heiser, Treasurer Sandy Passineau, and Clerk Tracie Sette. Members from the community and the news media were also present.

Notice of the meeting had been posted at the PNC Bank, Kewaskum Post Office and at the Municipal Building on July 5, 2018. Notice was also forwarded to the Village Board, Village Attorney, Village Engineer and the News Media.

President Scheunemann opened the meeting with a Moment of Silence and Pledge of Allegiance.

Motion by Jim Wright to approve the June 18, 2018 minutes, Richard Laubach seconded. Voice vote, motion carried.

President Scheunemann opened the public hearing for the temporary suspension of the collection of impact fees under the Village of Kewaskum code 86.14. No comments were made during the public hearing. Jim Wright motioned to close the public hearing, seconded by Richard Knoebel. Voice vote, motion carried.

Richard Knoebel motioned to suspend rules and allow agenda items J3, J8 & J9 to be brought to the beginning of the meeting, seconded by Dave Spenner. Voice vote, motion carried.

John Knepel presented the 2017 Audit Report. A copy of the report is on file and may be viewed at the Village Hall. Richard Knoebel mo-

tioned to accept/approve the audit report, Jim Hovland seconded. Voice vote, motion carried.

Dan Schaefer of SEH Engineering updated the Board on phosphorus removal. The Village just completed year one of a nine year compliance schedule. He supplied a list of DNR approved items for the treatment plant to complete in upcoming years. Some potential capital expenditures may exist for the reduction of phosphorus. Jim Wright motioned to approve contract, Dave Spenner seconded. Voice vote, motion carried.

Jim Hovland motioned to approve Treatment Plant Support Contract with SEH Engineering, seconded by Dave Spenner. Voice vote, motion carried.

Fire Chief Mark Groeschel presented the June 2018 report:

Fire calls 3

Year to date calls 33.00

Rescue calls 33

Miles 646.50

Total training hours 152

Year to date 1112.00

Police Chief Tom Bishop reported there is now a safe-exchange zone located in front of the police department for anyone making any purchases/exchanges online. This creates a safe place for people to meet. A new speed enforcement initiative will be taking place on Edgewood Rd this summer.

DPW Working Foreman Dennis Aupperle report:

- Asphalt is close to completion on Edgewood Rd.

- New water and sewer main have been installed on Keller St.

- A total of 70 sidewalk repair letters have been mailed to residents

Administrator Matt Heiser report:

- A review of the letter received from William Garrison began a discussion regarding the condition of sidewalks on Fond du Lac Ave.

Treasurer Sandy Passineau reported on transfer of funds for paying bills and expressed concerns of increased time constraints to handle demands of call volume and front counter traffic.

Jim Wright motioned to recommend payment of

bills, seconded by Jim Hovland. Voice vote, motion carried.

Plan Commission member Jim Hovland reported the Plan Commission met on June 25, 2018 and discussed the new scoreboard at Kewaskum High School. The sign ordinance will be reviewed at a future Plan Commission meeting.

Library Board member Dave Spenner reported the Library Board met on July 9, 2018 and approved a revised job description for the Library director. Monarch director Amy Birtell will be of assistance throughout the hiring process. The Library has experienced excellent growth in the summer reading programs.

Jim Wright motioned to approve Ordinance 18-04 Residency Restrictions for Sex Offenders, seconded by Dave Spenner. Voice vote, motion carried.

Dave Spenner motioned to approve Park and Recreation Committee recommendation to indefinitely freeze pool family pass prices, seconded by Jim Hovland. Voice vote, motion carried.

Dave Spenner motioned to approve Ordinance 18-03 to temporarily suspend collection of impact fees under Village of Kewaskum code 96.14 until December 31, 2018. Richard Laubach seconded. Voice vote, motion carried.

Jim Wright motioned to approve closing Parkview Drive between First and Third Street for National Night Out, Richard Knoebel seconded. Voice vote, motion carried.

Richard Knoebel motioned to approve the proposed path around the pond at Reigle Park to be constructed by a young man working towards his Eagle Scout rank, Dave Spenner seconded. Voice vote, motion carried.

No action was taken by the Board as a result of the request for a controlled burn in Reigle Park.

Richard Knoebel motioned to approve closing First and Railroad Street for the Kewaskum Classic Car Show on September 16, 2018, Dave Spenner seconded. Voice vote, motion carried.

A discussion ensued about a policy to poten-

tially allow signs on Village property. Administrator Heiser will revise the policy and bring before the Board on August 6, 2018.

Jim Wright motioned to approve list of Operator's Licenses listed below with the exclusion of Austin Bright, seconded by Sarah Severance. Voice vote, motion carried.

Shelly Utrecht, Kewaskum, WI, Fifth Quarter

Suzanne Sellers, Campbellsport, WI, Fifth Quarter

Susan Thornton, Kewaskum, WI, Fifth Quarter

Matthew Spoerl, Kewaskum, WI, Kohn's Filling Station

Austin Bright, West Bend, WI, Kewaskum City

Chas Arredondo, Kewaskum, WI, Limping Coyote

Sandra Mendoza, Kewaskum, WI, Limping Coyote

Jade Kenworthy, West Bend, WI, KAA

Public Comments:

Tim Ramthun introduced himself to the Board as he is running for Representative of the 59th Assembly District.

Richard Knoebel motioned to adjourn meeting at 8:33 p.m., seconded by Jim Wright and carried by roll call vote: Severance-aye, Laubach-aye, Wright-aye, Hovland-aye, Spenner-aye, Knoebel-aye, Scheunemann-aye. (7-0). Motion carried.

Create a Healthy Foundation for Fall Plantings

MELINDA MYERS

Fall is a great time to start a garden or renovate an existing planting bed. The soil is warm while the air is cool. A perfect combination for establishing new plantings. It is also a great time to prepare gardens for the next planting season. Investing time up front to create a healthy foundation for your plants will pay off with years of beautiful, healthy and productive gardens.

When you read plant tags and seed packets you'll find that the majority of plants prefer moist well-drained soil. Unfortunately, most gardeners aren't growing in plant-friendly soils. Heavy clay, sandy and droughty soils are much more common. Understanding what you have is the best place to start when creating a healthy soil foundation for new and existing gardens.

Start with a soil test. Contact the local office of your Extension Service or state certified soil testing lab for details. They can direct you on how to take a soil test and where to send the sample. The test results will tell you how much, if any, fertilizer, lime, or

sulfur is needed. Following soil test recommendations can save you money spent on and time applying unnecessary soil additives. Plus, following the results will increase your gardening success.

While waiting for the results you can do a bit of analysis yourself. Soils are made of clay, sand, and silt particles. The feel and cohesive nature of this sample will tell you a bit about your soil. Take a handful of soil and create a ribbon by rubbing it through your thumb and index finger to get a feel for your soil type.

If the soil easily forms a ball or rolls into a sausage shape, feels slippery when wet and smoother when dry, you have a high percent of clay in your soil. Soils with a high percent of the very small clay particles are often called heavy soils. They stay wet longer and hold onto soil nutrients. Clay soils are slow to dry out and warm up in the spring. Avoid working them when wet. This leads to compaction and clods you will be contending with all season long.

Soils with a larger percent of sand particles don't form a ball when

moist and feel gritty to the touch. The much larger sand particles create bigger pores in the soil for water and nutrients to move through quickly. They tend to be nutrient deficient, fast draining and dry. But they warm up and dry quickly in the spring.

Silt feels smooth like flour when dry and soapy slick when wet. They are the middle-sized particles that hold water and nutrients longer than sand, but not as much as clay particles. Silty soils drain slower and stay colder longer than sandy soils in the spring. Overworking soils with a high percent of silt leads to crusting and compaction, decreasing drainage and water infiltration.

Consult your soil test report when preparing your new garden beds. Prior to planting is the easiest time to add organic matter to any of these soil types. It increases the water-holding ability, the infiltration rate so less water runs off the soil surface and builds plant-friendly soil structure. Incorporate several inches of compost, aged manure or other organic matter into the top eight to twelve

inches of soil.

Further improve your soil by using a slow release fertilizer with a high percent of organic matter like Milorganite (milorganite.com). The 85% organic matter feeds the soil microorganisms and your plants as it improves all soil types. You get multiple benefits with this type of fertilizer.

So, as you plan your new landscape additions this fall, include testing and amending the exist-

ing soil into your plans. Understanding your soil can help you create a strong foundation important to the health, longevity and beauty of your gardens and landscapes.

Melinda Myers has written more than 20 gardening books, including *The Garden Book for Wisconsin*, *The Midwest Gardener's Handbook* and *Small Space Gardening*. She hosts *The Great Courses* "How to

Grow Anything" DVD series and the nationally syndicated *Melinda's Garden Moment TV & radio segments*. Myers is a columnist and contributing editor for *Birds & Blooms* magazine. Myers' website is www.MelindaMyers.com

Thull Piles Up The Yardage In Indians' Opening Victory

By Judy Harlow

Remember Brandon Thull and all the exciting runs he ripped off as a Kewaskum High football player during the 2014-15 seasons?

Well, another Thull, Jermaine, affectionately known as J.J., drew his first start for the Indians on August 17, and while he may be 25 pounds lighter than his brother was, he proved to be just as quick and hard to bring down, gaining 236 yards in 23 carries (10.3 yard average) and three touchdowns as KHS rolled over Milwaukee Lutheran, 48-30.

"I knew we were capable of putting up points," KHS coach Jason Piittmann said afterward. "We knew we could run on them, and J.J. had a big night."

The game started slow with neither team able to muster much offense until the end of the first quarter when the Indians took advantage of a high snap from center on an attempted Red Knight punt. The ball sailed over Kenneth Payne's head, and the Indians swarmed on him at the ML 32-yard line.

Seven plays later, in-

cluding an 18-yard draw play by Thull, sophomore quarterback Michael Daniel dove into the end zone from the one-yard line for the first-ever touchdown on the new artificial surface at the "Doc" Mitchell Athletic Complex.

Daniel would also score the second touchdown of the game, this one from eight yards out on a drive midway in the second quarter, capping another 32-yard drive, started when Kyle Bath picked off a Danny Perdzock pass.

After a five-yard encroachment penalty on the Knights, KHS needed just seven plays to score, with Daniel going the final eight yards with a good second effort. Eli Bartelt, who was also cited by Piittmann for a good effort, tacked on the two-point conversion with a run, and KHS was up 14-0.

Not for long, however, as Payne gathered in the ensuing kickoff at the 25, took the ball to the left side of the field and raced 75 yards for a touchdown.

KHS answered that score with an impressive, five-play, 70-yard

J.J. Thull runs the ball for Kewaskum as the Indians defeat Milwaukee Lutheran 48-30 in the first home game of the season.

photo by Anne Trautner

drive. Thull picked up 25 yards in two carries, then lost two when the Red Knights ran a successful blitz. Two plays later, the Indians put six more points on the board after Ty Cook hit Joshua Bocher in stride with a 41-yard pass play, and the Indians were up 20-6.

The half ended 20-12 after Milwaukee Lutheran needed just 1:29 to move 67 yards, the final 15 on a Perdzock to Jarod Keifer

pass.

The fireworks didn't let up after the break as the two teams combined for five touchdowns in 12 minutes, the first by Milwaukee Lutheran on a dazzling 83-yard run by Payne on the opening play of the second half. This made the score 20-18. A two-point conversion would tie the game, but Perdzock's pass fell incomplete, and within the remaining 11 minutes, Kewaskum would take control of the game, scoring three touchdowns.

Bartelt's 30-yard kickoff return to the ML 41-yard line would set up Thull's first touchdown, a sprint down the left sideline. Thull also scored on respective runs of one and seven yards with 6:28 and 2:40 remaining in the quarter. The latter was set up by a negative yard punt by the Red Knights, giving the Indians the ball on the ML seven-yard line.

Cook became the fifth Indian to score when he scrambled four yards to the end zone, and then Daniel passed to Dylan Maechtle for the two-point conversion for the 47th and 48th points of the contest.

KHS wound up with 310 yards rushing on 49

carries and added 73 passing, 22 by Daniel, who completed one of four aeriels, and 51 by Cook, who was three of eight.

After Thull's 236 yards, Bartelt showed good power, picking up 52 yards in 10 carries, while Bath rushed for 23 in 10 tries, most in the opening quarter.

Piittmann liked the way both of his quarterbacks played and he plans to use both of them this season.

"It's really a matter of trying to extricate what each of them do better," he said, noting Daniel is a strong runner, hard to bring down while Cook can pass and manage the game well.

Payne led the Red Knights with 93 yards in 10 carries. He left the game midway in the third quarter after sustaining a leg injury while trying to corral another high snap on a punt. Perdzock completed 11 of 24 passes for 179 yards. He threw two interceptions, the second one coming in late in the third quarter. Junior Trevor Degnitz came up with his first pick as an Indian.

Bartelt led the KHS defense with 11 total tackles, including five

solos, while sophomore Kannon Muckerheide had eight tackles, including four solos.

"We gave up too many big plays, and we gave up more points than we wanted to," Piittmann said.

Kewaskum is at Merrill tomorrow (August 24). The Bluejays lost their opener to Amherst, 34-3.

"They had a tough opening week. Amherst has won three straight Division 5 state titles," Piittmann said, indicating despite losing 10 seniors who gained all-conference recognition, Merrill, picked to finish fourth in the Great Northern Conference, has a good quarterback and a big running back who is hard to bring down.

In other games involving EC schools, Campbellsport edged Mayville 20-14, Plymouth lost to New Berlin Eisenhower 29-14, Ripon beat Wauwatosa Lutheran Prep 14-13, Berlin crushed Antigo 38-14; Waupun was blasted by Kiel 41-7; KML was blanked by Winnebago Lutheran 26-0; and Winneconne topped Southern Door 37-6.

Albrecht Free Clinic Receives Donation

By Anne Trautner

The Albrecht Free Clinic, which provides free medical and dental services for uninsured and underinsured residents of Washington County, received a donation of \$28,710 from The Willis Foundation.

The clinic also received an additional \$25,000 in matching funds from the donation.

The Willis Foundation held a golf outing on August 6 at the West Bend Country Club. Historically the funds for this outing go to support The Willis Foundation. However, this year, funds raised from the silent auction, raffles and hole contests on the day of the event went to the Albrecht Free Clinic.

Dale Thoma, a managing partner for Willis Towers Watson, selected Albrecht Free Clinic to be the event's beneficiary.

"I grew up in West Bend, so knowing of Dr. Albrecht, who founded the clinic, and some of his story, I could relate to the clinic's needs. It's great to be able to help them," Thoma said.

Last year when the Rolf Family Foundation offered a \$50,000 match to the community, Thoma received a letter regarding the match. Thoma responded by having Ruth Henkle, executive director of the Albrecht Free Clinic, fill out a grant application for the Willis Foundation. The Albrecht Free Clinic was given a \$3,500 donation from their foundation as a result of that Rolf campaign.

Thoma, who currently lives in Mequon, then toured the clinic. It was the first time he had been inside the West Bend clinic.

He was intrigued. Through his work with Willis Towers Watson, he works with businesses to provide their insurance benefits packages. Here was a clinic that cares for the uninsured population.

So a couple months ago, Thoma reached out to Henkle about doing a fundraiser.

This was the eighth year that The Willis Foundation was holding a benefit golf outing. Thoma wanted to try something new this

year. He wanted to concentrate on a charity for the day of the event.

It was decided that funds raised that day would benefit the Albrecht Free Clinic.

A week before the outing, a donor came forward and said that if The Willis Foundation could raise \$25,000, the donor would match it.

"They historically only raise \$16,000 or \$17,000 that day, so this was kind of a stretch for them," Henkle said.

But Thoma took the challenge to heart.

"At the golf outing, there were people from all sorts of different insurance companies. So we were just really in the midst of all these insurance companies that obviously benefit greatly from companies that offer insurance. And here we are, the medical clinic that is taking care of the uninsured. So he really did a nice job telling our story," Henkle said.

Such a good job that the event raised \$28,700. Then the clinic received the additional \$25,000 in matching funds.

The Willis Foundation donates \$28,710 to the Albrecht Free Clinic. A matching donation raised another \$25,000 for the clinic. Pictured (from left) are: Dale Thoma of The Willis Foundation; Dr. Bob Gibson, volunteer medical director for the Albrecht Free Clinic; Dr. Tom Albiero, volunteer dental director of the Albrecht Free Clinic; Ruth Henkle, executive director of the Albrecht Free Clinic; and Kristin Klassy of The Willis Foundation.

Continued From... Village Board Votes Down Cell Phone Ordinance

"It is neat how a year ago he responded to a letter and then decided this is what I want our employees to get involved in. For someone like that to come on a tour and think so much of the community he grew up in, to give such an amazing gift back," Henkle said.

There were 104 golfers who took part in the golf outing, and about 50 more people came to the event's dinner.

"There are a lot of insurance folks there that could relate to what the clinic does. And the population they serve, and they appreciate that, so I think everybody at the outing had a really good understanding of what we were supporting that day," Thoma said.

Willis Towers Watson established The Willis Foundation in 2010.

"The foundation allows us a vehicle to give back to the community through eligible nonprofits," Thoma explained. "Obviously there is a great need for those who are uninsured and underinsured, so it fit really well with what our foundation is really about and what our colleagues are interested in."

"I am a board member but I was never asked a question how I felt about an ordinance," Ramthun said. "The school district should be able to manage its own house and not leverage law enforcement with paid personnel who are on paid tax dollars compensation levels. I don't agree with it."

"I guess I am a little shocked to hear that the administration is a little running without school board approval on it," Scheunemann said.

No one from school administration was at the meeting.

Several parents at the meeting spoke against the proposed ordinance.

"I do believe it belongs in the school district and the school board," Auburn resident Joy Weishan said.

Village Trustee Richard Knoebel said he

felt the district should wait until after the new policy has been in place for a while.

Trustee Dave Spenner said he was not in favor of the ordinance.

"There is nothing inherently illegal about bringing a cell phone to school. You bring tobacco to school, that's against the law. You bring alcohol or drugs to school, that's against the law. For the school board to all of a sudden shift their responsibility for maintaining order and discipline in school to the police department is totally incomprehensible from my perspective," Spenner said.

The Village of Germantown has an ordinance in place that carries up to a \$124 fine for students who use their cell phones during school.

A total of 104 golfers participate in The Willis Foundation golf outing held in West Bend. The event raised money for the Albrecht Free Clinic, which serves uninsured and under-insured Washington County residents.

Learning The Art Of Music

– New Musicians Attend Sixth-Grade Band Camp

It is also rewarding for the teachers.

“The enthusiasm these kids have makes the challenges of working with beginner musicians worth it,” Holmes said.

The young musicians have some valuable skills.

“Most are so fearless and will comfortably play in front of others. This dissipates as the years go on,” Holmes observed.

The students first tried out instruments at their elementary schools last May. With the help of their band teachers, each student chose an instrument that they enjoyed the sound and feel of and that they could best produce a sound on.

When the sixth grade students rehearsed as a full group, they learned how important and challenging it is to play and breathe together.

“One person playing too long or loud can really impact the whole group. Band is a team effort, but larger than most teams people participate with. We have on average 75 to 80 students in a middle school group,” Holmes said.

The middle school and high school students who helped with the camp played an important role. They remembered what it was like when they first learned how to play an instrument.

“Many of them commented throughout the camp that they were not the strongest players at the beginning, which is very reassuring to students that may be struggling more now,” Holmes said.

Advice coming from the students was especially encouraging. For

example, saxophones tend to be very loud when beginners are first learning to play.

“Our freshman saxophone helper, Matthew Blank, was able to relate to some of the saxophone students trying to play softer. I gave Matt a reed that forced him to work harder, but he was still loud. He figured it out and now is one of the top saxophone students in Kewaskum,” Holmes said.

The novice musicians picked up lots of tips from the older students. They learned how Dustin Pick, a junior and a middle level state honors band participant who has helped at camp for many years, was able to progress quickly on his instrument by staying after school to practice and ask questions.

“We have such a great band students throughout the whole program. All of the students that assisted our band camp teachers are some of the best musicians in their grades,” Holmes said.

Middle and high school band assistants included:

Flute: Elizabeth Beine, Abigail Kopfhammer and Kailtyn Blank.

Clarinet: Tina Bolek, Emily Halterman and Alexandra Taylor.

Saxophone: Matthew Blank.

Trumpet: Andrew Beine.

Horn: Grace Blohm.

Trombone: Dustin Pick.

Baritone: Hunter Pick and Andrew Bolek.

Tuba: Marty Heiser.

All of the teachers were impressed with the Kewaskum’s newest musicians.

“This group has a bright future ahead of them,” Holmes said.

Peyton Theusch practices with the brass section during the sixth-grade band camp held at Kewaskum Elementary School last week.

Visit The Kettle Moraine Northern Unit

The Kettle Moraine State Forest – Northern Unit owes its unique landscape to glaciers of the Wisconsin Stage of the last Ice Age, which ended approximately 10,000 years ago.

During the Wisconsin Stage, several lobes of glacial ice moved into what is present day Wisconsin. The two largest lobes were in eastern Wisconsin, one coming down Green Bay and the other following the Lake Michigan basin. These two lobes side-swiped and collided with each other, and debris was deposited between them.

When the glaciers melted back, a jumbled ridge of hills was left behind, an interlobate moraine. This is known today as the hills of the Kettle Moraine, which runs for about 120 miles from Manitowoc County down into Walworth County. (This interlobate moraine is one of the few land features that can be seen from space.) In addition to the interlobate moraine, the glaciers also left behind various other landforms including kames, eskers, crevasse fills, kettles and erratics.

In the 1920's there were horrific floods in the city of Milwaukee and the city's population was rapidly growing. A group of foresighted people thought that if they could protect the headwaters of the Milwaukee River, this would help reduce the flooding in Milwaukee. They also wanted to provide a large tract of public land for Milwaukee's growing population.

After almost a decade, legislation along with funding became available for the creation of the Kettle Moraine State Forest. In 1936, the Conservation Congress (predecessor to the De-

partment of Natural Resources) acquired 850 acres around Moon Lake (now Mauthe Lake) from the Milwaukee Chapter of the Izaak Walton League. This marked the start of the Northern Unit. Today, the Northern Unit encompasses nearly 30,000 acres within its 36,000 project boundary.

In the 1950s a lawyer from Milwaukee, Ray Zillmer, began a campaign to bring his dream of a National Park protecting the glacial features of Wisconsin to life. With the help of his friends, Congressman Henry S. Reuss and Senator Gaylord Nelson, his dream came to fruition with the creation of the Ice Age National Scientific Reserve and the Ice Age National Scenic Trail. On a sad note, Ray Zillmer died before he could see the creation of the reserve and the Ice Age Trail.

A 1964 Act of Congress established the Ice Age National Scientific Reserve to "assure protection, preservation, and interpretation of the nationally significant values of Wisconsin continental glaciation... and other reminders of the ice age." The reserve consists of nine units scattered throughout the state and the northern 20,000 of the Northern Unit is one of those reserves. Each reserve site protects a unique glacial feature. The Northern Unit contains some of the finest features of continental glaciation in the state and the world including the interlobate moraine, kame fields, eskers, dry and wet kettles and crevasse fills.

In 1980 the Ice Age Trail was designated as a National Scenic Trail and later as a State Scenic Trail. The trail follows

the southern extent of the last glaciers in the state of Wisconsin and is the only National Scenic Trail that is found entirely in only one state. Today about sixty percent of the 1000 mile trail is now complete. The nucleus of the Ice Age National Scenic Trail was the 30-mile "Glacial Trail" that ran through the Northern Unit from north to south.

The Northern Unit's glacial features set the ground work for wide diversity of biological communities and the geographical position of the forest adds to this diversity. The Northern Unit is situated along the "tension zone" which runs in a diagonal path from near Eau Claire to northern Milwaukee. The tension zone marks where the northern forest meets the southern and eastern forest, and the prairies and oak savannahs of the south and west.

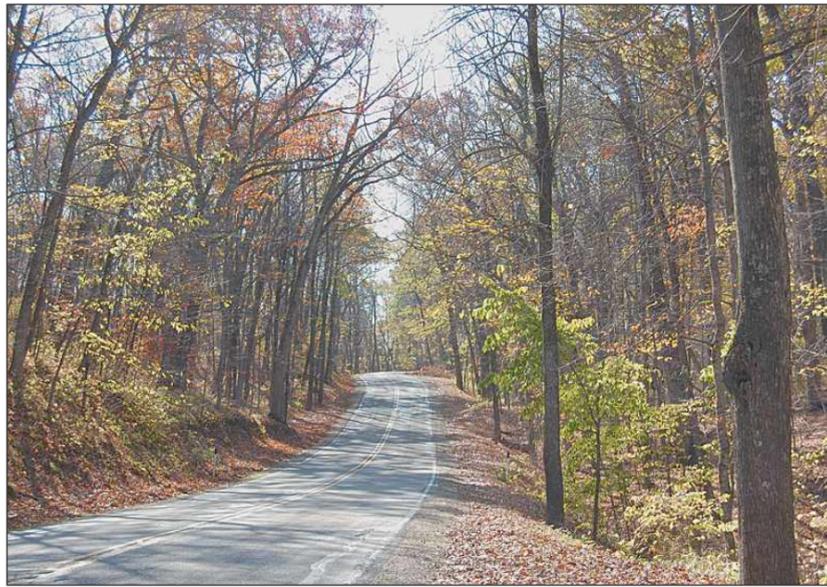

A person traveling through the area will encounter such natural communities as northern red oak forests, eastern hardwoods with beech trees, cedar swamps, flood plain forests, kettle wetlands, remnant prairies and northern bogs. The Northern Unit also supports one of the largest intact forests in southeast Wisconsin. This wide array of communities leads to rich diversity of plant and animal life including many threatened and endangered species and species of special concern. Twelve areas within the forest have been set aside as State Natural Areas protecting ten biological communities that were not or slightly disturbed by European settlement and two outstanding geological landmarks.

Today, it takes a team of managers and forest

staff to manage all the resources found in the Northern Unit from forestry to fisheries, wildlife, endangered resources and water resources. But, the number one management goal is providing outdoor recreational op-

portunities with minimal conflicts for the nearly one million annual visitors to the forest. People come to the Northern Unit to participate in a plethora of outdoor pursuits including hiking, hunting, camping, picnicking, swimming,

horseback riding, snowmobiling, snowshoeing, cross-country skiing, fishing (year-round), canoeing, boating, geocaching, backpacking, wildlife observing, off-road biking, dog training, spirit renewing, and learning.

The Kettle Moraine State Forest-Northern Unit is a beautiful place to visit and spend some time in. There are miles of hiking trails, lots of lakes and many different activities that can be enjoyed at any time of the year.

November 28: Taste of Washington County, Washington County Fair Park, 3000 Hwy PV, West Bend, 6 - 10 p.m.

December

December 1: Holiday Parade of Lights, Downtown Fond du Lac, 130 S. Main Street, Fond du Lac, 4 p.m.
December 1: A Wade House Christmas, W7965 State Hwy 23, Greenbush, 10 a.m. - 4 p.m., activities included in cost of general admission to Wade House. Adults \$12; children (5-17) \$6; students and senior citizens (65 and over) \$10; family (two adults and two or more dependent children 5-17) \$33. Horse-drawn transportation on the site included in ticket cost.
December 2: A Wade House Christmas, W7965 State Hwy 23, Greenbush, 10 a.m. - 4 p.m., activities included in cost of general admission to Wade House. Adults \$12; children (5-17) \$6; students and senior citizens (65 and over) \$10; family (two adults and two or more dependent children 5-17) \$33. Horse-drawn transportation on the site included in ticket cost.
December 2: Kewaskum Christmas Parade, Downtown Kewaskum, 5 p.m.
December 2: Cookie Hunt, starts at the Annex, 204 1st Street, Kewaskum, Noon - 4 p.m. Businesses who want to participate should call 262-732-5352. \$2 per box, one box per family.
December 7: Milwaukee Ice Fishing and Winter Sports Show, Exposition Center, 8200 W Greenfield, West Allis, 12 p.m. - 7 p.m.
December 8: Milwaukee Ice Fishing and Winter Sports Show, Exposition Center, 8200 W Greenfield, West Allis, 10 a.m. - 7 p.m.
December 8: A Wade House Christmas, W7965 State Hwy 23, Greenbush, 10 a.m. - 4 p.m., activities included in cost of general admission to Wade House. Adults \$12; children (5-17) \$6; students and senior citizens (65 and over) \$10; family (two adults and two or more dependent children 5-17) \$33. Horse-drawn transportation on the site included in ticket cost.
December 8: Christmas Fair, Washington County Fair Park, West Bend, 3000 Hwy PV, West Bend, 9 a.m. - 4 p.m., admission \$3.
December 9: Milwaukee Ice Fishing and Winter Sports Show, Exposition Center, 8200 W Greenfield, West Allis, 9 a.m. - 2 p.m.

December 9: A Wade House Christmas, W7965 State Hwy 23, Greenbush, 10 a.m. - 4 p.m., activities included in cost of general admission to Wade House. Adults \$12; children (5-17) \$6; students and senior citizens (65 and over) \$10; family (two adults and two or more dependent children 5-17) \$33. Horse-drawn transportation on the site included in ticket cost.
All of December: Lakeside Park Holiday Lights, 555 N Park Ave., Fond du Lac, dusk - 11 p.m.
All of December: Enchantment in the Park, Regner Park, West Bend, 5 - 9 p.m. Will be closed as of December 25.

January

Ending January 2: Lakeside Park Holiday Lights, 555 N Park Ave., Fond du Lac, dusk - 11 p.m.
January 11: MBA Home Building & Remodeling Show. Exposition Center at Wisconsin State Fair Park, 8200 W. Greenfield, West Allis.
January 12: Irish Dance Competition. Washington County Fair Park, 3000 Hwy PV, West Bend.
January 12: MBA Home Building & Remodeling Show. Exposition Center at Wisconsin State Fair Park, 8200 W. Greenfield, West Allis.
January 13: Irish Dance Competition. Washington County Fair Park, 3000 Hwy PV, West Bend.
January 13: MBA Home Building & Remodeling Show. Exposition Center at Wisconsin State Fair Park, 8200 W. Greenfield, West Allis.
January 18: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 3 p.m.- 9 p.m.
January 19: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 10 a.m.- 9 p.m.
January 19: Central Wisconsin Gun Collectors Show, Fond du Lac Fair Grounds, 520 Fond du Lac Ave, Fond du Lac, 8 a.m. - 5 p.m.
January 20: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 10 a.m.- 5 p.m.
January 20: Central Wisconsin Gun Collectors Show, Fond du Lac Fair Grounds, 520 Fond du Lac Ave, Fond du Lac, 8 a.m. - 3 p.m.
January 23: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 3 p.m.- 9 p.m.
January 24: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 3 p.m.- 9 p.m.
January 25: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 12 p.m.- 9 p.m.
January 26: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 10 a.m.- 9 p.m.
January 27: The Milwaukee Boat Show, Expo Center at State Fair Park, 8200 W Greenfield, West Allis, 10 a.m.- 5 p.m.
January 27: 41st Annual R/C Auction and Swap Meet, Washington County Fair Park Exhibit Hall, 3000 Hwy PV, West Bend, 9 a.m. - 2 p.m., admission \$5.

February

February 2: Fond du Lac Brew Fest, Fond du Lac County Fair Grounds, 520 Fond du Lac Ave., Fond du Lac, 4 p.m. - 7:30 p.m.
February 8: Sturgeon Spectacular, Lakeside Park Marina, 555 N Park Ave., Fond du Lac, 8 a.m. - 11 p.m.
February 8: Washington County Builders Association Show, Washington County Fair Park, 3000 Hwy PV, West Bend, 4 - 8 p.m.
February 9: Sturgeon Spectacular, Lakeside Park

Marina, 555 N Park Ave., Fond du Lac, 8 a.m. - 11 p.m.
February 10: Sturgeon Spectacular, Lakeside Park Marina, 555 N Park Ave., Fond du Lac, 8 a.m. - 11 p.m.
February 15: Milwaukee Muskie Expo, Washington County Fair Park, 3000 Hwy PV, West Bend, 2 p.m. - 9 p.m.
February 16: Milwaukee Muskie Expo, Washington County Fair Park, 3000 Hwy PV, West Bend, 9 a.m. - 6 p.m.
February 17: Milwaukee Muskie Expo, Washington County Fair Park, 3000 Hwy PV, West Bend, 9 a.m. - 3 p.m.
February 20: Carden Circus, Washington County Fair Park, 3000 Hwy PV, West Bend.
February 23: Winter Quilt Show, Washington County Fair Park, 3000 Hwy PV, West Bend, 9 a.m. - 4 p.m. \$5
February 22: 56th Annual O'Reilly World of Wheels, State Fair Park, 640 S 84th St., Milwaukee, 3 p.m. - 10 p.m.
February 23: 56th Annual O'Reilly World of Wheels, State Fair Park, 640 S 84th St., Milwaukee, 10 a.m. - 10 p.m.
February 24: 56th Annual O'Reilly World of Wheels, State Fair Park, 640 S 84th St., Milwaukee, 10 a.m. - 6 p.m.
February 28: Milwaukee RV Show, Wisconsin Expo Center, 8200 W Greenfield, West Allis, 1 p.m. - 8 p.m.

March

March 1: Milwaukee RV Show, Wisconsin Expo Center, 8200 W Greenfield, West Allis, 1 p.m. - 8 p.m.
March 2: Milwaukee RV Show, Wisconsin Expo Center, 8200 W Greenfield, West Allis, 10 a.m. - 8 p.m.
March 2: Fond du Lac Agriculture Showcase, Fond du Lac County Fair Grounds, 520 Fond du Lac Ave, 8:30 a.m. - 3 p.m.
March 3: Milwaukee RV Show, Wisconsin Expo Center, 8200 W Greenfield, West Allis, 10 a.m. - 4 p.m.
March 6: Milwaukee Journal Sentinel Sports Show, Wisconsin State Fair Park, 8200 W Greenfield, West Allis.
March 7: Milwaukee Journal Sentinel Sports Show, Wisconsin State Fair Park, 8200 W Greenfield, West Allis.
March 8: Milwaukee Journal Sentinel Sports Show, Wisconsin State Fair Park, 8200 W Greenfield, West Allis.
March 8: Home, Sporting and Recreation Expo, Washington County Fair Park, 3000 Hwy PV West Bend, 4 p.m. - 8 p.m.
March 9: Milwaukee Journal Sentinel Sports Show, Wisconsin State Fair Park, 8200 W Greenfield, West Allis.
March 9: Home, Sporting and Recreation Expo, Washington County Fair Park, 3000 Hwy PV West Bend, 10 a.m. - 4 p.m.
March 10: Milwaukee Journal Sentinel Sports Show, Wisconsin State Fair Park, 8200 W Greenfield, West Allis.
March 10: Home, Sporting and Recreation Expo, Washington County Fair Park, 3000 Hwy PV West Bend, 10 a.m. - 3 p.m.

April

April 13: Central Wisconsin Gun Collectors Show, 520 Fond du Lac Ave., Fond du Lac, 8 a.m. - 5 p.m.
April 14: Central Wisconsin Gun Collectors Show, 520 Fond du Lac Ave., Fond du Lac, 8 a.m. - 3 p.m.
April 20: Campbellsport Easter Bag Hunt, starting in the National Exchange Bank parking lot, 1 p.m.
April 20: Dundee Mill annual Easter Egg Hunt, 1 p.m.
April 27: Springtime Splendor Art and Craft Expo, 520 Fond du Lac Ave., Fond du Lac, 9 a.m. - 3 p.m.

The Kewaskum Christmas Parade is always a fun way to kick off the holiday season. It will be held this year on Sunday, Dec. 2, at 5 p.m. The parade starts at Kewaskum High School and then travels on Main Street to Fond du Lac Avenue and ends at First Street. Mark your calendar for December 2nd.

Fresh vegetables and fruits, specialty meats,
 unique handmade jewelry, canned goods, baked goods, maple syrup,
 honey, soap, lotion, lip balm, garden art, fishing lures, and a weekly brat fry.

Winter Activities Abound In The Kettle Moraine

The Kettle Moraine State Forest is a beautiful place to visit and the fall and winter seasons are no exception. It has so many activities for everyone.

You can start out in the fall months with a hike through the many trails in the forest. As the temperatures start to go down, the colors in the forest really come out. A hike through the trails will be beautiful with all the yellows, oranges and reds you will see in the trees and the shrubs. Don't forget to climb Parnell Tower to get a beautiful look at most of the forest.

The winter months may be cold with lots of snow, but there are still many outdoor activities for you and your family in the Kettle Moraine Forest and surrounding areas. You can go ice fishing, snowmobiling, showshoeing, skiing and golfing in the snow.

Snowmobiling

One of the many fun activities in the winter is snowmobiling. Lots of trails for snowmobiles can be found around the forest and in the forest.

The state forest has a 60-mile network of snowmobile trails which join to county and private trails connecting to adjoining towns and villages. Trails are groomed by four local snowmobile clubs under contract with the state forest. These snowmobile clubs are Northern Kettle Moraine Crooked Trails, Greenbush Trail Blazers, Kewaskum Sno-Chiefs, and New Fane Kettle Riders.

Trails around the forest are kept nicely during the winter months and provide lots of opportunities for snowmobiling in the area. Trails around the forest are groomed by the following clubs: Campbellsport Sno-Cougars, Dotyville Drifters, Eden Sno Birds, New Fane Kettle Riders, Northern Kettle Moraine Crooked Trails, Kewaskum Sno-Chiefs, Kettle Moraine Snowmobile Club, Plymouth Snow Rangers, Cascade Apollo Riders, Greenbush Kettle Moraine Trailblazers, and Beechwood Night Fliers.

See the current conditions page at the Kettle Moraine State Forest Unit's portion of the DNR website and/or call (920) 892-7455 to check trail conditions and to make sure trails are open.

Note: Any person who is born on or after January 1, 1985, and who has reached the age of 12, must have completed and received a snowmobile safety certificate in order to operate a snowmobile in Wisconsin. The certificate must be carried while operating the snowmobile, and displayed to a law enforcement officer upon demand. A parent, guardian, or person 18 years old or older must accompany any child under age 12 on the same snowmobile when operating on public areas.

Many snowmobile organizations have trails that they maintain outside of the forest. Fond du Lac County has hundreds of miles of trails in the area. You can check the Fond du Lac County Snowmobile Association's website at <http://fdlsnowmobileassn.com/> for more information on the county trails and conditions.

Sheboygan County information and maps can be found at www.nkmsnow.com or by calling 920-459-3060 for map and 920-892-7455 for trail conditions. For Washington County information, call 262-334-6061 or check the Kewaskum Sno-Chiefs website at www.kewaskumsno-chiefs.com to get more information.

Skiing

Skiing is a great winter activity that can not only be fun, but also great for physical fitness. You can either cross country ski in the area or try your luck at downhill skiing.

Cross Country — At the Greenbush recreation area a total of 25 miles of machine-groomed cross-country ski trails are provided for diagonal and skate skiers. Pets and hiking are not allowed on ski trails.

The 1.2-mile Brown Loop at Greenbush is lighted for night skiing. The trail lights can be activated by skiers nightly between 4:30 p.m. and 10 p.m. A heated log shelter house, a sledding hill, and nine miles of snowshoe trails also are open to the public at the Greenbush Recreation Area.

Volunteers from the Northern Kettle Moraine Nordic

Ski Club (NKMNSC), in cooperation with the state forest, regularly machine groom the ski trail system for diagonal and skate skiing. For more information on trail conditions and the NKMNSC, call the club's trail hotline (920) 467-2099, or visit its web site at www.greenbushusa.com.

More than 11 miles of cross-country ski trails are available at the Zillmer Trail Area. Forest staff regularly machine groom the trails for diagonal and skate skiing. For current ski trails conditions in southeastern Wisconsin including Zillmer visit the Friends of Lapham Peak Web site.

A total of 7.7 miles of ungroomed cross-country ski trails are available at New Fane.

Downhill — A couple of options are available in the area for downhill skiing.

You can go to Sunburst Ski Area in Kewaskum. It is a great hill for skiing and snowtubing. You can go to www.skisunburst.com for more information or call 262-626-8404.

You can also try Little Switzerland in Slinger. For more information on this hill, you can go to www.littleswitz.com or call 262-644-5020.

In Plymouth, you could try Nutt Hill. Follow Main Street to the top of the hill. This hill is opened when there is 10-12 inches of natural snow on the ground and has a heated shelter. You can call 920-207-SKII (7544) for current information on this hill.

Hiking & Snowshoeing

Hikers and snowshoers may explore several miles of trails that are not groomed for skiing. The following trails are recommended for winter hiking and/or snowshoeing: Greenbush and New Fane snowshoe trails; Moraine Nature Trail - .75 miles, easy to intermediate; Tamarack Nature Trail - 2 miles, easy; Parnell Trail - 3.5 miles, intermediate to difficult; Butler Lake Trail - 3.1 miles, easy to intermediate; Ice Age National Scenic Trail - 31 miles, intermediate to difficult.

Pets are prohibited on designated nature trails.

Ice Age Center Is A Great Resource

The Henry S. Reuss Ice Age Visitor Center is a great resource for anyone visiting the Kettle Moraine State Forest-Northern Unit. It is located just outside of Dundee on Highway 67.

Its purpose is to introduce and orient visitors to the forest about the area and the special features of the area. The glaciers that covered this area about 10,000 years ago left some unique terrain and features in this area.

The Kettle Moraine was created when the Green Bay Lobe of the glacier, on the west, collided with the Lake Michigan Lobe of the glacier, on the east, depositing sediment. The western glacier formed the Bay of Green Bay, Lake Winnebago and the Horicon Marsh while the eastern one formed Lake Michigan.

As the glaciers melted and moved, they left behind many different features like moraines, kames, eskers, drumlins, and kettles. The Ice Age Visitor Center explains these features, how they were formed and gives examples of these features in the area.

"You can get a good idea of how the glaciers affected this area and the treasures it left," said Jackie Scharfenberg, DNR naturalist at the Ice Age Center. "A lot of groups come here as a jumping off point."

After visiting the center, you can then go out into the forest to see these different formations. Many trails can be found in the forest to get you to these features. A short trail is also accessible from the Ice Age Visitor Center.

Another feature of the center is the information you can receive about the forest activities. The center has maps of all the trails in the forest, campgrounds, information about Mauthe and Long Lakes and the campgrounds in the forest.

"We can provide information about the forest and its multitude of things to do," Scharfenberg said.

The Henry S. Reuss Ice Age Visitor Center was opened in January of 1981 and dedicated in May of 1981. It was named after a Wisconsin congressman. The Zillmer Trail was also named after a Wisconsin congressman

sin congressman

"They got some of the initial money passed (for the center and trails)," Scharfenberg said.

The center is open year-round. From April through October, it is open Monday-Friday from 8:30 a.m.-4 p.m. and on weekends from 9:30 a.m.-5 p.m. During the months from November through March, the hours will vary, so please call ahead at (920) 533-8322. About 25,000-30,000 people stop at the Ice Age Visitor Center every year.

Every week educational programs are held at the center. These programs teach young and old about the forest wildlife, vegetation and other fun nature-related things. Programs are generally free to the public, with some exceptions. A calendar of these educational programs can be found on pages 14, 15 and 16.

Things To Do At The Ice Age Visitor Center

Throughout the year, the forest naturalists present a wide array of fun-filled educational programs. The programs are held at the Ice Age Visitor Center, Mauthe

The Ice Age Visitor Center is a great place to visit to learn more about the Kettle Moraine State Forest and how it was formed. You can also take part in educational programs, find a trail, and just enjoy the beauty of the forest from the center. Many of the educational programs held in the forest are hosted at the Ice Age Center.

photo by Andrea Hansen Abler

Lake Recreation Area, Long Lake Recreation Area or at other spots within the forest. There are programs for all interests and age levels.

View exhibits to learn about the frozen history of Wisconsin and the gifts of the glacier. There is a great view of the landscape from the nature center and a naturalist is available to

answer your questions.

Become a Wisconsin Explorer and discover the natural world. Pick up a booklet at the nature center. The booklets are full of hands-on, exciting and educational activities for days on the beach, rainy days at home or starry nights. Complete at least half of activities and return it to any state park, forest or

recreation area. Receive a patch and certificate for completing the activities.

The Henry S. Reuss Ice Age Visitor Center is a great place to start your visit to the Kettle Moraine State Forest-Northern Unit. It will help educate you about the forest and give you information about more opportunities in the forest.

Lakes Of The Kettle Moraine

The Kettle Moraine State Forest-Northern Unit has more than a dozen lakes and ponds — mostly kettles, but also two impoundments of the Milwaukee River.

The Mauthe Lake and Long Lake recreation area entrance stations, when open, lend fishing equipment free of charge. Several private vendors within the forest sell licenses, bait and other fishing supplies.

The seven lakes listed below range in size from 427 acres (Long Lake) to less than seven acres, accounting for a total of 786 acres.

The primary fish species in these lakes include largemouth bass, bluegill, crappies, and northern pike.

Mauthe Lake and Long Lake recreation areas have fishing piers that are accessible to people who are mobility-impaired.

Auburn Lake (Lake Fifteen) — A medium-sized kettle lake, Auburn Lake provides a diverse fishery. A paved boat launch and trailer parking area are across from the Forest Headquarters entrance road. Access to

launch is a narrow gravel road not suitable for large boat trailers. A local wake ordinance, posted at the landing, is in effect. State park vehicle admission sticker required.

Expect to catch bluegills—most small, some larger; crappies—present, but generally not quality size; northern Pike—often found near outlet stream mouth and on north end across from boat landing; and yellow bass—fish are stunted, but abundant.

Butler Lake — Butler Lake is the smallest of the easily-accessible Kettle Moraine Lakes. It is a kettle lake with an emergent wetland fringe around most of the lake. The Ice Age Trail meanders through the Butler Lake area and there is a loop hiking trail system near the lake. Butler Lake is spring-fed and the water remains fairly cold and oxygenated.

There is a paved parking lot and gravel launch area for canoes or small rowboats. Gas motors are not allowed. A water pump is available near the parking lot. State park vehicle admission sticker required.

Expect to catch bluegills—small, but abundant; and yellow perch—small, but abundant.

Crooked Lake — This medium-sized kettle lake has relatively clear water and a diverse aquatic plant community. Gravel access road and parking area are off of County Highway SS. Launch, suitable for canoes and small boats, is shallow and weedy.

Expect to catch bluegills—some nice size, many smaller; yellow perch—numerous small perch; crappies—population fluctuates widely with very good fishing some years; northern pike—fair population, but not abundant; and largemouth bass—a small population of nice-sized fish. Exercise catch and release.

Forest Lake — Forest Lake is a small kettle lake with a mostly-developed shoreline. A marked and fairly steep walk-in public access is off of County Highway GGG. The lake is only suitable for canoes, small rowboats or paddleboats. No motors are allowed. Game fish, such as

Snow golf on Long Lake is one of the fun winter activities that take place in the Kettle Moraine State Forest every winter. This couple were excited to driving around on the lake while they were golfing.

photo by Andrea Hansen Abler

northern pike, walleyes, and bass, are catch and release only.

Expect to catch bluegills—good numbers of smaller bluegills; sunfish—good numbers of smaller sunfish; crappies—some, smaller; northern pike—larger, catch and release only; walleye—some, catch and release only; and largemouth bass—good population, catch and release only.

Kettle Moraine Lake (Round Lake) — The second-largest lake in the Kettle Moraine area, Kettle Moraine Lake has relatively clear water. Many parts of the lake are weedy and shallow. There is no state forest access, but the public can launch at Frank's Resort on the east side. Obey the local wake ordinance posted at landing.

Expect to catch bluegills—although not large

fish, bluegills are abundant; yellow perch—some present, generally small; crappies, not abundant, but average size; northern pike—large population for a lake this size, commonly found in the 17-inch to 21-inch size range, no minimum size limit; largemouth bass—common, and of quality size; and bullheads—bullhead fishing is the highlight of Kettle Moraine Lake.

SKI. BOARD. TUBE. SMILE!

SkiSunburst.com | 5 Miles North of West Bend on Hwy 45

Lakes Of The Kettle Moraine

Lake Seven — This small, mostly undeveloped kettle lake has clear water and a diverse aquatic plant community. It is historically known as a tremendous bluegill lake. No gas motors allowed. Fairly shallow gravel boat launch for canoes and small rowboats.

Expect to catch bluegills—predation has decreased the population, but fish up to 12 inches reported; crappies—a few present; and largemouth bass—very abundant, but small average size.

Long Lake — Long Lake is a three-mile long impoundment of the East Branch of the Milwaukee River. The lake has relatively clear water and is stocked by DNR and the Long Lake Fishing Club. Heavy recreational use in the summer may make fishing difficult.

An accessible fishing pier and shoreline fishing opportunities are in the Long Lake Recreation Area.

It has a developed boat launch and parking for more than 20 vehicles and trailers. The boat launch fills on summer weekends. Obey the local wake ordinance posted at landing. State park vehicle admission sticker required.

Expect to catch bluegills—six- to seven-inches common in summer, best fishing along mid-depth weedlines and in deeper water on vegetated mid-depth flats; crappies—seldom active at mid-day, best time to fish is an hour after dark; walleyes—not common, those present are larger; northern pike—a good population with larger pike found near vegetated drops, no minimum size limit; largemouth bass—common in summer, the lake has a very good population with a nice size structure of fish available, anglers are encouraged to catch and release bass; and bullheads—one of the most popular summer fish to catch, especially near boat launch area.

Mauthe Lake — Mauthe Lake is a 78-acre impoundment of the East Branch of the Milwaukee River and is entirely within the state forest bound-

Sully Immel was having a good time ice fishing during the Campbellsport Jaycees annual Kids' Fisheree last year on Lake Bernice. Ice fishing is a huge activity on all of the lakes in the Kettle Moraine Forest, so grab a pole, your auger and come on out to see what you can catch.

photo by Andrea Hansen Abler

aries.

Accessible fishing pier, trail to dam, and shoreline fishing opportunities are within the recreation area. Paved launch for canoes and small boats. No gas motors allowed; electric trolling motors are allowed.

State park vehicle admission sticker required. No off-road vehicles (snowmobiles, atv's) allowed on the ice or at any time.

Expect to catch bluegills—many smaller fish, some larger; crappies—occasionally the highlight of the fishery; largemouth bass—Mauthe Lake is a very good bass lake; northern pike—although not a large lake, some pike in the 30-inch range are caught; and walleyes—occasionally caught.

Area Ice Fishing Events And Other Activities

Long Lake Fishing Club's Fisheree — The Long Lake Fishing Club holds a winter Fisheree in February. It is always held on a Saturday, check their website at www.longlakefishingclub.com to find out the specific February 2017 date.

Registration for the Long Lake Fisheree will be from 6 a.m.-4 p.m. A huge winter raffle drawing is also held in conjunction with the fisheree.

Campbellsport Jaycees Fisheree — The Campbellsport Jaycees hold a childrens' fisheree every year. It is always on a Saturday at the beginning of February. In 2017, the Kids' Fisheree will be held on Saturday, Feb 4, on Lake Bernice.

Children and their parents can head out to Lake Bernice, near the Sand-piper Inn, for the event. The children go out and learn how to ice fish and see what they can catch. Prizes are awarded at the end of the event.

Dundee Sportsman's Club All-Lake Fisheree — The Dundee Sportsman's Club always hosts a fisheree on a Saturday in the middle of January. This fisheree is open to everyone and you can fish on any lake in the area. Check their website at www.dundeesportsmensclub.com to find out the 2017 date.

Fisherman can fish all day and then bring their catch to the Dundee Sportsman's Club, on Highway 67, to be measured. The winners are awarded at the end of the event.

Kewaskum Kiwanis Kids Fisheree — The Kewaskum Kiwanis Club hosts a kids fisheree every year in February. The fisheree is held on Kettle Moraine Lake (sometimes called Round Lake). It is held from 8 a.m.-12 p.m. with lunch being provided to the children.

Long Lake Fishing Club's Snow Golf Tournament — The Long Lake Fishing Club hosts this fun event on the last Saturday in January every year. As long as ice conditions allow, members of the club set up a small nine-hole golf course on Tittle Lake in front of Benson's Hide-A-Way.

Partial holes are drilled in the ice. Participants use their normal golf clubs, irons only, and a tennis ball.

Tee times are scheduled from 9 a.m. to 3 p.m. For more information on the 2017 tournament, to be held on Saturday, Jan. 28, check out the club's website at www.longlakefishingclub.com.

A group looks at one of the many cars that were on display at the annual Dundee Car and Craft Show last year. The event will be held on Saturday, Oct. 13, so come out and check out the cars and crafts.

photo by Andrea Hansen Abler

Fall Color Car and Craft Show In Dundee

Get ready to "Fall into Fun" when the Dundee Annual Fall Color Car and Craft Show kicks off at the Dundee Sportsman's Park on Saturday, Oct. 13, 9 a.m. to 4 p.m.

Automotive enthusiasts of all kinds are invited to come out and enjoy a day. The family-friendly free event features something for everyone — including great craft, gift and goody vendors inside for the ladies.

Food and beverages from 9 a.m.-3:30 p.m. Music 10 a.m.-3 p.m. Plenty of free parking is available directly on the grounds.

Car registration is from 9 a.m.-12 p.m. Awards and cash prizes in various categories for the registered old classics, hot rods, muscle, trucks, custom, etc. The event is jointly hosted by the Dundee Sportsman's Club and the Long Lake Preservation

Association. The admission is free.

You can locate the Dundee Sportsmen's park pavilion on Highway 67 across from the Exxon gas station in Dundee. Just follow the banners in the area.

Everyone is welcome at this free event. Come and enjoy the day while supporting the local clubs in and around Dundee. Hope to see you there! If you want to learn more, please visit us at <http://longlakepreservation.org/carshow.php>.

The clubs will be accepting greatly appreciated donations. The funds generated will be used to continue with the club's goals that benefit the community.

You can learn more about the club, its goals, and fund raising events at www.dundeesportsmensclub.com or www.longlakepreservation.org.

Special Interest Areas In The Kettle Moraine

The Kettle Moraine State Forest has a lot to offer in its almost 30,000 acres. It includes a variety of terrain that's home to many plants and animals.

Approximately one million people visit the forest each year.

The forest can thank the glaciers for its unique characteristics. This gives the forest some interesting areas that visitors should try to see while visiting the Kettle Moraine State Forest-Northern Unit.

Some of these areas include:

Greenbush Kettle — On Kettle Moraine Drive, one mile north of State Highway 67. This is an outstanding example of a glacial kettle hole. A scenic overlook, viewing deck and interpretive display is just a short walk from the parking lot.

Haskell Noyes Memorial Woods — On County Highway GGG just south of Highway SS. A historical marker greets visitors to this 67-acre State Natural Area. This area is designated as a Wisconsin Wildlife Viewing Area and is included in the national "Watchable Wildlife" program.

Haskell Noyes Memorial Woods is a classic example of southern dry-mesic forest dominated by sugar maple and red oak, with smaller amounts of basswood, white ash, bitternut hickory, and ironwood. The land was purchased in 1947 to prevent imminent logging. Haskell Noyes Memorial Woods is owned by the DNR and was designated a State Natural Area in 1952.

Vista Trail Overlook — At the Henry S. Reuss Ice Age Visitor Center. A short climb up some stairs and you arrive at a

viewing platform overlooking a beautiful vista from which you can see drumlins, eskers and ground moraines.

The Visitor Center offers forest information, interpretive displays, and a 20-minute film explaining how the glaciers shaped most of Wisconsin's landscape. You can buy nature books, clothing, admission stickers, and trail passes there. Public programs are scheduled throughout the year and group programs on request.

Jersey Flats Prairie — On County Highway SS, a quarter-mile west of the village of New Prospect. This restored prairie is a glacial outwash plain. This area is designated as a Wisconsin Wildlife Viewing Area and is included in the national "Watchable Wildlife" program.

Little Mud Lake — On County Highway SS, one-half mile east of County Highway GGG. This site is a State Habitat Preservation Area and is vital for the long-term survival of the red-spotted, blue-spotted, spotted, and tiger salamanders that thrive here. A picnic table and grill are provided at the small parking lot.

Dundee Kame (White Kame) — On County Highway F, a quarter-mile east of Dundee. This conical moulain kame lies within a 468-acre State Natural Area. The kame is known throughout the world by geology students and is often pictured in geology textbooks because of its near perfect form.

Kame Field — Near the intersection of Highway V and Deer Road looking north. The mile-wide view of this spectacular kame field is breathtaking. Visitors can

The Haskell Noyes Memorial Woods is one of the beautiful special features of the Kettle Moraine State Forest-Northern Unit. When you are visiting the forest, spend some time checking out all of the beautiful features of the area.

photo by Andrea Hansen Abler

view and experience the rock and rubble and gravel "insides" of a kame up close.

Spruce Lake Bog State Natural Area — North of Dundee on Airport Road, one-half mile west of Vista Drive. This area is designated as a Wisconsin Wildlife Viewing Area and is included in the national "Watchable Wildlife" program. Visitors must stay on the boardwalk trail due to the fragile nature of the bog plants, the presence of poison sumac, and the unstable bog surface.

Spruce Lake Bog features an undisturbed shallow seepage bog lake situated in one of the many kettle holes characteristic of the interlobate glacial deposits scattered throughout the area. The 35-acre lake has moderately hard water with a pH of 7.5 and supports a dense, floating-leaved aquatic flora of water shield and water lilies.

Milwaukee River

Tamarack Lowlands — The Milwaukee River Floodplain Forest features a bottomland hardwood forest with small upland islands located along the East Branch of the Milwaukee River. The site also contains dry-mesic forest and shrub-carr.

The well-structured floodplain forest is dominated by large silver maple and green ash with other lowland trees including hackberry, black ash, and burr oak. Just east of the river are small upland islands with sugar maple and beech. Several spring runs are also present.

Butler Lake and Flynn's Spring — East of Long Lake on Butler Lake Road, a seven-acre lake surrounded by sedge meadow. Butler Lake and Flynn's Spring features a seven-acre shallow hard-bottom lake surrounded by sedge meadow. Previously, the site contained a tamarack hardwood swamp but a few years of high

water levels has killed off most of the trees. Nearby Flynn's Spring is a small, spring brook flowing into the south end of Butler Lake.

Adjacent to the lake is Parnell Esker, a geologic feature known worldwide and used extensively for education. The esker is five to 35 feet in height and runs northeast southwest for about four miles. Of particular interest at this site is the presence of two rare species — the unicorn clubtail dragonfly (*Arigomphus villosipes*), and the swamp spreading (Lestes vigilax).

Milwaukee River And Swamp — This area is along the Milwaukee River north of Mauthe Lake and includes a large spring that feeds the river.

Milwaukee River and Swamp features an unusual combination of southern and northern wet-mesic forests situated along 0.75 mile of a slow, meandering warm water stream with ac-

companying shrubs zones and communities including lowland hardwood forest, conifer swamp, and a small bog lake.

The river bottom is mucky with sand and gravel and there are good populations of northern pike, black crappie, walleye, and several smaller forage species. Aquatic plants include water-lilies, water-milfoil, coon's-tail, waterweed, giant duckweed, water nymph, and several pondweeds.

One large spring, 1,000 feet long, feeds the river in the north portion of the site. Bordering the river is a dense shrub zone that changes abruptly to a yellow birch, white birch, American elm, black ash, and basswood lowland forest. East of the small lowland forest is a more dense conifer swamp of mainly white cedar but also tamarack and black spruce.

A small bog lake occurs in the eastern portion of the natural area.

Special Interest Areas In The Kettle Moraine

Spring Lake — Southwest of New Prospect west of County Highway G, this clear, shallow lake has many fish. Various warblers nest in the area.

Spring Lake is a clear, alkaline lake surrounded by fen and northern wet forest with an unusual flora and fauna. Aquatic vegetation is sparse and consists of yellow water-lily, bladderworts, pondweeds, and chara. The shoreline is an undercut bog shelf under which fish find refuge. Northern pike, large mouth bass, perch, bullhead, and green sunfish are found in spite of a maximum water depth of 1.5 feet.

Crooked Lake Wetlands — East of New Prospect on the north side of County Highway SS, this area includes three lakes and various kinds of woods and wetlands. It is home to many kinds of birds.

Crooked Lake Wetlands is a diverse complex of communities including northern wet forest, southern dry-mesic forest, southern sedge meadow, shrub-carr, open bog, and two shallow seepage lakes.

The 65-acre Crooked Lake is one of the larger natural lakes in the county and has a maximum depth of 34 feet. The inlet provides a spawning ground for northern pike while the outlet forms a small tributary of the East Branch of the Milwaukee River.

Kettle Hole Woods — Northeast of New Fane on County Highway S, then north on Forest View Road, this area has woods, shrubs, wildflowers, birds, and frogs.

Located in southeastern Wisconsin's glacial kettle topography is Kettle Hole Woods, an isolated hill forested with southern mesic and dry-mesic hardwoods. Ephemeral ponds are scattered throughout the site.

The mature forest features an excellent canopy of very large trees, primarily red oak and sugar maple with associated beech, basswood, white ash, white oak, and bitternut hickory. Most saplings are sugar maple and beech suggesting that the red oaks will eventually be replaced by other more

mesophytic species.

Kewaskum Maple-Oak Woods — Southeast of Kewaskum via State Highway 28 and South Mill Road, two parcels with interesting wild plants and birds.

Kewaskum Maple-Oak Woods consists of two parcels separated by old field and pine plantation that contain southern dry-mesic and mesic forest dominated by sugar maple, red oak, white ash, and basswood with some beech. Located just east of the Milwaukee River, the southern tract is hilly with southern, eastern, and western exposures and contains a very rich herb layer.

The northern tract is flatter and generally lower, containing very large red oak, white oak, sugar maple, and black cherry. Both parcels have kettle depressions that hold water seasonally.

Kettle Moraine Red Oaks — The Ice Age Trail goes through this area southeast of Greenbush. It has more than 100 kinds of trees, shrubs, and other

plants.

Kettle Moraine Red Oaks is a mature second-growth southern dry-mesic forest which originated in 1889. Composed of red oak, basswood, sugar maple and white ash, it is one of the richest oak forests in the region and contains over 100 species of trees, shrubs, and herbs.

Other canopy species present include big-tooth aspen, white oak, black cherry, and shagbark hickory while the sub-canopy is composed of ironwood, sugar maple, basswood, and ash saplings. The forest is situated on the high interlobate moraine and contains several out-

standing dry kettle holes, which provide some diversity in exposure.

Johnson Hill Kame — South of Highways 67 and U near Woodside and Shamrock roads, a cone-shaped hill formed by water pouring down through a hole in a melting glacier.

Johnson Hill Kame is a "moulin" kame, a conical hill of sand and gravel formed near the edge of the wasting glacial ice sheet by subglacial meltwater streams that poured downward through cylindrical holes in the glacier. The swirling motion of the debris-laden water reminded early

French mountaineers of a moulin (mill in French).

Hundreds of spectacular glacial features can be found within the Kettle Moraine and the Northern Unit contains one of the best displays of moulin kames in the country. Surrounding the kame is both southern and northern dry-mesic forest. The southern slope is composed of red oak, big-tooth aspen, beech, ironwood, sugar maple, butternut hickory, basswood, white oak, and eastern hop-hornbeam.

The cooler north slope consists of basswood and sugar maple with beech, red oak, and eastern hop-hornbeam.

Like Us On
facebook

The Lomira Area Chamber of Commerce is a organization of local businesses whose goal is to further the interests of local businesses and the communities they serve. We serve the communities of Lomira, Brownsville, Knowles, Leroy and Theresa, in the Northeastern corner of Dodge County, Wisconsin.

Lomira Appreciation Day

Sunday, September 2

Get some free corn and enjoy Appreciation Day at Sterr Park! As always, there will be bingo, a silent auction, kids' games, a live band, the FFA Alumni Tractor Pull, and much more.

Mantz Brothers 7-11 • Fireworks @ 9:30

The Lomira Chamber of Commerce was officially formed on January 12, 1972. In 1988, its name was changed to the Lomira Area Chamber of Commerce. In addition to promoting business, the organization sponsors an annual Citizen of the Year award, Santa Visit, a citizen welcome program and a free Labor Day corn roast.

Trails In The Kettle Moraine

One of the great things about the Kettle Moraine State Forest-Northern Unit is the many trails that are available within the forest. You can walk, bike, picnic, ride horses, cross country ski, snow shoe and have a lot of fun on these trails.

The Kettle Moraine State Forest-Northern Unit has more than 132 miles of trails, varying in difficulty, length, and permitted uses. Steep climbs or descents are common. Pets on designated trails must be on a leash (no longer than eight feet long). Parking lots are provided throughout the forest. A state trail pass is required for bikers and horseback riders, 16 years of age and older.

To see a full forest map with all of the trails highlighted, turn to page 2.

Butler Lake Loop: On Butler Lake Road, 1.5 miles east of the Long Lake Recreation Area, the Butler Lake Trail winds more than three miles through the 158-acre Butler Lake and Flynn's Spring State

Natural Area.

A portion of the loop trail is shared with the Ice Age Trail. Interpretive displays are set at the base of the esker and overlook Butler Lake. A picnic table, grill and drinking water are at the trailhead.

Greenbush Loop System: On Kettle Moraine Drive, 2.5 miles north of State Highway 67, the Greenbush Trail recreation area has two trail systems: four loops of challenging mountain bike trails totaling nine miles, interwoven with five loops of hiking trails totaling 13.5 miles.

Hikers and off-road mountain bikers share this multiple-use trail system in season. For safety reasons, these trails are use-specific: hiking is not allowed on the bike trails, and biking is not allowed on the hiking trails.

In winter, the trails are groomed for cross-country skiing. Pets and hiking are not allowed on ski trails. The 1.2-mile Brown loop at Greenbush is lighted for night skiing. The bike trails are excellent for winter hik-

The Kettle Moraine State Forest-Northern Unit is a beautiful place to visit during the fall months when the leaves are turning colors. There are miles of trails in the area to hike and take in the beautiful scenery. When the winter months area here, many use the trails for skiing and some for snowmobiling. There is always something to do, no matter what season, in the Kettle Moraine.

photo by Andrea Hansen Abler

ing and snowshoeing. A heated picnic shelter, picnic tables, grill, drinking water and vault toilets are near the trail head. There is also access to the Ice Age Trail.

New Fane Loop System: On County Line Road, 1.5 miles east of Kettle Moraine Drive, the New Fane area has two trail systems: four loops of moderately-challenging mountain bike trails totaling 5.5 miles, interwoven with four loops of hiking trails totaling 7.7 miles. A short connector trail al-

lows hikers access to the Ice Age Trail (bikes are not allowed on the connector trail).

Hikers and off-road mountain bikers share this multiple-use trail system in season. For safety reasons, these trails are use-specific: hiking is not allowed on the bike trails, and biking is not allowed on the hiking trails.

An open-air reservable shelter is located near the trail head, and drinking water and vault toilets are available year-round.

In winter, the hiking trails serve as un-groomed cross-country ski trails, and the bike trails are open to winter hiking and snowshoeing.

Parnell Loop: On County Highway U, one-

quarter mile west of County Highway A, the Parnell Tower Trail begins its 3.5-mile loop with a series of steps leading to the highest point of elevation in the forest. There a 60-foot observation tower rises above the treetops for a birds-eye view of the glacial landscape.

The trail follows the Ice Age Trail near a rustic backpack shelter reservable for camping. Picnic tables, grills, drinking water and vault toilets are adjacent to the trailhead.

Tamarack Loop: This trail can be accessed near the Forest Headquarters off County G, or from the Mauthe Lake recreation area off County GGG. This two-mile nature trail is entirely within the Mauthe

Lake Refuge and loops around the lake.

This area is closed to hunting, and pets are prohibited on the trail. Flush toilets are available year-round on the headquarter's side.

Spruce Lake Bog Trail: This 0.25-mile, easy boardwalk trail takes visitors through a unique open-lake bog community to Spruce Lake. This site was designated as a National Natural Landmark by the National Park Service, and one can expect to see sundews, pitcher plants, and other rare plant species.

Visitors are requested to stay on the boardwalk, due to the fragile nature of the habitat and the presence of poison sumac.

Trails In The Kettle Moraine

Summit Trail: Accessed from the Long Lake Campgrounds (upper 900s loop), the Summit trail is a one-mile nature trail loop which scales Dundee Mountain.

Glacial geology interpretive signs mark this challenging trail to the top of the highest kame in the forest, with panoramic views of the Campbellsport drumlins and other ice age topography. Pets are not allowed on this trail.

Zillmer Loop System: On County Highway SS, one-quarter mile west of County Highway G, the Zillmer Trail Area consists of four loop trails for a total of 11 miles. The south trail head has a heated shelter, vault toilets, picnic tables, grills and drinking water.

Visitors can also access the trail from the Ice Age Visitor Center. A rustic backpack shelter is reservable for camping along the trail.

In winter forest staff regularly machine groom the trails for diagonal and skate skiing. Hiking and pets are prohibited when snow is present. The area is closed to hunting with firearms, except

during deer gun and spring turkey seasons.

Moraine Nature Trail: This 3/4-mile, easy nature-trail loop begins at the Ice Age Visitor Center. A self-guided booklet links to the numbered posts along the trail and identifies the common trees of the Kettle Moraine.

Picnic tables are available at the trail head. Pets are not allowed on this trail.

Lake to Lake Bike Trail: This 6.5-mile limestone surfaced trail connects the Mauthe and Long Lake recreation areas and passes by the village of Dundee.

This gentle trail winds through hardwood forests, prairies, conifer plantations, and lowland swamps.

Off-Road Bike Trails: Off-road biking is only permitted on the Greenbush (nine miles) and New Fane (5.5 miles) loop trails. Normally these trails are opened in late April through November, depending on trail conditions.

It is highly recommended that you not ride while it is raining or within four to six hours

after rain has stopped.

A trail pass is required for riders 16 years of age and older. See the current conditions page on the DNR website and/or call ahead to check trail conditions and to make sure trails are open.

Wade House Access Trail: A 1.7-mile linear trail that connects the Old Wade House State Historical site in Greenbush to the Ice Age Trail. The trail travels through hardwood forests, a meadow, and the Kettle Moraine Red Oaks State Natural Area.

Limited parking is available at the Wade House parking lot (no overnight parking). Walk one block east on Washington Street to the trail head.

Bridle Trails: Equestrians enjoy 41 miles of bridle trail which are traditionally open late April through mid-November depending on trail conditions. The main bridle trail winds the linear length of the forest of 33 miles. Two loop trails, Crooked and Forest Lake, provide shorter routes totaling more than seven miles.

Volunteers from the Northern Kettle Moraine

Horse Trail Association, in cooperation with the state forest, partner working on projects and special events to enhance the horseback riding experience in the state forest.

A trail pass is required for riders 16 and older. See the current conditions page on the DNR website and/or call ahead to check trail conditions and to make sure trails are open.

Ice Age National Scenic Trail: About 31 miles of the Ice Age National Scenic Trail travels the length of the forest. The moderate to difficult course follows sinuous eskers and tumbled moraines descending into bogs and deep kettles. Five rustic backpack shelters are reservable for camping along the trail. The Ice Age Trail includes various portions of other forest trails.

The Ice Age Trail is a National Scenic Trail located entirely within Wisconsin. The trail is also one of 42 designated Wisconsin State Trails, and the only one specifically designated as a "State Scenic Trail." From Interstate State Park on the Minnesota border to Potawatomi

State Park on Lake Michigan, the Ice Age Trail winds for more than 1,000 miles, following the edge of the last continental glacier in Wisconsin.

One of only eight National Scenic Trails, the Ice Age Trail is intended to be a premier hiking trail and conservation resource for silent sport and outdoor enthusiasts. The trail traverses some of Wisconsin's most scenic landscapes and helps tell the story of the last Ice Age by highlighting Wisconsin's unique glacial features.

The Ice Age Trail travels through 30 counties on state, federal, county and private lands, connecting dozens of communities. There are hundreds of trailheads and access points located along the trail route. More than 600 miles of trail are open. The completed sections of the trail are connected by less-traveled roadways and other temporary routes.

*Pets allowed on designated trails and must be on a leash (no longer than eight feet long).

Snowmobile Trails: The state forest has a

60-mile network of snowmobile trails which join to county and private trails connecting to adjoining towns and villages. Trails are groomed by four local snowmobile clubs under contract with the state forest. These snowmobile clubs are Northern Kettle Moraine Crooked Trails, Greenbush Trail Blazers, Kewaskum Sno Chiefs, and New Fane Kettle Riders.

See the current conditions page on the DNR website and/or call (920) 892-7455 to check trail conditions and to make sure trails are open.

Note: Any person who is born on or after January 1, 1985, and who has reached the age of 12, must have completed and received a snowmobile safety certificate in order to operate a snowmobile in Wisconsin. The certificate must be carried while operating the snowmobile, and displayed to a law enforcement officer upon demand. A parent, guardian, or person 18 years old or older must accompany any child under age 12 on the same snowmobile when operating on public areas.

Kettle Moraine State Forest – Northern Unit Public Programs

September 2018 – May 2019

Saturday, September 1 — Saturday Morning Secret Finders at the picnic shelters at the Mauthe Lake recreation area and Long Lake recreation area, 10 a.m.-11 a.m. Calling all youth to discover secrets of nature by participating in the Wisconsin Explorers program! The program involves completing a required number of engaging nature activities in one of three age appropriate books (ages 3-5, ages 6-8, and ages 9+) to earn a very cool patch. Get help from a naturalist who will work with youth on activities from one of the first four topic areas of the books.

Saturday, September 1 — Fascinating Fish Drop In at the Beach at the Mauthe Lake recreation area beach, 1 p.m.-4 p.m. How do fish swim? How do they breathe under water? How do they eat? Come find the answers to these questions and much more as we wade through the world of Wisconsin fishes. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.

Saturday, September 1 — Widening of the Universe: Telescope's Influence Summer Saturday Evening Event at the Ice Age Visitor Center, 7:30-8:30 p.m. Today, telescopes bring the night sky into focus providing a way to see what's beyond the Earth. Join presenter Jeff Setzer of the Northern Cross Science Foundation to find out how the invention of the telescope changed the way people viewed their place in the universe and opened a whole new realm of discovery. This program is best for anyone more than eight years old. Sponsored by Friends of the Kettle Moraine

Saturday, September 1 — Summer Star Gazing Summer Saturday Evening Event at the Ice Age Visitor Center, 8:45 p.m.-11 p.m. Look through a telescope or binoculars to bring into focus the wonders of the night sky. With the help of experienced night sky observers, spy distant planets, dumb-bell nebulas, globular clusters, and so much more. The program will be held only if the skies are clear. This program is best for anyone more than eight years old. Drop in any time and stay as long as you like. Sponsored by Friends of the Kettle Moraine. Presenter will be from the Northern Cross Science Foundation.

Sunday, September 2 — Fascinating Fish Drop In at the Beach at the Long Lake recreation area south beach, 12 p.m.-3 p.m. How do fish swim? How do they breathe under water? How do they eat? Come find the answers to these questions and much more as we wade through the world of Wisconsin fishes. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.

Wednesday, September 5 — Ice Age Trekkers meet at the Greenbush Group Camp (located off Kettle Moraine Drive between County Road T and Highway 67 near Greenbush), 7 a.m.-8:30 a.m. Join us for an

invigorating 3.18-mile morning hike along the Ice Age National Scenic Trail between Highway 23 and the Greenbush Group Camp. A shuttle will be available between the starting and finishing spot.

Friday, September 7 — Sensational Seeds Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. From as tiny as a dust fleck to larger than a softball, seeds come in all shapes and sizes. Unearth how seeds help plants to grow and thrive. This hour of nature fun awaits three to six year olds with accompanying adults.

Saturday, September 8 — Ice Age at the Beach Exploring Nature Program at the Mauthe Lake recreation area beach, 10 a.m.-11:30 a.m. The glaciers have returned to Mauthe Lake! Discover how the glaciers created kames, eskers, kettles, and moraines through fun hands-on activities. Be prepared to get a little wet. This program is best for families/groups with children between the ages of six and 12 years.

Wednesday, September 12 — Ice Age Trekkers meet at the Greenbush Group Camp (located off Kettle Moraine Drive between County Road T and Highway 67 near Greenbush), 6 p.m.-7:30 p.m. Join us for a casual 3.18-mile evening hike along the Ice Age National Scenic Trail between Highway 23 and the Greenbush Group Camp. A shuttle will be available between the starting and finishing spot.

Thursday, September 13 — Wild Edible and Poisonous Mushrooms An Evening with Nature Program at the Ice Age Visitor Center, 7 p.m.-8:30 p.m. Many wild mushrooms are edible, others are deadly poisonous, and still others are unique curiosities of the fungus world. Join Dr. Parker as he shares his vast knowledge and beautiful images of Wisconsin fungi. This program is most appropriate for people over the age of 10 years. The presenter will be Alan D. Parker, Ph.D., professor emeritus, from UW-Waukesha.

Saturday, September 15 — Let's Go Nutty! Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-11:30 a.m. Round and smooth, oval and sticky - nuts come in all shapes, sizes and textures. We'll explore the autumn woods for nuts and learn from what trees and shrubs they came. There may be tasty treats to try. This program is best for families/groups with children between the ages of six and 12 years.

Wednesday, September 19 — Ice Age Trail Trekkers meet at the County Road P Ice Age Trail parking lot (located south of Glenbeulah), 7 a.m.-8:30 a.m. Join us for a brisk 3.45-mile morning hike between Highway 23 and County Road P. A shuttle will be available between the starting and finishing spot.

Friday, September 21 — Soaring Hawks Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. High above hawks soar through the sky with a keen eye looking down towards the earth. Come explore the high-flying lives of hawks. This hour of nature

fun awaits three to six year olds with accompanying adults.

Saturday, September 22 — Amazing Forest Mammals Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-11:30 a.m. What do humans have in common with bears, bats, raccoons, and mice? They're all mammals! Uncover what characteristics mammals share and how they are adapted for survival. This program is best for families/groups with children between the ages of six and 12 years.

Wednesday, September 26 — Ice Age Trail Trekkers meet at the County Road P Ice Age Trail Parking Lot (located south of Glenbeulah), 6 p.m.-7:30 p.m. Join us for a lovely 3.45-mile evening hike between Highway 23 and County Road P. A shuttle will be available between the starting and finishing spot.

Saturday, September 29 — Ssssnakes Fall Drop In at the Ice Age Visitor Center, 10 a.m.-2 p.m. Slithering across the ground with their tongues flicking, snakes arouse our curiosity or on occasion our fears. Uncover truly astonishing facts about these legless reptiles and the habitats where they live to gain an appreciation of their role in nature. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.

Friday, October 5 — Night Eyes Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Red, yellow, green, and white eyes: whose eyes do we see at night? Find out what animals' eyes are open while ours are closed. This hour of nature fun awaits three to six year olds with accompanying adults.

Saturday, October 6 — Tree Art Fall Drop In at the Ice Age Visitor Center, 10 a.m.-2 p.m. Celebrate the wonders of the forest by creating tree art. We will be doing leaf printing, nut stamping, leaf rubbings, and more. For leaf printing, bring a T-shirt or bandanna or purchase one that day. Everyone is invited to drop in for a few minutes or more than an hour. Adults are encouraged to participate with their children.

Thursday, October 11 — Secret Lives of Whitetails An Evening with Nature Program at the Ice Age Visitor Center, 7 p.m.-8:30 p.m. Join us as we delve into the life of whitetail deer. We will examine their many intriguing adaptations to gain a better understanding and appreciation as to how they survive so many challenges. This program is most appropriate for people over the age of 10 years old. The presenter will be Jackie Scharfenberg, forest naturalist.

Saturday, October 13 — "Tree"mendous Trees Fall Drop In at the Ice Age Visitor Center, 10 a.m.-2 p.m. Stop in to find out how the "tree"mendous trees touch almost all parts of our lives. Everyone is invited to drop in for a few minutes or more than an hour for some nature fun. Adults are encouraged to participate with their children.

Friday, October 19 — Dam Builders Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Timber!! Another tree crashes to the ground. Nature's dam builders, beavers, are hard at work. Investigate what "equipment" beavers possess to do their jobs so well. This hour of nature fun awaits three to six year olds with accompanying adults.

Friday, October 19 — Halloween Nature Hikes at the Mauthe Lake recreation area beach, 6:30 p.m.-9:30 p.m. Let's go for four on the floor! Stroll the dark autumn woods to meet those animals with four feet on the ground including a swift-footed whitetail deer, an ancient snapping turtle, a secretive spotted salamander, and a quick-digging star-nosed mole. This is not a scary hike and is best for those over five years of age. Groups leave every six minutes. The last hour-long hike leaves at 8:30 pm. While waiting for your hike, enjoy playing fun-filled games, making a craft to take home, or snacking by the glow of a campfire. In the event of severe weather, the event will be canceled for that night.

Saturday, October 20 — Halloween Nature Hikes at the Mauthe Lake recreation area beach, 6:30 p.m.-9:30 p.m. Let's go for four on the floor! Stroll the dark autumn woods to meet those animals with four feet on the ground including a swift-footed whitetail deer, an ancient snapping turtle, a secretive spotted salamander, and a quick-digging star-nosed mole. This is not a scary hike and is best for those over five years of age. Groups leave every six minutes. The last hour-long hike leaves at 8:30 pm. While waiting for your hike, enjoy playing fun-filled games, making a craft to take home, or snacking by the glow of a campfire. In the event of severe weather, the event will be canceled for that night.

Saturday, October 27 — Myth Busters Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-11:30 a.m. Do bats fly into your hair? Can owls turn their heads completely around? Are warts caused by toads? Let's bust these nature myths and more! This program is best for families/groups with children between the ages of six and 12 years.

Kettle Moraine State Forest – Northern Unit Public Programs

September 2018 – May 2019

Friday, November 2 — Hop Away Rabbit Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. A fox is coming! Hop away rabbit, hop away home! We'll explore the world of rabbits to learn how they live in the wild. This hour of nature fun awaits three to six year olds with accompanying adults.

Thursday, November 8 — Gottfried Arboretum's Create a Winter Wreath at the Zillmer Trail Shelter, 1 p.m.-3:30 p.m. or 6 p.m.-8:30 p.m. Using a variety of natural materials, create a beautiful wreath and swag that will enhance your home's winter decor. To register for a session, call (920) 940-8869 (leave a message) or email wiscotmcd@hotmail.com by November 6. Space is limited. This program is best for people over 12 years old. Cost: \$20/person; fee payable to the Gottfried Arboretum.

Saturday, November 10 — CSI - Northern Unit Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-11:30 a.m. Become a nature detective! By examining scat, bones, and other evidence, we will figure out what animals were involved and determine what happened in a variety of nature "crime scenes." This program is best for families/groups with children between the ages of six and 12 years.

Friday, November 16 — Stocking Up for Winter Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. The days are growing shorter and the temperature is dropping. Come learn what some animals stock up to get through the hardships of winter. This hour of nature fun awaits three to six year olds with accompanying adults.

Friday, December 7 — Birds at My Feeder Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Even on the coldest days of winter, a bird feeder can be a flurry of activity. Discover what birds may visit your feeder and what they like to eat. This hour of nature fun awaits three to six year olds with accompanying adults.

Saturday, December 8 — Nature Crafts Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-12 p.m. or 12:30 p.m.-2:30 p.m. Let your creativity flow! Using supplies found in nature, we will create a variety of crafts including flower magnets, nature candles, and evergreen wrapping paper. To ensure plenty of supplies, call (920) 533-8322 by December 7. This program is best for families/groups with children between

the ages of six and 12 years.

Thursday, December 13 — How Small Birds Survive Winter's Weather An Evening with Nature Program at the Ice Age Visitor Center, 7 Ice Age Visitor Center-8:30 p.m. With sub-zero temperatures and howling winds, how do the small birds survive? With Dr. Cooper, uncover their amazing adaptations for surviving winter's harsh weather. This program is most appropriate for people over 10 years old. The presenter will be Sheldon Copper, Ph.D., professor at UW-Oshkosh.

Friday, December 21 — Look! Look Again! Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Sometimes it takes a double look to see an animal standing right in front of us. Uncover how creatures of all kinds use camouflage to survive. This hour of nature fun awaits three to six year olds with accompanying adults.

Friday, December 21 — Winter Solstice Night Hike at the Zillmer Trail shelter, 6:30 p.m.-8 p.m. Gather around the fire as we share traditions of the longest night of the year. We will then travel through the dark woods to find out what animals are awake and braving the cold of a winter night. This program is best for families with children over six years old.

Friday, January 4 — Seasons Go Round Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Winter, spring, summer, fall... Every year the seasons go round and round. Learn about why we have four seasons in Wisconsin. This hour of nature fun awaits three to six year olds with accompanying adults.

Thursday, January 10 — Managing Wildlife in Your Yard Evening with Nature Program at the Ice Age Visitor Center, 7 p.m.-8:30 p.m. About 85 percent of Americans live in an urban environment, and increasingly, wildlife are sharing the same areas with us. Find out ways to create, enhance, and manage wildlife habitat in your yard, neighborhood, and community to attract beneficial wildlife and discourage wildlife that cause problems. Creating habitat in your yard helps native wildlife and plant species, increases your property value, improves human health, and beautifies your surroundings. This program is best for people over the age of 10 years old. The presenter will be David Drake, extension wildlife specialist and professor at UW-Madison.

Saturday, January 12 — Get Outdoors! Learn to Snowshoe at the Ice Age Visitor Center, 10 a.m.-11:45 a.m. or 12:30 p.m.-2:15 p.m. Learn how easy it is to snowshoe and then get outside to enjoy the wonders of our beautiful snow-covered forest. Snowshoes provided for those who do not have any. This program is best for people older than eight years. To register, call (920) 533-8322 by January 10.

Friday, January 18 — Whoo's Awake? Owls! Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Listen! Whoo, whoo, who, who, who! The owls are awake while we sleep. Discover remarkable facts about these nighttime hunters. This hour of nature fun awaits three to six year olds with accompanying adults.

Saturday, January 19 — Get Outdoors! Learn to Ice Fish at the Mauthe Lake recreation area picnic shelter, 10 a.m.-12 p.m. Learn the tricks of winter fishing with experienced ice anglers. We will start inside the Mauthe Lake picnic shelter for a presentation on safety tips and appropriate gear and tackle. Then it's off to Mauthe Lake to try our best at luring those fish out of the water. Equipment, tackle, and bait will be provided. This program is best for people over six years old. Special surprises await all who pre-register. To register, call (920) 533-8322 by January 18. No fishing licenses required, since it is Free Fishing Weekend.

Saturday, January 26 — Get Outdoors! Learn to Cross-country Ski at the Zillmer trail area, 9 a.m.-12 p.m. Dust off those cross-country skis and head to Zillmer to gain the skills to make cross-country skiing fun and safe. This program is best for people older than 10 years. Arrangements for ski rentals will be made for those who need skis. Trail passes waived for workshop participants, but State Park System vehicle admission stickers still required. To register, call 920-533-8322 by January 24.

Friday, February 1 — Wake Up Groundhog! Nature Storytime at the Ice Age Visitor Center, 9:30-10:30 a.m. Learn if groundhogs can really predict the coming of spring and other tidbits about their lives. This hour of nature fun awaits three to six year olds with accompanying adults.

Kettle Moraine State Forest – Northern Unit Public Programs September 2018 – May 2019

Saturday, February 2 — Candlelight Ski/Hike at the Zillmer Trail Area, 5:30 p.m.-8:30 p.m. Cross-country ski or hike in the Kettle Moraine State Forest-Northern Unit by candlelight. At the bonfire join fellow hikers and skiers for hot drinks and snacks provided by the Friends of the Kettle Moraine. The trail is perfect for novice skiers with no steep hills or sharp turns. The Zillmer shelter building will be open, lit, and heated. Sponsored by the Friends of the Kettle Moraine.

Saturday, February 2 — Winter Star Gazing at the Ice Age Visitor Center, 5:30 p.m.-8:30 p.m. Look through a telescope or binoculars to bring into focus the wonders of the night sky. With the help of knowledgeable night sky observers from the Northern Cross Science Foundation, spy distant planets, dumb-bell nebulas, globular clusters, and so much more. The program will be held only if the skies are clear. This program is best for anyone more than 8 years old. Drop in any time and stay as long as you like. Sponsored by the Friends of the Kettle Moraine.

Saturday, February 9 — Stories in the Snow: Tracking Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-11:30 a.m. By just looking at a track, we can figure out what animal passed through the area. Master some of the tricks of tracking animals in winter and figure out the stories of their snowy adventures. This program is best for families/groups with children between the ages of six and 12 years.

Thursday, February 14 — Lightning, Thunder, Hail and Tornadoes: Why We Have Severe Weather Evening with Nature Program at the Ice Age Visitor Center, 7 p.m.-8:30 p.m. Lightning, thunder, hail, tornadoes oh my! Join Dr. Brey as he explains the reasons why we experience severe weather and provides tips on how to stay safe when it strikes. Arrive at 6:30 p.m. to enjoy hot beverages and Valentine treats before the presentation. This program is most appropriate for people over the age of 10 years old. The presenter will be James A. Brey, Ph.D., senior science consultant, American Meteorological Society education program.

Friday, February 15 — Whose Tracks are These? Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Come explore with us the woods and fields

for animal tracks. We'll even figure out a few tricks to determine whose tracks they are. This hour of nature fun awaits three to six year olds with accompanying adults.

Tuesday, February 19 — Full Moon Walk at the forest headquarters, 6 p.m.-7:30 p.m. Traverse the two-mile trail around Mauthe Lake under the light of a full moon. Dress for the weather including snow boots. This walk is best for people over the age of eight years old.

Friday, March 1 — Loud-mouth Jays Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Screech! Chatter, chatter! The blue jays announce their presence to the world. Help us to decipher what the jays are trying to say. This hour of nature fun awaits three to six year olds with accompanying adults.

Saturday, March 9 — Bugling Cranes Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-11:30 a.m. With loud bugling calls, sandhill cranes announce their arrival back to Wisconsin in late winter. Discover many fascinating facts about these large ancient birds. This program is best for people over the age of eight years old.

Thursday, March 14 — Aerial Insectivores of Wisconsin Evening with Nature Program at the Ice Age Visitor Center, 7 p.m.-8:30 p.m. Mueller will provide a view into the world of "aerial insectivores," the birds that capture their insect prey in flight, by exploring their ecology, population changes, and conservation. This group of birds is experiencing major population declines. He'll discuss the factors involved, and how citizens can respond. This program is most appropriate for people over the age of 10 years old. The presenter will be William Mueller, director, Western Great Lakes Bird and Bat Observatory.

Friday, March 15 — Rat-a-tat-tat, Who's There? Woodpeckers Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Why do woodpeckers peck trees? What are they looking for? We'll find out the answers to these questions and a lot more about woodpeckers. This hour of nature fun awaits three to six year olds with accompanying adults.

Friday, April 5 — April Showers Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. Drip, drop, pitter-pat. April showers fall to the ground. We'll find out just how these rains help awaken the spring flowers. This hour of nature fun awaits three to six year

olds with accompanying adults.

Thursday, April 11 — Solving the Mysteries of Hibernation Evening with Nature Program at the Ice Age Visitor Center, 7 p.m.-8:30 p.m. Many animals just spent the winter hibernating to avoid the season's hardships. Join Dr. Carey as she explains the mysteries of hibernation and the new discoveries made by scientists. She will share how these findings may benefit humans. This program is most appropriate for people over the age of 10 years old. The presenter will be Hannah V. Carey, Ph.D., professor of comparative biosciences and director of Biotron Laboratory at UW-Madison.

Saturday, April 13 — Upscaled Art Exploring Nature Program at the Ice Age Visitor Center, 10 a.m.-12 p.m. Don't throw that away! It can be turned into a work of art! Come create inner tube rubber stamps, paper bead necklaces, and other unique projects from throw away materials. This program is best for families/groups with children between the ages of six and 12 years. To register, call (920) 533-8322 by April 12.

Friday, April 19 — Shhhh! Listen Nature Storytime at the Ice Age Visitor Center, 9:30 a.m.-10:30 a.m. It's amazing what we can discover when we are quiet and listen. Join us for a listening walk through the fields and forest. This hour of nature fun awaits three to six year olds with accompanying adults.

Friday, April 26 — Spring Symphony Night Hike at the Zillmer Trail Area, 7:30 p.m.-9 p.m. Nature awakens from its long winter slumber with a symphony of sound. Journey through the darkening spring woods to locate the members of the spring choir. This hike is most appropriate for adults and children over the age of six years.

Saturday, April 27 — Earth Week Litter Pick Up at Kettle Moraine Scenic Drive (meet at the forest headquarters off County Road G south of County Road SS near New Prospect), 8:30 a.m.-12 p.m. Help give the Kettle Moraine Scenic Drive and other forest locations a spring cleaning. Join others for a morning of camaraderie and litter pick up. Youth and other groups are encouraged to participate. Bring your own gloves. Garbage bags will be provided. Meet at the Forest Headquarters off County Road G to get your road assignment. After cleaning up, return to the Headquarters for snacks and refreshments. To register groups, call (262) 626-2116. Sponsored by the Friends of the Kettle Moraine.

Friends Of The Kettle Moraine

The Friends of the Kettle Moraine is a non-profit organization committed to promoting conservation, recreation, and education within the Kettle Moraine State Forest-Northern Unit.

The group was created in the mid 1980s to inform and educate the public. The general goal was to develop a greater appreciation and environmental awareness of Wisconsin natural resources. Specific goals were to enlist public involvement in the activities and future direction of the Forest and to provide financial assistance directly to the Kettle Moraine State Forest – Northern Unit for new programs and activities.

The first meeting of the Friends group, held in July 1984 at the Ice Age Center, was hosted by William Moorman of the DNR Bureau of Parks and Recreation. Local press releases resulted in a large turnout of local citizens who were very receptive to the idea of starting a Friends group. The group elected Gus Christ, Byron Gessner, Jerry Ninnemann, William Stoffel, Irene O’Laughlin, Jerry Schanen, and John Zillmer as

board members.

The Northern Unit of the Kettle Moraine State Forest is located 45 minutes north of Milwaukee. The group’s mission is to aid in the understanding of the human and natural history of the forest, so that visitors can enjoy and appreciate the heritage of the Kettle Moraine area.

The specific goals of the organization today include:

- To publicize the unique recreational and educational experiences that are available in the Northern Unit.

- To develop a public appreciation for the Northern Unit and its resources.

- To recruit public involvement in the activities and future direction of the Northern Unit.

- To provide financial assistance for educational programs and other forest projects.

The Friends of the Kettle Moraine has more than 100 individual members and around 10 business members. They are always welcoming new memberships.

The group holds three or four meetings a year and a large year-end informational meeting that

includes a meal. Representatives from the DNR are also in attendance at the year-end meeting. The group, along with the DNR, discuss any upcoming projects for the next year.

The Friends have volunteers called trail watchers, who walk the many trails and relate any concerns or trouble spots back to the DNR. These trail watchers are a valuable resource for the DNR.

The Friends of the Kettle Moraine hold an Invasive Species Day each year in cooperation with the DNR to eradicate invasive plants within the state forest.

Visitors can explore 30,000 acres of rolling hills, lakes, forests, grasslands, and parks. There are many trails open all year round for your enjoyment. A great place to start your outdoor adventure is at the Henry S. Reuss Ice Age Visitor Center. You may purchase a state park sticker and park merchandise from the center’s gift shop. Your purchase helps support the Friends of the Kettle Moraine Forest. The forest hosts approximately one million visitors a year.

Some of the accom-

plishments that the Friends are very proud of include the signs at Mauthe Lake State Park, a shelter near the Greenbush Trail, a shelter in the New Fane Loop system and playground equipment at the Mauthe Lake State Park.

The Friends of the Kettle Moraine provide a variety of events in the Northern Unit. Many of these events are held at the Ice Age Center. They sponsor a yearly Candlelight Ski in February and Earth Week Litter cleanup in April. They also provide a Halloween Hike in October at Long Lake. This is an educational hike for young children.

The Friends have also funded a number of development efforts in the forest including prairie plantings, playground equipment, invasive species control, construction of trail shelters and maintenance buildings, natural landscaping, interpretive signage, and the purchase of educational equipment, along with a number of others. Some of the more recent additions were the Lake 2 Lake Trail between Mauthe and Long Lakes and the new shelter at the

This area youth was all smiles while he was ice fishing on Mauthe Lake last year. He was participating in a Learn to Ice Fish program put on by the Department of Natural Resources.

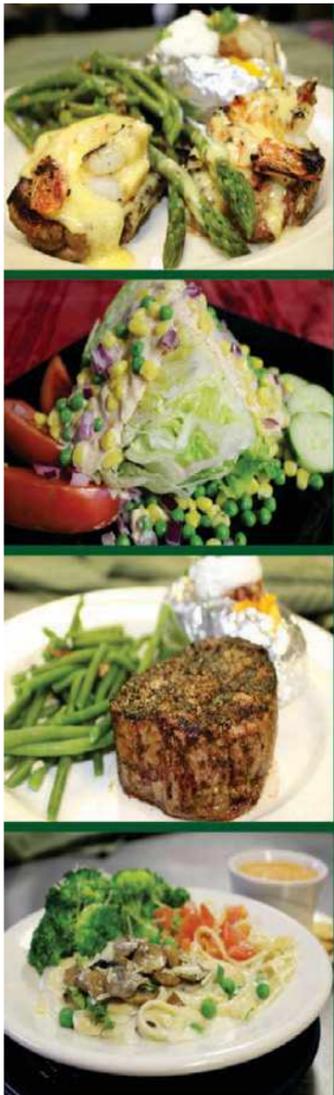

photo by Andrea Hansen Abler

Zillmer Trail area.

The Friends are continuing with many improvements in and around the Ice Age Center. They also have a Land Fund set up. This fund will help with the purchase of more private land in the Kettle Moraine Forest when the land becomes available.

You can find more information about the Friends by going to their

webstie at <http://friend-skmmnu.blogspot.com/>. Applications for membership are also available at the Ice Age Center. Anyone can become a member. Your help with all of their special activities in the forest such as cross-country ski outings, hikes, seminars and many other activities is very important to the forest and to the Friends.

Holiday Happenings Around The Kettle Moraine

The holidays are always a great time of the year and this is no different around the Kettle Moraine State Forest and surrounding communities. Lots of fun activities can be found.

HALLOWEEN

Halloween Nature Hikes — The fun starts in October with Halloween. The state forest hosts a Halloween Nature Hike. This is a fun and educational hike around the Mauthe Lake Campground that teaches you a lot about the forest and the history of the forest.

This year, the event will be held on Friday, Oct. 19, and Saturday, Oct. 20, from 6:30 p.m.-9:30 p.m. Just go to the Mauthe Lake recreation area and follow the signs to the start of the nature hike. It is great fun for the whole family.

Halloween Caper — The Campbellsport Area Chamber of Commerce hosts a fun Halloween event every year for kids from the area. The Halloween Caper will be

held on Friday, Oct. 26, from 5 p.m.-9 p.m. It will be held at Campbellsport Elementary School.

The Caper has many activities for the kids to enjoy including hay rides, games, food, entertainment, a haunted hallway and a costume contest. For more information on the event, go to www.campbellsportchamber.org or the Campbellsport Chamber's Facebook page.

Trick or Treat — Every community in the area will have Trick or Treating for the kids at Halloween. Many in the area will be held on Sunday, Oct. 28, but you will need to double-check with each municipality to confirm the correct day and time.

CHRISTMAS

West Bend Christmas Parade — The City of West Bend hosts its Christmas parade on Sunday, Nov. 25, at 5 p.m. Enjoy the second oldest Christmas Parade in Wisconsin as it winds its way from Regner

Park through historic Downtown West Bend to Badger Middle School. A West Bend tradition, for more information please visit www.westbendchristmasparade.com

Kewaskum Holiday Parade — The Village of Kewaskum hosts a Christmas parade every year. The event will take place on Sunday, Dec. 2, at 5 p.m.

It will have many floats, music and treats for the kids. The parade culminates in the lighting ceremony for the village Christmas tree.

Campbellsport Christmas Celebration

— Campbellsport area organizations work together to host the Campbellsport Christmas Celebration every year for area youngsters. The event will be held on Saturday, Dec. 8, from 10 a.m.-12 p.m. with many of the events being held at the Campbellsport Public Library.

The event kicks off with a Santa Parade hosted by the Lions Club. Kids meet Santa and Mrs. Claus at 9:30

a.m. They walk to Santa's Workshop, which runs from 10 a.m.-12 p.m. This event includes crafts, face painting, visits with Santa and Mrs. Claus, musical entertainment and much more.

Check the Campbellsport Chamber and Campbellsport Public Library Facebook pages closer to the event date to find out more information.

Dundee Mill & Park Love Light Tree

— The Dundee Mill & Park hosts a Love Light Ceremony every year. This year's event will be on Saturday, Dec. 8. The mill will open at 3 p.m., with the tree lighting ceremony at 4 p.m.

Before the event, you can purchase "Love Lights" in memory or honor of a loved one, yourself, or victim of our country's turmoil. These lights will be lit throughout the holiday season outside of the mill.

Tours will be given during the event. All proceeds raised at this and the many other events throughout the year will go towards painting the Mill in the next year.

Breakfast with Santa

— A Breakfast with Santa is held every year in the Village of Eden. It will be held this year on Saturday, Dec. 15.

Kids can meet Santa at the Helena Feed Mill, corner of Highways 45 and B, at 8:30 a.m. and walk with him to the Eden Fire Station. At the station, the entire family can enjoy breakfast and the children can talk to Santa and have their picture taken with him.

ST. PATRICK'S DAY

St. Patrick's Day Parade — Dundee hosts a huge event every year for St. Patrick's Day. The parade is usually held

This area youngster was having fun painting a pumpkin at the annual Halloween Caper in Campbellsport last year. The event will be held on Friday, Oct. 26, from 5 p.m.-9 p.m. at Campbellsport Elementary School this year.

photo by Andrea Hansen Abler

on the Sunday before St. Patrick's Day at high noon. In 2018, St. Patrick's Day will be on Sunday, March 17. As it gets closer to March, check with any of the businesses in Dundee to find out the date of the parade and more information about the event.

It is considered the smallest parade in Fond du Lac County, but hosts a huge group of spectators for the small parade. Thousands of people line Highway 67 in Dundee for all the fun of the parade and then stick around after for the lunch and other specials hosted by the area establishments.

EASTER

Dundee Mill & Park Easter Egg Hunt — Every year on the Saturday before Easter, the

Dundee Mill & Park hosts an Easter Egg Hunt on its grounds. In 2019, it will be held on Saturday, April 20, at 1 p.m.

Children can come out to the Mill and look throughout the park for hidden eggs.

Campbellsport Easter Bag Hunt

— The Campbellsport Area Chamber of Commerce hosts an Easter Bag hunt every year on the Saturday before Easter. This year it will be held on Saturday, April 20, at 1 p.m.

Children of all ages can meet in the National Exchange Bank parking lot. They will receive an egg with a number on it and then will walk around to the businesses in town to find the one who has his/her bag of goodies.

Visit The Kettle Moraine Northern Unit

The Kettle Moraine State Forest – Northern Unit owes its unique landscape to glaciers of the Wisconsin Stage of the last Ice Age, which ended approximately 10,000 years ago.

During the Wisconsin Stage, several lobes of glacial ice moved into what is present day Wisconsin. The two largest lobes were in eastern Wisconsin, one coming down Green Bay and the other following the Lake Michigan basin. These two lobes side-swiped and collided with each other, and debris was deposited between them.

When the glaciers melted back, a jumbled ridge of hills was left behind, an interlobate moraine. This is known today as the hills of the Kettle Moraine, which runs for about 120 miles from Manitowoc County down into Walworth County. (This interlobate moraine is one of the few land features that can be seen from space.) In addition to the interlobate moraine, the glaciers also left behind various other landforms including kames, eskers, crevasse fills, kettles and erratics.

In the 1920's there

were horrific floods in the city of Milwaukee and the city's population was rapidly growing. A group of foresighted people thought that if they could protect the headwaters of the Milwaukee River, this would help reduce the flooding in Milwaukee. They also wanted to provide a large tract of public land for Milwaukee's growing population.

After almost a decade, legislation along with funding became available for the creation of the Kettle Moraine State Forest. In 1936, the Conservation Congress (predecessor to the Department of Natural Resources) acquired 850 acres around Moon Lake (now Mauthe Lake) from the Milwaukee Chapter of the Izaak Walton League. This marked the start of the Northern Unit. Today, the Northern Unit encompasses nearly 30,000 acres within its 36,000 project boundary.

In the 1950s a lawyer from Milwaukee, Ray Zillmer, began a campaign to bring his dream of a National Park protecting the glacial features of Wisconsin to life. With the help of his

friends, Congressman Henry S. Reuss and Senator Gaylord Nelson, his dream came to fruition with the creation of the Ice Age National Scientific Reserve and the Ice Age National Scenic Trail. On a sad note, Ray Zillmer died before he could see the creation of the reserve and the Ice Age Trail.

A 1964 Act of Congress established the Ice Age National Scientific Reserve to "assure protection, preservation, and interpretation of the nationally significant values of Wisconsin continental glaciation... and other reminders of the ice age." The reserve consists of nine units scattered throughout the state and the northern 20,000 of the Northern Unit is one of those reserves. Each reserve site protects a unique glacial feature. The Northern Unit contains some of the finest features of continental glaciation in the state and the world including the interlobate moraine, kame fields, eskers, dry and wet kettles and crevasse fills.

In 1980 the Ice Age Trail was designated as a National Scenic Trail and later as a State Scenic

Trail. The trail follows the southern extent of the last glaciers in the state of Wisconsin and is the only National Scenic Trail that is found entirely in only one state. Today about sixty percent of the 1000 mile trail is now complete. The nucleus of the Ice Age National Scenic Trail was the 30-mile "Glacial Trail" that ran through the Northern Unit from north to south.

The Northern Unit's glacial features set the ground work for wide diversity of biological communities and the geographical position of the forest adds to this diversity. The Northern Unit is situated along the "tension zone" which runs in a diagonal path from near Eau Claire to northern Milwaukee. The tension zone marks where the northern forest meets the southern and eastern forest, and the prairies and oak savannahs of the south and west.

A person traveling through the area will encounter such natural communities as northern red oak forests, eastern hardwoods with beech trees, cedar swamps, flood plain forests, kettle wetlands, remnant

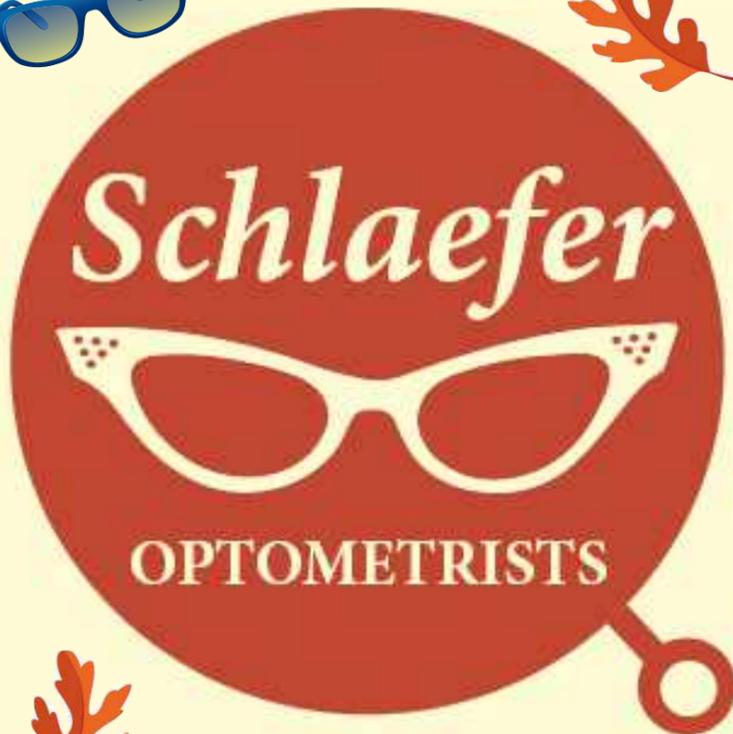

prairies and northern bogs. The Northern Unit also supports one of the largest intact forests in southeast Wisconsin. This wide array of communities leads to rich diversity of plant and animal life including many threatened and endangered species and species of special concern. Twelve areas within the forest have been set aside as State Natural Areas protecting ten biological communities that were not or slightly disturbed by European settlement and two outstanding geological landmarks.

Today, it takes a team of managers and forest staff to manage all the resources found in the Northern Unit from

forestry to fisheries, wildlife, endangered resources and water resources. But, the number one management goal is providing outdoor recreational opportunities with minimal conflicts for the nearly one million annual visitors to the forest. People come to the Northern Unit to participate in a plethora of outdoor pursuits including hiking, hunting, camping, picnicking, swimming, horseback riding, snowmobiling, snowshoeing, cross-country skiing, fishing (year-round), canoeing, boating, geocaching, backpacking, wildlife observing, off-road biking, dog training, spirit renewing, and learning.

Snowmobile Trails In The Kettle Moraine Area

The state forest has a 60-mile network of snowmobile trails which join to county and private trails connecting to adjoining towns and villages. Trails are groomed by four local snowmobile clubs under contract with the state forest. These snowmobile clubs are Crooked Trails, Greenbush Trail Blazers, Kewaskum Sno Chiefs, and New Fane Kettle Riders.

See the current conditions page on the Northern Kettle Moraine State Forest's portion of the Department of Natural Resources website to check trail conditions and to make sure trails are open. You can also check any of the websites for the Fond du Lac County, Sheboygan County or Washington County Snowmobile Associations.

Note: Any person who is born on or after January 1, 1985, and who has reached the age of 12, must have completed and received a snowmobile safety certificate in order to operate a snowmobile in Wisconsin. The certificate must be carried while operating the snowmobile, and displayed to a law enforcement officer upon demand. A parent, guardian, or person 18

years old or older must accompany any child under age 12 on the same snowmobile when operating on public areas.

Fond du Lac County's snowmobile trail system consists of approximately 297.3 miles of groomed snowmobile trails on privately owned land. Of this 297.3 miles approximately 50 miles is located on abandon railroad corridors. These state-funded trails crisscross Fond du Lac County establishing a network of snowmobile trails for users to enjoy.

For updates on local snow conditions check the Fond du Lac County Snowmobile Association website at fdlsnowmobile-assn.com or call (920)929-6840.

Washington County has 186 miles of snowmobile trails. For more information on Washington County snowmobile trails and trail conditions, check out the Washington County Snowmobile Association's website at www.wcasc.org.

Snowmobile trail maps are available at local businesses. Ride safely!

The Eisenbahn Trail is a main trail to ride in Washington and Fond du Lac Counties. Rules for the Eisenbahn Trail in-

clude:

- Speed limits for ATV and snowmobiles in the Village of Kewaskum is 10 miles per hour.

- ATVs are limited to 25 miles per hour on other portions of the trail.

- ATVs are limited to and must stay on the straight 16-foot wide groomed trail They must not trespass on any snowmobile trail, farm access road or road crossing leaving the trail. No entry is allowed other than at Lighthouse Lanes or the Kewaskum BP Station.

- All users must display valid state stickers.

- All state ATV and snowmobile laws apply.

- All town ordinances apply. The Village of Kewaskum excludes ATV use from 2 a.m.-6 a.m.

- All county park rules apply except for hours of operation.

Sheboygan County also has a lot of trails throughout the county and joining the Kettle Moraine State Forest. You can find out more information by going to www.nkmsnow.com.

This website will give you a list and contact information for the local clubs. You can also find a map on this website.

Protect The Trees Where You Live, Work And Play!

The Threat

Your campfire wood could be hiding insects or diseases that can kill Wisconsin's trees. Gypsy moth, emerald ash borer, oak wilt and others spread easily when hidden in firewood.

Your Role

"Campers value the places where they camp, so it makes sense that more and more, they are doing the right thing. Instead of bringing their own firewood from home, they are getting it at or near their camping destination, or buying certified firewood," said Andrea Diss-Torrance, forest pest expert with the Wisconsin Department of Natural Resources. "That is good, healthy news for Wisconsin's forests."

Nurseries, loggers, mills and other industries are doing their part — they are strictly regulated when forests are threatened. Firewood is more difficult to keep track of, so it is the last easy ride for invasive hitch-hikers — unless you do your part too. It is safest and easiest to leave firewood at home, purchase wood at your destination, or purchase only wood certified by the Wisconsin Department of Agriculture, which has been specially treated to kill hitch-hiking tree pests and diseases.

Firewood movement onto all DNR-managed lands is restricted. Soon, all firewood for sale at the property will either be Wisconsin certified or from the property itself. All non-Wisconsin certified firewood brought into a Wisconsin state park or forest must be:

- 1) cut within 25 miles of the state park or forest campground, AND
- 2) cut within the boundaries of the State of Wisconsin, AND
- 3) NOT cut or stored in a pest quarantined area (unless the property is also in the same or a connected quarantined area). Visit dnr.wi.gov and search the keyword "firewood" for details

In Wisconsin, you may not move firewood from a quarantined area to a non-quarantined area unless it is Wisconsin certified. Enforcement can include fines and jail time. Quarantine maps are online at: <http://emeraldashborer.wi.gov> and <http://gypsymoth.wi.gov>.

What You Can Do

In Wisconsin, campers can take simple steps to help protect the state's healthy forests. These tips and more helpful information are online at dnr.wi.gov. Search "firewood":

- Leave firewood at home. Purchase firewood certified by the Wisconsin Department of Agriculture

or within 25 miles of your campsite. Also, many properties offer firewood for sale, or private sellers have it available near the park.

- Burn your firewood at your campsite; do not take it with you to another destination.

- Cook over gas or charcoal. Instead of a campfire, explore new night-time activities like star-gazing.

- Stay updated and follow firewood rules and restrictions.

Campfires are an important part of the outdoor experience in Wisconsin, but we must all take a few precautions to keep our forested areas and campgrounds — and our city parks and yards — safe from invasive insects and diseases.

Campers will find reasonably-priced firewood within or nearby all state parks and forests. Wood from unapproved sources may be confiscated and destroyed.

"We are counting on campers," said Jerry Leitnerman, forest superintendent, "to help us protect the quality of our forest by complying with the rules. Firewood is available at the Mauthe Lake and Long Lake Recreation Areas entrance stations. Ask a ranger or campground host about firewood rules, or visit online at dnr.wi.gov, keyword "firewood."

Firewood Basics

Snowmobiling is a popular activity in and around the Kettle Moraine State Forest. Hundreds of miles of trails can be found in the forest and in the counties around the forest. Check websites of the area or county snowmobile associations for copies of their trail maps.

Campgrounds In The Kettle Moraine

Benson's Century Camping Resort, Inc.

250 sites with water and electric, separate tenting areas, seasonal sites, and overnight sites. Services offered include limited groceries, L.P. gas, two dump stations, two shower buildings, wood for sale.

For recreation, the grounds offer a swimming beach, two playgrounds, horseshoe pits, volleyball court, recreation hall, game room, lake boat launch, and fishing. Boats and canoes available to rent.

For more information, go to their website at bensonscampground.com or call 920-533-8597 or 920-533-8150. N3845 State Road 67, Campbellsport.

Mr. Ed's Campground

Over 1,000 feet of lake frontage. Offers 100 seasonal-only sites on three levels with full hookups including 30- and 50-amp electric, water, sewer, limited accessibility for people with disabilities, call for specifics.

These scenic campgrounds offer Timberlake Lodge Bar and Restaurant, a swimming beach, horseshoes, basketball, nature trails, boat launch, fishing, camper get-togethers, private docking and launching for campers only.

Call to reserve the beautiful cabin on the lake. For more information, go to their website at www.mredscampground.com or call 920-533-4342. N3554 Highway 67, Campbellsport.

Hoef's Resort and Campground

135 seasonal sites and 70 campsites with four different grassy and wooded areas including lakefront sites and the most popular and unique sites on a peninsula. Some sites with water and electric (20-, 30- and 50-amp service); some tent sites with no electric hook-up. There are 135 seasonal sites.

On-site services include WI-FI hotspot, laundry facilities, firewood for sale, snack bar, bar, camp store with limited groceries, credit card accepted. There is a swimming beach, playground area, horseshoes, basketball, recreation hall, trails, lake boat launch, and

fishing bait. Rental items include six housekeeping cottages (some on waterfront), boats, paddle boats and canoes.

Call 262-626-2221 for reservations or go to www.hoefresort.com for more information. W9070 Crooked Lake Drive, Cascade.

Breezy Hill Campground

Breezy Hill offers 85 sites, 15 with full hookups (30/50 amp), 70 with water and electric (30/50 amp), 35 pull throughs, separate tenting areas, and eight cabins. Amenities include heated pool, hot tub, general store, pavillion and arcade, basketball, tetherball, volleyball, playground, two jumping pillows, weekend movies, wagon rides, themed weekends, catch and release fishing pond, extra clean shower facilities, full hook-ups and campsite-wide WIFI.

Breezy Hill Campground is a family oriented campground near Eden. New owners, Jon and Jennifer Wiltzius, offer fun activities for campers of all ages.

For rent, there are eight camping cabins, one rental unit, bikes and paddle boats.

Breezy Hill also offers a full-service overnight horse boarding facility. Hay, water, large stalls, pasture and paddocks are available.

Call 920-477-2300 or visit www.breezyhillcamp.com for more information. N4177 Ceans Lane, (off County Road B in Eden) Fond du Lac.

Mauthe Lake Campground

The campgrounds at Mauthe Lake have 135 sites, including 51 electrical sites. There is one shower building with flush toilets and several vault toilets. Campsites accessible to people with disabilities are available.

The beach area features playground equipment and concessions available for food, camping supplies, and watercraft rental. A private concessionaire provides firewood when the entrance station is open. A sanitary dump station and recycling/garbage station are provided for registered campers.

An authentic Native American plains tepee is available for rent. Enjoy

the unique opportunity to camp in a canvas reproduction of a Native American plains teepee from mid-May through September. The teepee is 16 feet in diameter and supported by 25-foot-long wooden lodge poles. Four cots are provided. If you have more than four members in your camping party, there is room on the site to accommodate an additional tent if desired.

Special tepee camping rules apply at the Kettle Moraine Northern Unit. No smoking, fuels, flames or equipment such as stoves, gas lanterns, heaters or candles are allowed inside of the tepee. Pets are not allowed. Do not spray insect repellent inside or near the tepee. This is a non-electric "tent only" site. No wheeled campers are permitted.

Mauthe Lake is open for camping year round. For more information call (262)626-4305.

Reservations are recommended from mid-May through September. Reservations may be made up to 11 months in advance either online or by calling toll-free (888) 947-2757, TTY (800) 274-7275. N1490 County Rd GGG, Campbellsport.

Long Lake Campground

The campgrounds at Long Lake provide 200 sites, flush and vault toilets, and showers. A private concessionaire provides firewood when the entrance station is open. Campsites are available for campers with disabilities. A sanitary dump station and recycling/garbage station are provided for registered campers.

Long Lake Campground is open for camping the first weekend in May through mid-October.

For more information call 920-533-8612.

Reservations may be made up to 11 months in advance either online or by calling toll-free 888-947-2757, TTY 800-274-7275. N3450 Division Rd, Cascade.

Greenbush Group Campground

The Greenbush Group Campground offers nine outdoor sites which accommodate groups up to 40 individuals. Only tent

camping is allowed on the actual campsite. Sites are near the Greenbush Trails, where campers can enjoy hiking or off-road biking.

An enclosed shelter building, drinking water, and vault toilets are available nearby.

Reservations are required and can be made up to 11 months in advance either online or by calling toll-free 888-947-2757, TTY 800-274-7275. Discounted camping rates are available for resident chartered non-profit youth groups.

Greenbush group campground is open for camping April through November. N5854 Kettle Moraine Dr., Glenbeulah.

Backpack Shelters

Five backpack shelters are available year-round for rustic camping along the 31 miles of the Ice Age National Scenic Trail. One backpack shelter is available from April 1 through November at the Zillmer Trail area.

Each site offers a roofed trail shelter, fire ring, and pit toilet. Drinking water is available less than a mile from each site.

These sites are not accessible by vehicle. All camping equipment must be backpacked in and all refuse packed out. A camping permit is required and you must camp at a designated shelter campsite.

One reservation (camping party) is allowed per site per night. Reservations are limited to 10 persons per site and are limited to one night per site. Another site may be reserved for a second night and a third night at a third site.

To reserve a backpack site, call Reserve America at (888) 947-2757, TTY (800) 274-7275. Shelters cannot be reserved online.

If you do not have a reservation, you must stop in at either the Forest Headquarters, Ice Age Visitor Center or Mauthe/Long Lake entrance stations (when open) to obtain a camping permit. Site availability is limited for spring and fall weekends and reservations are recommended. A reservation is required for stays longer than two nights along the trail.

If all the backpack sites are reserved for a weekend night on your hiking trip, consider staying one night at the Mauthe Lake campground.

New Prospect Horse Riders Campground

The New Prospect Horse Riders Campground has 22 family campsites with 20/30/50 amp electric service and three group sites. Campers must be accompanied by a horse to stay at the campground.

In the family camping area, each site has a picnic table, fire ring and a 30-by-30-foot graveled area with picket posts and/or pipe corrals where horses are to be kept. The camp area has one drinking water source, an open air picnic shelter, vault toilet, covered stable with 24 box stalls and manure pits.

In the group camp area, each site has a drinking water source, fire ring, four picnic tables and a manure pit. Group sites A and C each have nine, 10-by-10-foot metal pipe corrals. Group Site B has two tether post areas and 12 pipe corrals. The group camp has a vault toilet. No more than 20 people may occupy a group site.

Campers are responsible to place all hay and manure in the manure pits which are located throughout the campground; wheel barrows and forks are provided. Horses are to be kept in designated areas to protect the green space of the campground.

The campground is centrally located in the state forest and provides easy access to the 33-mile bridge trail which traverses the length of the forest. There also are two loop trails, the 2.5-mile Crooked Lake Loop and the four-mile Forest Lake Loop. All horse riders 16 years and older must have a state trail pass while using the designated bridge trails in the state forest.

The campground opens the first weekend in May and closes the last weekend in October.

For more information call 262-626-2116. N1765 Highway G, Campbellsport.

Lake Lenwood Beach and Campground

130 total sites, 130 water/electric hookups, 10 pull throughs, dump station, pay showers, off-site storage, credit cards accepted.

Recreation, swimming beach, playground, fishing, kiddie beach with slide.

7053 Lenwood Dr, West Bend, 262-334-1335, www.lakelenwood.com.

Lazy Days Campground

79 acres for summer fun and recreation, 313 extra large sites in 3 different grassy or wooded areas.

Spring fed lake for great swimming and GREAT fishing - Bass, Northern, Crappie and Perch waiting to be lured onto your hook.

Live bait and tackle available. Amenities include, grocery store, beach, volleyball, park area, arcade, mini golf, firewood, ice, lp gas, bike rental, laundromat, shower building, boat rentals and trailer rentals. We are a pet friendly campground!

1475 Lakeview Road West Bend, 262-675-6511 or email lzd@charter.net.

Timber Trail Campground

Timber Trail contains spacious campsites providing unusual privacy beneath a canopy of maple and beechwood trees. We are geared toward family camping with an emphasis on fun, 120 acres of fun. Our picturesque hiking trails are included as part of the Kettle Moraine Ice Age Trail.

Amenities, whirlpool and heated swimming pool, recreation building with a fireplace, snack bar and ice, hot showers, bottled gas, playground, dumping station, firewood for sale, laundry and groceries, big screen tv and video games, ping pong and pool tables, basketball and tennis courts, ball field and sand volleyball, hiking and fishing, and horseshoes.

Dundee Mill And Park

An interesting site to see while visiting the Kettle Moraine State Forests-Northern Unit is the Dundee Mill & Park. It is located in Dundee, near Highway 67 just down the road from the Ice Age Visitor Center.

The Dundee Mill & Park is owned by the Town of Osceola. Restoration of the old mill began in 1990 when a group of volunteers had the goal of restoring an old mill. Their aim was to preserve a part of Wisconsin's heritage for future generations so they may learn about a time when life was without modern technology.

In 1996 the mill was declared a Town Historical Site and the Partners

of the Dundee Mill and Park, Inc. was created by the town as non-profit, non-stock, tax exempt, corporation to maintain, restore, and preserve Dundee Mill and Park.

A group of volunteers had the goal of restoring an old mill, which was declared a Town Historical Site. Their aim was to preserve a part of Wisconsin's heritage for future generations so they may learn about a time when life was without modern technology.

They have restored the turbine that was in the mill and by using the water in Long Lake (a renewable resource) they produce electricity and pump it into the lines for Alliant Energy. This is a

clean method of producing electricity as well as a great lesson for groups who tour the Mill.

The inside of the Mill is somewhat of a museum. Old artifacts hang from the beams and adorn the walls. An old "pot belly stove" provides warmth for the building. Those involved with the mill are also able to demonstrate the actual operation of the grain mill.

To date they have done many improvements to the building, including a new roof, gutters, siding, and windows. They have rebuilt the stone wall in the lower level of the Mill and the walls of the tailrace have also been restored. A water wheel and trough have been added.

The park provides two fishing ponds for children and handicap to enjoy the outdoors as well as practice their fishing skills. Fishing seminars are conducted yearly at no charge. The Partners sponsor an Easter egg hunt every Spring and have a Christmas Love Light tree and ceremony every December.

An exciting time for the Partners of the Dundee Mill was in 2006 when the television show Extreme Makeover: Home Edition was in town to make over

The Dundee Mill & Park is a beautiful area to check out in the Kettle Moraine State Forest. The park area is a pretty place to sit and relax.

Tim Mills shows Chase Abler how the Dundee Mill can produce electricity for the power company. The mill will be open for tours during Dundee Mill Day.

photo by Andrea Hansen Abler

a home. The television show also took on the Dundee Mill as one of its projects. The family who received the makeover is very involved with the mill, so the television show also wanted to feature the mill.

The restored turbine was installed during taping of the show. They also helped add display cases and other items to the inside of the mill.

It really is a gem of the Kettle Moraine area, so make sure to stop by and check it out while you are in the area. If you would like to tour the mill, call 920-533-8279 to set up a private tour of the mill.

Many events take place throughout the year at the Dundee Mill & Park. Some brat fries are

held during the Dundee Farmers Market on Sundays in the summer and fall. Tours of the Dundee Mill are open to the public after the brat fries.

Other events to check out include:

Saturday After Labor Day — Mill Market Day from 9 a.m.-7 p.m. Activities for the day are family friendly. These activities include tours of the working mill, bake sale, crafts, raffles, food and live music all day. A lucky duck race will be held later in the day.

To purchase a duck in advance, contact a Mill director, a list of directors in the window of the mill. Come the day of the event to see if you win.

Second Saturday in December — Loves Lites Tree Lighting Ceremony.

Event starts at 3 p.m. with tree lighting at 4 p.m. A meeting of the board of directors will take place at 2 p.m. This meeting is open to the public.

Saturday Before Easter — Annual Easter Egg Hunt at the Mill, 1 p.m.

Third Tuesday Of Every Month — Partners of the Dundee Mill & Park board meetings, 6 p.m. These meetings are always open to the public.

**In the Spring Visitor Guide for the Northern Kettle Moraine State Forest, it was listed that a Zombie Run would take place this fall at the Dundee Mill. This event is no longer taking place at the Mill. Sorry for any inconvenience.*

The ROADHOUSE

N3086 Hwy. 67
Downtown Dundee • 920-533-8359
Open Monday 2pm • Tues.-Sun. 11am

FULL MENU FEATURING

Wine & Paint Events

Armstrong Orchard & Winery

Our Winery is an extension of our passion for quality, flavor and wholesome ideals. Armstrong Orchard and Winery is located in the small town of Armstrong in the picturesque hills of the Kettle Moraine. Over twenty years ago, we selected this region for our orchard because of the friendly neighbors, serenity and sense of nostalgia.

Come back in fall for:

- FRESH APPLES
- CARAMEL APPLES
- CIDER
- BAKERY (some items available year round)
- JUMP PAD (May-Nov)
- SLINGSHOT (Aug-Nov)

OPEN YEAR ROUND
Monday to Saturday 10am to 6pm
Sundays 12pm to 6pm

Music in the Orchard

Celebrate the summer by making memories at the orchard with great music, great wine and great friends.
 Bring your lawn chair or blanket. We'll provide a bonfire to keep you warm after the sun goes down.
 \$5 per person. Wine and beer must be purchased from the winery. Food is permitted but try our giant Bavarian pretzels.
 If it rains the concert moves in doors.
 All performances start at 6 pm and end around 9:30 pm.

Schauer Center Features Arts And Entertainment Just A Short Drive From Horicon Marsh

In the area and in the mood for some arts and entertainment? A short drive from Mayville, Horicon and Lomira is the Schauer Arts & Activities Center.

The Schauer Center is a comprehensive arts and theatre complex, located in Hartford.

In the upper level of the facility is the Suckow Family Art Gallery. It is open for viewing from 9 a.m. to 5 p.m. on weekdays and Saturdays from 11:30 a.m. to 2 p.m. and one hour before performances. Visitors are asked to stop at the Schauer Center Office to check in prior to all gallery visits so that someone may assist with the tour.

During the evening hours, the center also has its share of activities. The center offers high quality local and national performances on the main stage. Inter-clude Events sponsors a host of area school and

community fine arts groups throughout the year. The Center is proud to offer celebrations of local talent.

There are performances from the Hartford City Band, Hartford Community Chorus, The Hartford Players and the Kettle Moraine Fine Arts just to name a few.

The building has its own unique history as it was once a canning factory that has been renovated into an intimate theatre setting.

The Schauer Center is located at 147 N. Rural St. in Hartford, just off State Highway 60. From the Mayville, Horicon and Lomira areas, take Highway 67 south to Highway 60 and go east.

A season brochure is online at schauer-center.org and clicking on "Schauer Center Presents" found in the "Events" tab. More information is available by calling 262-670-0560.

Area's History Comes Alive At Local Museum In Kewaskum

A little piece of local history sits right next to the scenic Milwaukee River on Parkview Drive in Kewaskum, just waiting to be seen.

Actually, it's closer to a gazillion pieces, not many are aware of the breadth of the collection the Kewaskum Historical Society has built up.

The society's museum has the only milk can washer in the state and an authentic log house next door that takes you back to life in the 1840s.

The museum features a blacksmith shop, carpenter shop and an old printing press. A second floor houses a miniature farm, a cheese factory, a doll house based on a house in Beechwood, trains and steam engines, a school room from an old country school, a parlor, doctor's/dentist's office and a general store.

"It's a lot of everything," Dan Schmidt, founder of the Historical Society and vice president.

"I think it's something

we need to save. Otherwise our children and grandchildren aren't going to know how things were," he said. "If you want to know where you're going in the future, you have to know where you went in the past," stated Schmidt.

Schmidt said items come from society members, people in the surrounding area and from across the country. Someone in California may have grandparents who pass away who had ties to Kewaskum, and will send photos or other remnants of past generations.

Sometimes, modern technology and the kindness of local businesses pitch in. The milk can washing machine came from the Beechwood Cheese Factory after it was ordered to stop using cans and go to bulk. The factory sold the washer for scrap and then found out the Historical Society was interested. The Heise family promptly bought it back from the scrap dealer

and donated it.

The museum opened in 1976, year of the country's bicentennial, and quickly received a unique honor. The society became affiliated with the Wisconsin Historical Society and received a certificate of commendations the same year the museum opened. Normally, affiliation for three years is the standard before commendations are given.

The log house opened in 1982, the culmination of a three-year project. It was donated by the Reysen family, which planned on tearing it down before building a new home on the family farm. Marshal Reysen and his son, Randy, are active society members and have both served as president.

The society hosts a couple of events to take people back to a simpler time. In late May, Pioneer Days invites 175+ area fourth-graders to experience life as their great grandparents lived it. They play a game of old

baseball called field ball, shell corn, braid jump rope, make hand-dipped candles over an open fire outside and make corn bread over an open fire in a Dutch oven.

The society's signature event marks the closing of the museum and log cabin for winter. Each year on the Sunday after Labor Day, Early Farm Days packs in 60-80 exhibitors showing off old equipment and machinery along the Milwaukee River. Antique steam engines, gas engines, cars, trucks, threshers, sawed lumber and processed grain can be taken in firsthand. In addition, the event includes refreshments and horse-drawn wagon rides and a small farm animals to pet.

Early farm was originally held in conjunction with the formation of the society before the museum was opened.

While you are visiting the Kettle Moraine Forest, take a drive to Kewaskum to check out the museum.

A Geological History Of The Kettle Moraine

Some 20,000 years ago, two lobes of a great ice sheet met along a line extending northeast from Richmond in Walworth County through the Oconomowoc Lake country to Kewaunee County. One lobe moved down what is now the Green Bay-Lake Winnebago area.

Spreading under tremendous pressure, the two lobes met and in the encounter, large blocks of ice were broken off and buried in the glacial deposit or till. As the ice melted, "kettles" were formed, some only a few yards across, others 100 to 200 feet deep.

The ice moved under great pressure, changing shape rather than sliding across the face of the land. As it changed shape, large amounts of rock, gravel, sand and silt were picked up and carried along by the glacier. When the ice melted, this material was deposited, in some instances, across glacier-formed valleys. Some "kettles" were formed this way.

The Kettle Moraine is an area of varied topog-

raphy — parallel, steep-sided ridges, conical hills and flat outwash plains, mostly composed of sand and gravel. Many of the conical hills are conspicuous. Holy Hill reaches an elevation of 1,361 feet above sea level and some 340 feet above the stream valley to the east. Sugar Loaf or Pulford Peak (elevation 1,320 feet) is 320 feet above Pike Lake. Lapham Peak (elevation 1,233 feet), where there is a picnic area and observation tower, is 343 feet above Nagawicka Lake.

Similar detached sand and gravel conical hills, called kames, characterize the moraine throughout much of its extent. Some of these kames are cones formed beneath the glacier by surface streams which fell through holes in the ice. The undulating level-topped, narrow ridges called eskers were probably deposits in open cracks (crevasses) in the ice. In some areas the outwash terraces are pitted due to the melting of buried ice masses.

The Kettle Moraine

area rises to 300 or more feet above the lands to the east and west yet is not a continuous divide. Maximum thickness of the drift is not known because few wells reach bedrock. It is possible that the drift reaches a thickness of 500 feet in some places.

Limestone underlies much of the Kettle Moraine. This formation is 450 to 800 feet thick and dips gently eastward. Its western edge or escarpment extends from Washington Island to the Illinois line near Walworth. It lies 20 miles to the west of Kettle Moraine at Greenbush, is completely covered by the moraine in the Waukesha County area and is eight miles east of the moraine at Elkhorn. Because of the cover of drift, there are few outcrops in the moraine.

Lakes, of several origins, add greatly to the attractiveness of the Kettle Moraine. With the exception, of Pewaukee Lake, which lies in a preglacial valley blocked on the west and east by drift, all lakes in the Oconomowoc area occupy kettles. Long Lake,

The Kettle Moraine State Forest is a beautiful place to visit, especially in the fall months when the leaves are turning colors. Many educational activities are planned every week in the forest. There are also miles of trails to walk and bike to check out the beauty of the area.

photo by Andrea Hansen Abler

Big Cedar Lake and Elkhart Lake occupy preglacial valleys between morainic ridges. These valleys were probably occupied by ice blocks and escaped being filled by glacial drift.

State Forest History

After the period of glaciation, most of the highland surface became forested with fine hardwood timber and the swampy or low areas with softwoods.

Before the 17th century, small bands of roving Indians inhabited the area. With exploration

and development of the area during the 18th and 19th centuries by the white settlers, a great change took place.

Fifty percent or more of the land in the northern Kettle Moraine was cleared and turned into farms. Sixty to 70 percent of the land in the southern Kettle Moraine was farmed. A substantial proportion of the cleared land was submarginal.

Over the years plantings of conifers, such as white and red pine and spruce, have been made in all units of the forest. The pine and

spruce will convert to northern hardwood species of maples, cherry, ash and basswood.

With the increase in Wisconsin's population, particularly in the southeastern 16 counties, the need for a large acreage devoted to public outdoor recreation and forestry became evident as early as 1920. In its 1937 session, the Wisconsin Legislature authorized the development of this forest and recreational area.
