Anticipation

A sea of blankets and tarps scattered across "The Hill" at River Hill Park in Kewaskum prior to the July 3 picnic. Every year, the village allows residents to place their tarps or blankets early to reserve a spot. This year, folks were up-and-at-it at 6 a.m. of July 1 to make sure they got the best spot. The annual tradition, for some, can be nearly as fun as the event itself. **MITCHELL B. KELLER PHOTO**

St. Kilian's Eight O'clock Evening Mass

KARL MCCARTY
CONTRIBUTOR

When a boy has a good childhood, the appreciation lasts a lifetime. An upbringing in St. Kilian around 1990 was synonymous with Fr. Victor Kemmer and his eight o'clock mass on Saturday night. Born in 1982, my memories of childhood was shaped by observing the parish. Here are some takeaways on the old mass as our annual picnic nears.

Sleeping at Church

Picking stones is a long day on the farm when you are four or five. When church is at 8 p.m., a sun burnt child will crash by 8:20 or the gospel reading. This may have been the reason mom and dad sat in the back when we were very young. Four boys have a lot of energy. If they used it all day picking stones, they will lean on mom to sleep on her shoulder. If they did not use the energy, it was going to come out at church. This is when Jim McCarty (dad) would take son by the ears. Did you know that when you pull someone by the ear, they follow? Those cases of judgement outside of church were some powerful homilies.

Hilltop Air

There is something about being high on that hill in lower Ashford Township. Maybe it was a warmer summer day in a church with no air conditioning, which may have formed another reason for a late night mass. Or maybe it was the early fall when the aura of the hills blew in, and windows were open just for the appreciation of the season or a warmer than average evening. When the windows were cracked open, you could hear the outside breeze and the cars parking, but for some reason those noises hit the spot. There is something about an open-aired church before mass that invites appreciation, reflection and contemplation.

Agriculture and Faith

The 8 p.m. mass was at least partially due to agriculture, as many parishioners were farmers. In my conversations with earlier parish members, they talked about the two weekend masses that existed only on Sunday. During the early

years of the Father John B. Reichel era (1920-1964), there was no Saturday evening service.

At the time of publication, I could not confirm when the Saturday evening mass started. I could not verify if this Saturday evening mass was allowed after the early 1960 decisions of Vatican II, the passing of the traditionalist Reichel, the idea of a priest after Reichel, or to Fr. Kemmer himself. Nonetheless, the 8 o'clock mass was filled with many farm families.

One of the most important aspects of the evening mass was the convenience to dairy farmers. The St. Kilian service schedule accommodated us better than a Sunday morning mass. We milked our cows at 5:30 p.m., and could time it right with church.

To end the Kewaskum fireworks show, an impressive ground display illuminated the Stars and Stripes. **BREANNA RICE PHOTO**

In other memories, there was the smell of freshly cut hay on the way to church. Others, no doubt, were awed by the wave of contoured fields on the hills around St. Kilian. I can remember Fr. Kemmer offering prayer petitions during a drought, and how much that meant to many in the crowd who worked the land.

Serving Mass is a Test

St. Kilian had a unique perspective in forcing you to face an audience. You always knew who was at church, because altar boys looked out toward the crowd at St. Kilian. This had many advantages, such as seeing if there was someone you could connect with after mass to talk too. More common was someone in the crowd who mom and dad were going to talk to after mass, and delay the post-church perks of the evening.

Most difficult, was an occasional visual heckler in the crowd, who knew that if eye contact was made with the servers, they'd give an unusual smirk at an untimely serious reading. If I had a nickel for every time someone (who shall remain nameless) stuck their tongue out at me to get me to laugh I would have had a sizable stash to play bingo or the candy-board at the St. Kilian Picnic.

Kind Elders Influence Children

As you look back on childhood, it seems like people 60 and older never really age as we get older.

An Evolving World

Dear Reader,

Have you ever visited with a memory of long ago? At first it seems special to think of those times, but once you're there lodged in the past, you fully realize that so much was missing.

I once traveled to Chivay in the upper highlands of Peru. The sun shone brightly as I listened to a recording of Judy Collins singing "Send in the Clowns" and watched women of Incan descent spinning alpaca for sweaters.

Back then, that was enough for then, for that time. But now I see that there was so much missing. It's because as big as the world seemed back then, it has since gotten so much bigger.

It's what we as a nation talk about more than anything else. Chiefly because the concept is carved into both the foundations of America and our collective consciousness as well. Elton John even sang of its glory with his tune "Philadelphia Freedom".

I still vividly recall standing in the Campbellsport Fireman's Park on the Fourth of July during the country's Bicentennial Year 1976. The fireworks display that year was something special. I'd just graduated from CHS a few months earlier. Though our class held a unique distinction, I don't think any of us had the faintest inkling back then of just where America would be now. Oh, the marketing course teacher, Roger Turchany predicted if Jimmy Carter was elected it would start another civil war.

Wonder what he thinks about the events leading up to the January 6 insurrection? Where the problem comes is our citizens enjoy nearly unlimited liberty. A good thing?

Certainly. But what we've forgotten is this blessing also carries a large obligation. Stan Lee wasn't so far off when he had Spiderman's uncle advise him that with great power comes great responsibility.

Our short memory for the consequences of individual actions lead to Roe vs. Wade. Babies slaughtered by the millions. Recent Supreme Court leanings point to a reversal. While that is a victory for conservatives, it also highlights their hypocrisy.

Even as they applaud the high court's turnaround on the sanctity of life, they still staunchly resist any common sense approach to restrictions against possession of paramilitary style firearms.

Apparently, the reverence for the unborn doesn't apply to the lives of either school age children or their teachers. What may soon end after far too long continues in a different form. We the people have so much freedom and such scant regard for what that really entails, it's literally killing us.

Gov. Evers, AG Kaul Announce Direct Legal Challenge to Wisconsin's 1800s-era Criminal Abortion Ban

OFFICE OF THE GOVERNOR

In wake of U.S. Supreme Court decision overturning Roe v. Wade, lawsuit challenges archaic abortion statute banning nearly all abortions in Wisconsin, including in cases of rape and incest

Gov. Tony Evers and Wisconsin Attorney General Josh Kaul announced a new lawsuit challenging Wisconsin's criminal abortion ban.

The lawsuit came just days after the U.S. Supreme Court released a decision in *Dobbs v. Jackson Women's Health Organization* to overturn *Roe v. Wade* and *Planned Parenthood of Southeastern Pa. v. Casey*, upending nearly 50 years of a constitutional right to abortion that Wisconsinites and Americans have relied upon for almost five decades. Gov. Evers and Attorney General Kaul blasted the Supreme Court decision last week, vowing to fight to defend reproductive freedom, including access to safe, legal abortion in Wisconsin.

Wisconsin's criminal abortion ban—which originated in 1849 before the Civil War and at a time when Wisconsin women did not have the right to vote—would ban nearly all abortions in Wisconsin, including in cases of rape and incest. In anticipation of the Supreme Court's decision in *Dobbs* and the prospect of Wisconsin's criminal abortion ban potentially going into effect, health-care providers in Wisconsin have already begun halting abortion procedures across the state.

"We will never stop fighting to ensure every Wisconsinite has the right to consult their family, their faith, and their doctor and make the reproductive healthcare decision that is right for them—a decision that should be made without interference from politicians or members of the Supreme Court who don't know anything about their life circumstances, values, or responsibilities," said Gov. Evers. "The Supreme Court overturned *Roe*, effectively stripping so many of our family members, friends, and neighbors of their reproductive freedom. I said last week we would fight this in every way we can with every power we have, and that's what we're going to do."

In January, just days before the 49th anniversary of the landmark decision in *Roe*, Gov. Evers and Attorney General Kaul called on the Wisconsin State Legislature to repeal Wisconsin's criminal abortion ban. Earlier this month, they again called for legislative action, announcing a special session of the Wisconsin State Legislature to take

up a clean repeal of the ban. According to the Marquette University Law School Poll, nearly 60 percent of Wisconsinites support safe and legal access to abortion. Similarly, a national survey conducted just last month by Marquette University Law School found similar support, with nearly 70 percent saying abortion should be legal in all or most cases. Yet, last week, in another direct rebuff of the people of Wisconsin, Republicans in the Wisconsin State Legislature gaveled out of the governor's special session, refusing to give the repeal any consideration or debate. The lawsuit filed today names President of the Wisconsin State Senate and Co-chair of the Joint Committee on Legislative Organization Chris Kapenga, Majority Leader of the Wisconsin Senate Devin LeMahieu, and Speaker of the Wisconsin State Assembly and Co-chair of the Joint Committee on Legislative Organization Robin Vos as defendants.

"Access to safe and legal abortion stopped in Wisconsin last Friday. With this lawsuit, we are fighting to restore reproductive freedom in Wisconsin," said Attorney General Kaul. "The Republican-led legislature's failure to act during last week's special session has left Wisconsin law regarding abortion in a state of uncertainty. This lawsuit is asking the court to clarify that Wisconsin's 19th century abortion ban with no exceptions for rape or incest has not gone back into effect."

The lawsuit argues Wisconsin state statutes contain two sets of criminal laws that directly conflict with each other if both are applied to abortion and therefore Wisconsin's 19th century criminal abortion ban, Wis. Stat. § 940.04, has been superseded by more contemporaneous legislation and cannot be enforced. Similarly, the lawsuit argues that several state laws regulating how a physician can lawfully provide an abortion conflict with the 19th-century criminal abortion ban. More specifically, provisions, including a waiting period, the use of ultrasound, and how abortion-inducing drugs are administered, among other things, by virtue of providing parameters for when a physician may lawfully perform an abortion, are incompatible with the pre-*Roe* statute that broadly criminalizes abortion. The lawsuit, filed today in Dane County Circuit Court, seeks declaratory judgment and asks the court to clarify that Wis. Stat. § 940.04 was impliedly repealed by subsequently passed abortion-related statutes that conflict with it and is unenforceable.

SCOTUS Dobbs v. Jackson Women's Health Organization

CONGRESSMAN
SCOTT FITZGERALD
WISCONSIN FIFTH DISTRICT

[On June 24,] the Supreme Court of the United States issued its decision on the landmark case, *Dobbs v. Jackson Women's Health Organization*. This decision eliminates the egregious precedent set by cases *Roe v. Wade* and *Casey v. Planned Parenthood* and puts decision this decision back in the hands of the American people, not dictated by unelected judges.

"The decision is a major victory for the pro-

life movement and the unborn. *Roe v. Wade* was wrongly decided, and the court rightfully disposed of the egregious precedent it set," said Congressman Fitzgerald. "We have fought long and hard to protect the right to life of those who cannot defend themselves. Today, that work has paid off, but now we must begin working to ensure life is protected at the state and national level."

Dobbs v. Jackson Women's Health Organization is a case involving a Mississippi law that limits abortion after 15 weeks. The U.S. Supreme Court addressed whether all pre-viability abortion limits are unconstitutional. Science shows unborn children can feel pain by 15 weeks if not earlier.

Dodge and Fond du Lac County Pair Up to Offer Healthy Living with Diabetes

More than 100 million adults in the U.S. are currently living with diabetes or pre-diabetes, according to the Centers for Disease Control and Prevention (CDC). While that statistic is startling, there is good news. People with diabetes or pre-diabetes can improve their health by joining

a Healthy Living with Diabetes workshop sponsored by Dodge and Fond du Lac County's Aging and Disability Resource Centers. The program has been researched and proven to improve the health of adults with diabetes or pre-diabetes.

In just six weekly sessions, Healthy Living with

Diabetes gives participants strategies for managing diabetes including techniques to deal with symptoms and information about healthy eating, appropriate use of medication, exercise and working effectively with health care providers.

Community Service Project
Recently, the Shepherd of the Hills Catholic School community transplanted herbs and vegetables at the Children’s Museum of Fond du Lac. Students and teachers at the school grew all of the plants from seed in their school’s Trent Schueffner Memorial Greenhouse. After months of watering, tending, and weeding, students and their families transplanted the plants in the outdoor garden as part of a community service project.

SunRays to Perform at Music in The Park

The "Music In The Park" free music series continues, with The SunRays performing at River Hill Park in Kewaskum this Tuesday, July 12, 6:30 to 8:30 p.m.

The band's drummer, guitar player and keyboard player are retired teachers from Kewaskum. The group added a woodwind player from Milwaukee and a bass player from Allenton to round out the band.

The SunRays

Originally formed for a school talent show, The SunRays have been playing together for more than 25 years. Showing a spirit of fun in their Hawaiian shirts, they describe their play list as "up-beat, happy music" that covers a variety of classic rock from the 1950s through the 1980s.

The band throws in a little blues and a novelty tune or two. The SunRays clearly have a great time with the music of yesteryear as they lead the audience on a fun walk down memory lane.

The Music In The Park concert is free and takes place in the large shelter in River Hill Park in Kewaskum. Food and beverage is available for purchase from the concessions at 5:30 p.m. and the music begins at 6:30 p.m.

Seating is available, but lawn chairs are encouraged.

Music In The Park is made possible by donations from Drexel Building Supply, Gerhartz Studio, the Kewaskum Area Chamber of Commerce, Kewaskum Fire Fighters Association, Kewaskum Kiwanis Club, Kewaskum Women's Club and Geidel's Piggly Wiggly. The Kewaskum Area Arts Council organizes the Music In The Park series.

KEWASKUM'S DAYS GONE BY**5 Years Ago
July 13, 2017**

Back in the 1980s, Karen Breitzman painted numbers on Willie Goeden's late model race cars. Earlier this month, the Campbellsport artist was once again painting numbers for the 78-year-old Kewaskum racing legend. This time, she was painting the number on the side of a building in Beaver Dam. Goeden won three modified championships at Beaver Dam (1970, 1973, and 1974). He was chosen as one of the subjects to be featured on a large mural that can be seen from Exit 129 on U.S. Route 151. Breitzman was one of 172 artists from around the world who descended upon Beaver Dam to create the murals. Artists who create murals on buildings are referred to as walldogs. This was not Breitzman's first experience being a walldog. She's also worked on murals in Algoma, Plymouth and Delavan.

The Kewaskum School District will receive \$171,490 less general aid in the 2017-18 school year than it did for the 2016-17 school year, according to estimates released by the Department of Public Instruction on June 30. Kewaskum schools are estimated to receive about \$8.31 million in general aid for 2017-18, compared to the approximately \$8.49 million it received in 2016-17. Kewaskum is among the majority of schools that will receive less general aid.

High Cost Special Education Aid to school districts and eligible agencies that teach students with significant disability-related needs totaled \$10.7 million for the payment made in June, an increase of just over \$5 million from the previous year. The aid went to 136 school districts and two County Children with Disabilities Education Boards to reimburse 70 percent of prior year eligible costs for special education services. Kewaskum School District received \$23,644 on June 19.

Three Kewaskum students will perform this fall at the state music educators convention in Madison. They include Brionna Banovich (bassoon), Delaney Breit (percussion), and Ashley Ellefson (clarinet). All three completed eighth grade at Kewaskum Middle School recently.

Three people were seriously injured in a car accident on July 7 on Highway 45, north of County Highway F in the Town of Osceola. The preliminary investigation indicates that a southbound vehicle on Highway 45, driven by 23-year-old Kevin Knippel of Merrill, crossed the center line, striking a northbound vehicle head on. The vehicle was driven by Douglas Hodorff, 66, of Eden. He was flown to ThedaCare Regional Medical Center. Knippel and his passenger were flown to Froedtert Hospital.

If you like golf, there are two golf outings on the horizon. The Kewaskum Area Chamber of Commerce will hold its golf outing on July 15. The Kewaskum Kiwanis Club will hold its golf outing on July 20.

For the fourth year in a row, Josh Stangl golfed to raise money for the University of Wisconsin Carbone Cancer Center. The organization had helped him fight Stage 4 tongue cancer, and Stangl has been using his passion for golf as a way to give back. On July 6, he golfed 126 holes at Hon-E-Kor Golf Club in Kewaskum. In the process, he raised more than \$8,800 for head and neck cancer research.

Kewaskum's baseball team finished the regular season of play with a 14-14 record overall and 8-10 in the North Shore Conference. The Indians finished on a hot streak, winning all four games played last week.

Darlin J. Jacobs, 84, Barrington, Illinois, passed away June 30. Kenneth A. Theusch, 76, passed away July 9. Richard D. Bubb, 64, Campbellsport, passed away July 7.

A renovation project in Riverhill Park is complete. The project saw a former sewage lift station remodeled into bathrooms near the dam of the Milwaukee River. Parking for eight vehicles was also added.

Coffee Corner Bistro closed on July 3 due to a fire, which was caused by a lightning strike shortly after noon. The fire displaced two families in apartments in the building. Jessica and Tony Trunkel, who own the building and the popular coffeehouse, say they plan to reopen within three or four months. The Trunkels and Coffee Corner manager Connie Schulist are mostly concerned about the apartment tenants, who lost everything in the fire. They plan to do some fundraising to help the apartment tenants get back on their feet.

The Village of Kewaskum Department of Public Works has placed a new 2007 GMC cube truck into service this month. It replaces a 1993 GMC van.

Washington County's Administrative Coordinator will not be upgraded to County Administrator, at least not now. The Board of Supervisors voted 15-13 in favor on the move on Tuesday at the monthly meeting. However, a two-thirds majority was required.

Holy Trinity's 13th Annual Social Fest will be held August 25.

Dundee Daze will take place July 14. The day begins with a pancake breakfast. There will be a craft fair and kids games, tug of war, and music provided by Antique Roadshow and Altered State.

Premier Power Sports, a full-service power sports dealership, is now open. It is a sister company to Premier Auto Sales. Each is owned by Bob Hackbarth.

The Kewaskum Indians beat visiting New Holstein 5-0 on July 2. Although slim, the hope of sharing the EWC title is still alive. Kewaskum is 20-6 overall and 16-4 in the conference.

Kewaskum is the number two seed in this year's baseball tournament. The Indians get a bye in the first round, then host the winner of the Cedar Grove/Port Washington game scheduled for July 17.

A daughter, Madelyn Rose, was born June 29 to Kelly and Kevin Marquardt of Kewaskum. A son, James Robert III, was born June 23 to Jennifer and Jim Schiller of Farmington. A son, Jack Eugene, was born June 29 to Mark and Amy Marchello of Kewaskum.

Paul S. Berg, son of Mr. and Mrs. Elwood Berg of Kewaskum, received a Superior Honor Award signed by Secretary of State Madeline Albright at a ceremony at the United States Embassy in Mexico City. He has served in the Embassy's Political Section since October 1994 and is responsible for coordination of U.S. Policy with Mexico in the areas of law enforcement, counternarcotics, terrorism, and political-military affairs. His assignment in Mexico City will end this month. After a year of Vietnamese language training in Washington D.C., Berg will begin a new assignment as political officer in the U.S. Embassy in Hanoi, Vietnam.

Sponsored by the Kewaskum Kiwanis Club, the Great Wallenda Circus will be in town on Saturday for two shows. The event is in celebration of the

50th anniversary of the club.

The Kewaskum Firemen-Legion Picnic will be held this weekend at River Hill Park.

With the combined efforts of Legion members, the Robert G. Romaine American Legion Post #384 clubhouse in Kewaskum has undergone extensive remodeling. The turn-of-the-century building was constructed by Henry J. Lay. The home was purchased for \$15,000 in 1945. Demolition and renovation first took place in 1958. The most recent renovation expanded the seating capacity to 150 people as the first floor went from four rooms to three to open the space. The lower level has also been updated, getting new drywall, paneling, ceiling, and lighting.

Winning their two recent games gives Kewaskum's baseball team a 7-5 conference record and 11-8 overall record.

Otto W. Kempf, 92, West Bend, passed away July 6. Oliver H. Herman, 75, Allenton, passed away July 2.

At a special meeting June 29, board of education members voted in favor of holding an advisory referendum on whether \$200,000 should be borrowed to build and equip an addition to the Wayne Elementary School. The vote was unanimous from the five of seven members who were present. District electors will vote on the question July 24, the day of the annual meeting.

Three people were killed in two separate accidents recently. Sylvester N. Muckerheide, 57 of West Bend, lost his life in a two-car collision on Highway 45 on Sunday. A fiery crash into a rocky embankment on the dead end of Orchard Valley Road in the Town of Farmington killed two West Bend teenagers on Wednesday.

Plans are complete to make this year's annual firemen's picnic and parade a huge success. The event takes place on Sunday.

After losing three straight games by one run each, the Kewaskum Indians finally won a game by that margin, defeating Mayville 5-4.

Josephine M. Dworschack, 87, New Fane, passed away July 1.

The fireworks display sponsored by the businessmen of Kewaskum, scheduled for Saturday, had to be postponed to Sunday because of an electric storm and showers. A huge crowd of people was turned away. The weather was fine on Sunday and a crowd almost equally as large attended. The concession stand was cleaned out of hamburgers, and large amounts of soda, water, beer, and popcorn were also sold.

Local firemen were called out twice this week to put out grass fires started by sparks from railroad engines along the North Western tracks. One occurred on Tuesday and the other on Thursday.

In the Kettle Moraine All-Star Game, the southern division defeated the northern stars 9-8. The Kewaskum Utensils of the southern division was represented by four players - catcher Paul Kral, pitcher Harold Marx, shortstop Barney Prost, and first baseman Wayland Tessar.

Some new furry friends are now calling Campbellsport home. The Inukshuk Alpaca Menagerie and Country Shoppe has opened just outside of Campbellsport. The ranch will be open to visitors year-round.

A second special meeting was held by the Campbellsport School District on June 28. The main item on the agenda was the acquisition of property by the school district. In order for the district to purchase the property, a resolution has to be approved by the electorate during an annual meeting or special meeting. The two properties that were up for approval were 315/317 N. Railroad St. and 110 W. Sheboygan St. The electorate was only able to vote on one of the properties. Each had verbal agreements for purchase, but only one had the official paperwork submitted to the school district in time for the meeting. The electorate voted 27-0 to purchase the property at 110 W. Sheboygan St. for \$215,000.

Todd Flitter, store manager of Drexel Building Supply in Campbellsport, presented a \$2,500 check to Campbellsport Volunteer Fire Chief Craig Olson. The money was used for a major renovation to the hamburger stand at Firemen's Park.

The Cougars defeated MBE Elite Baseball Academy 13-3, the Cedarburg Blue Mercs 14-2, BOSS 14-4, and Richfield Rockets 3-0 before beating defending district 1 Little League Champion West Bend Bulldogs in the championship game 4-2.

A team made up of players from Dotyville and St. Peter, known as Eastside Lakers, took second place in the Greenville 9U Tournament recently. The Lakers beat Grand Chute Red 18-3, Neenah Suburban 13-7, Grand Chute Blue 13-3, and Appleton Nationals 7-4 before falling in the championship game to Greenville. Team members include Hudson Burg, Jace Goebel, Braden Bothe, Miles McAuly, Jack Brenner, Kyler Bowe, Kellan Gill, Trenton Schladweiler, Carter Gellings, Ben Baker, Ty Faris, and Spencer Loehr.

The Campbellsport School District Budget will increase by \$500,000, but the tax levy will drop slightly. The Board approved a \$3,543,000 tax levy (three percent decrease), then tacked on an additional \$100,000 contribution to a Capital Fund Project. This means that the Board will suggest for Annual Meeting approval a .2 percent decrease, which translates into a \$45 decrease on a \$100,000 piece of property. District Administrator Joe Bertone reminded that although the school levy is going down slightly, other segments of the tax bill could increase, negating that school district savings. He supplied the Board with seven pages of detailed Board Notes explaining the ramifications of increases or decreases in the budget.

Members of the Campbellsport School Board accepted, with regret, the resignation of chemistry teacher Don Seefeld, who has enjoyed a long and respected career in the district.

FOND DU LAC COUNTY FAIR JULY 20-24, 2022

About The Fond du Lac Fair

The Fond du Lac County Fair will celebrate its 171st fair in 2022.

The first county fair, held in Rosendale, began with an address at half past one on the first day, September 29, 1852. The event was held for two days.

Dairy cattle, fine wool, tools and manufactured items were exhibited at the first fair. Household arts and garden vegetables were on display to be judged.

The best stallion received a \$4 premium. Working oxen and steers were awarded \$3 for being the best in the class. The best sample of butter, not less than 50 pounds, was awarded \$5. The best sample of sugar, also not less than 50 pounds, was given a \$4 premium.

As it celebrates its 171st anniversary, numerous activities are being planned for the 2022 Fond du Lac County Fair, being held July 20-24, at the Fond du Lac County Fairgrounds.

The theme for this year's fair "Just Another Day In Fairadise."

What Is A Fair For?

"The purpose of a fair is to educate; to help people learn about life and what is good; to find out what is new and how to improve; to understand about our heritage and agriculture; to find out what is profitable and what is enjoyable; and to learn how to adjust better to change, how to be better people, how to be responsible and better citizens, and how to be more self-sufficient," author unknown.

A 'Special Final Drive' is on July 24

The third annual A Special Final Drive will be held on Saturday, July 24, at 6:30 p.m. This is a great event for the entire family to check out.

The show invites youth ages eight and up with any physical or mental disabilities to participate in a swine show. These exhibitors will be paired with FFA and 4-H youth mentors and a pig from the Fair.

The youth exhibitors will work with the mentors before the show to learn how to handle the pig. The mentors will also help in the show ring.

All participants will meet at the Livestock Barn at 3:30 p.m. They will meet their mentors and spend time learning how to show a pig. At 5 p.m.

they will break for dinner and then have a group photo taken at 6 p.m.

The show will start at 6:30 p.m. in the Cow Palace. The ring inside the building is surrounded by a fence to contain the pigs and keep them near the judge. There are bleachers surrounding the show ring for spectators.

The judge will assess how the mentors, participants and pig work together as a cohesive unit.

The mission for this show is to provide an inclusive opportunity for all youth to work together and share the experience of working and showing livestock in a competitive and friendly environment.

FOND DU LAC COUNTY FAIR JULY 20-24, 2022

Fair Grandstand Musical Acts to Feature Classic Rock and Country

This year's Fond du Lac County Fair kicks off on Wednesday, July 20. Check out this year's Holiday Automotive Grandstand Stage music line-up, which features Bella Cain, Seether and Switchfoot and Collective Soul.

Bella Cain

On Thursday, July 21, at 8 p.m., it is time for some great country music with Bella Cain.

With amazing musicianship, unmatched high energy onstage, production that includes one of the premier sound and light shows in the business teamed up with the Bella Girls, musical variety not seen before on the regional Country Music scene and a sound all their own... Bella Cain is winning the hearts of many all over the Midwest.

Established in 2010, Bella Cain has become one of the largest and most "in-demand" Top 40 Country Groups in the region.

This fantastic group of performers bring pure talent to every Bella Cain show. No tracks, no harmonizers or added vocals/prerecorded parts! What you hear and see is 100 percent Bella Cain and they pride themselves on delivering the best "Live" musicianship to the stage each and every night!

Seether

Seether will take the stage on Friday, July 22, at 8 p.m.

Since forming in Pretoria, South Africa, in 1999, Seether (Shaun Morgan, Dale Stewart, John Humphrey and Corey Lowery) has amassed a global fanbase that has grown organically with purpose and commitment, offering their fans around the world camaraderie, comfort and a sense of personal power.

Their impressive sales and chart history includes three platinum and two gold albums, 22 number one singles, 21 Top 5 multi-format hits, single sales topping 17 million and over two billion streams worldwide across all platforms.

Seether is Billboard's number eight All-Time Mainstream Rock Artist, which covers the 40-year history of the chart's existence.

Their latest LP, the acclaimed, *Si Vis Pacem, Para Bellum* (If You Want Peace, Prepare For War) was released last summer via Fantasy Records. A primal mix of euphoria and misery, the new album ranks among the strongest material of Seether's illustrious career and includes the recent number one singles "Dangerous," "Bruised and Bloodied," and "Wasteland."

Switchfoot/Collective Soul

Popular bands Switchfoot and Collective Soul will both rock the Grandstand at 7:30 p.m. on Saturday, July 23.

After early successes in the Christian rock scene, Switchfoot first gained mainstream recognition with the inclusion of four of their songs in the 2002 movie *A Walk to Remember*.

BELLA CAIN

This recognition led to their major label debut, *The Beautiful Letdown*, which was released in 2003 and featured the hits "Meant to Live" and "Dare You to Move." The album sold over 2.6 million copies.

Switchfoot has sold almost 10 million copies world wide of their 11 studio albums (including their 2003 double platinum breakthrough *The Beautiful Let Down* and 2009's Grammy Award winning *Hello Hurricane*). They racked up a string of Alternative radio hit singles, and performed sold out tours with over five million concert tickets sold in over 40 countries around the world.

Collective Soul had a triumphant, year-long celebration of their 25th anniversary in 2019, but the very last thing Collective Soul plans on doing is rest on their laurels. If anything, these five fiery Georgia-bred rockers are only just getting started with the next phase of a thriving career that has seen them move millions of records and wow multitudes of fans all across the globe.

Formed in Stockbridge, GA, in 1992 amid the rise of the grunge music scene, Collective Soul put their own spin on the genre, injecting influences of Southern hard rock and soul. The five-piece band signed their first major record deal just one year later, following the massive success of their single "Shine."

Holstein Futurity

Don't miss the Agromatic Holstein Futurity Fair on Friday, July 22, at the 171st Fond du Lac County Fair.

Show sponsor, Agromatic, Inc. president, Dean Birschbach states, "we are happy to support the dairy producers who work hard to make quality dairy products for everyone to enjoy and we wish the best of luck to all the talented Holstein breeders in Fond du Lac County who work hard to make this show a huge success."

Agromatic Inc. has been providing America's dairymen with the industry's highest quality agricultural equipment since 1898. As a family operated business, they continue to grow and meet the needs of their customers with unmatched service.

Birschbach states, "We are dedicated to expanding our distribution network to better serve our customers. We strive to be in the forefront of technological advances and introduce that technology to the market only when it meets our rigid reliability and quality standards."

Agromatic's headquarters are in Fond du Lac, but there are dealers throughout the USA and Canada. Agromatic strives to supply farmers with high quality equipment at an affordable price.

The show will consist of two age classes of Holsteins. The five-year-old show will begin at 6:45 p.m. in the Cow Palace. The two-year-old class will follow.

Baby Race Seeks Young Crawlers

Infants may be too young to run the Fondy Fair 5K Run/Walk, but anyone not yet walking will get a race of their own when the Fondy Fair Baby Crawling Contest kicks off right after the Kids' Run portion of the Fondy Fair 5K Run/Walk.

The baby race is expected to begin around 10:45 a.m., right outside the fair office on Saturday, July 23. Entry is free and more information can be found on the Fond du Lac County Fair website or the Fair Facebook page. Race day registration will be set up near the fair office on the Fond du Lac County Fairgrounds

between 7 a.m.-9 a.m. on race day.

The children will crawl to the finish line on a carpet. One adult is welcome to stand at the finish line and coax the child to the end with a favorite toy or stuffed animal. An adult must also be at the start line.

Entrants must not yet be capable of walking. Any racer who stands during the event will be disqualified.

The "quickest crawler" will be awarded a prize. If a lot of babies are registered, qualifying heats will be held with the winners of each heat participating in a final race.

ST. KILIAN *from page 1*

Sometimes children, then or even nowadays, have a tendency to avoid the elderly. Church is important because it forces interaction between children and seniors, besides children just talking to their own grandparents. As we got older, we sat towards the center of the church, and often sat near Ruth and Herbie Schmitt. Although I do not remember conversing with them a lot, they were always pleasant and friendly. This gentleness by itself is important.

Sense of Community

Church is really a team effort, and it is important to give credit to the older people who insured it remained as long as possible in St. Kilian on a Saturday night. There was Fr. Kemmer, who was assisted by his house keeper Rose Brunner, who also went upstairs to the choir.

Janet Melzer played organ often on a Saturday night, while her husband Bob ushered. It was similar for Neal Straub, who ushered while his wife Lyra was a lector who took care of reading petitions and the first and second readings. Lizzy Weiland went to the choir while her husband, Leander, sat downstairs by the column holding the choir loft, symbolizing the many hard-working parishioners who came to pray.

There were many others who helped with readings, offertory, choir and other functions of the

church. And my recollections did not include those who were more likely to attend Sunday, as I seldom attended the morning service.

In my childhood memories, those mentioned above were the people who stood out because of proximity to the farm I was raised on. As a child our neighbors become models for what is right and normal. There is a lot to be said to watching neighbors serve.

Church as a Treat

Church in St. Kilian on Saturday night eventually associated with being fun. First off, Fr. Kemmer was just a special person, so my brothers and I had conversation with him before we served mass. Then after mass, people hung around and talked as they came out of church.

Farmers conversed on their crops, neighbors found out what was new, and many shared how their families were doing. This debriefing around the steps of church could last as much as five minutes to a half an hour.

On special nights though, we got to go to Urban's Store in Ashford. And anybody knows the best way to Ashford from St. Kilian is via the Katzenburg. This is if you survived it! Dad drove his stretched-out-used-Cadillac, which seemed like 25-feet-long, and took the family for a ride. The length of the car in combination with the then-uneven intersection of Cloverland Drive with the Katzenburg provided a weird groove that, when combined with

the right amount of pressure on the gas pedal, impacted the gut similar to a roller coaster. Yes, that Cadillac and Katzenburg "tickled your innards" like Mountain Dew! But that wasn't the reason we were headed to Urban's. They had all kinds of goodies – chips, candy bars, bazooka gum, and candy cigarettes.

On the way home it was up Rolling Drive, where dad would open the windows, and bang his arm on the Cadillac's top as we drove past the old schoolhouse. "It's an opossum!" Other nights it was raccoon. We never did see them, perhaps we were more focused on what was seconds ahead. Out of the freezer came Schwann's vanilla ice cream and on special occasions — Jolly Good's variety of root beer, grape or orange soda. (Yes, grape floats do exist!) The ice cream and soda pushed us on cloud nine, which was about the time to immediately turn on CBS, because nothing tops off the spiritual nourishment of mass better than "Walker Texas Ranger." From Fr. Kemmer to Chuck Norris, we had what we needed.

All of this was made possible by the cultural norm of an eight o'clock mass at a small Catholic parish in lower Fond du Lac County. Although the memories may be different for you, come out July 17, and share stories while reconnecting with parish members at the St. Kilian Picnic. Your support and generosity helps the continued maintenance of the grounds.

Check It Out!

LORI KREIS
KEWASKUM LIBRARIAN

When my younger sister graduated from high school, my mom and her partner purchased a conversion van to travel the continental United States for a year. The goal was to look for a forever home for the two of them. My mother did not like Wisconsin winters and was hoping to spend the rest of her life in warmer weather. Before she left her children for travel, she took each of her daughters on a farewell trip in the new van. I don't remember where she went with my sisters, but for me, we spent a long weekend in Door County.

This may have been one of the first times I was on the peninsula and have been back many times. This vacation with mom was quite a few years ago and I don't have clear memories of all of it but there are some things that stand out. The food and cherries, my first fish boil, hiking in the state park and the lighthouses. I became so intrigued with lighthouses on this trip, we explored as many as we were able.

I enjoy history very much and learned about how these historic buildings were not only beacons of safety for Lake Michigan mariners, but living spaces for families, sometime secluded for months at a time. While exploring, I would try to imagine how my life would be if that was my abode. The ones we toured were inhabited by families for the most part. How fascinating a life it was for the parents and children who grew up there. I do realize that there were major responsibilities and definite dangers involved in living in a lighthouse. However, I still find the idea quite captivating.

There are many books, fiction and non-fiction on the subject. One of them, *Wisconsin Lighthouses: A Photographic and Historical Guide* by Ken and Barb Wardius is a comprehensive look at the lighthouses in our state. As authors of four books, the Wardius' are also accomplished photographers of lighthouses. This book includes more than 100 photographs that are stunning and add so much to the narrative about these historic beacons of light.

We are lucky to be able to host authors Ken and Barb Wardius at Kewaskum Public Library on Wednesday, July 20, at 6 pm. They will be providing an intimate look into the lighthouses of Wisconsin accompanied with a presentation including photos and artifacts. This program covers nearly one-third of the lighthouses in the state, including Wisconsin Point Light in Superior, the Apostle Island's Sand Island and Michigan Island Lights, Cana Island Lighthouse in Door County, Rockwell Lighthouse on Lake Winnebago, Rawley Point near Two Rivers, Old Port Washington, Wind Point in Racine and many more.

As seating is limited, we recommend advanced registration at the library. I am looking forward to this program and know it will bring back some wonderful memories of my trip with my mother to Door County. Hope to see you there.

Model T Ford Show & Mayville Lions' June Dairy Polka

Thursday June 23 | Mayville Park Pavilion

The City of Mayville partied like it was 1919 on Thursday, June 23, as the Model T Ford Club rolled through town for an antique car show, which was accompanied by the Mayville Lions' annual

June Dairy Dance at the Mayville Park Pavilion.

Entertaining those in attendance all day was Ryan Kautzer, who performed with a three-piece band in the early afternoon and also with

a five-piece later in the afternoon.

The next Mayville Lions Club Dance is set for Sept. 16 (during Audubon Days) with the Wendinger Band of New Ulm, Minn.

The Model T Ford Tour stopped in Mayville on Thursday, June 23, and the historic cars were ideal viewing in conjunction with the Mayville Lions Club's June Dairy Polka Dance also held at the Mayville Park Pavilion.

Bodies in motion at the Mayville Park Pavilion. Ryan Kautzer and his five-piece band were the feature of the June 23 Mayville Lions Dairy Month Dance.

Loop Leading Utensils Make it Six Straight

KEWASKUM STATESMAN
JULY 4, 1947

The following is an article from the July 4, 1947, edition of the Kewaskum Statesman. The article covers a Kewaskum Utensils baseball game. The piece is largely unedited and displays the style and convention used "back in the day."

Those slugging Kewaskum Utensils did it again Sunday. We mean they won their sixth straight game without a defeat and now are two full games ahead in first place.

Kewaskum's victim was the heavy hitting Waucousta nine and the score was 9 to 4 in a contest played at Waucousta.

In a surprise upset Sunday the Campbellsport Belles were whipped by Belgium, 6-0, the Belles getting only 3 hits.

Waucousta showed a good hitting club and a fine fielding infield, especially on first base.

Their youthful catcher, Rose,

played a real game and picked Kewaskum men off the bases like flies.

Their weakest spot seemed to be in pitching, the Utensils touching young Sook for 16 hits. Although hit hard Sunday, Sook has pitched some bangup games this season. Waucousta nicked Marx for 8 singles.

Both teams' pitchers struck out many batters.

Waucousta threw a scare into Kewaskum with 3 runs in the initial inning.

The Utensils scored 1 in the second and trailed 3-1 until the fifth when they pushed over 4 runs.

Kewaskum scored 2 more in each of the 7th and 8th for security.

Waucousta scored its final run in the 8th and threatened again in the 9th but failed to score.

That man Wayland Tessar, league leading hitter, went on a spree again, banging out a hit every time at bat. He batted 4 times and got 4 hits, including 2 doubles. Tessar to date has

been up 27 times and has 17 hits for an amazing batting average of .630.

Jerome Stautz and Killy Honeck each drove out 3 hits in 5 tries.

Honeck, a pitcher, converted to second base to strengthen that position, did all right in his first start there, handling all changes without a miss as well as getting 3 bingles.

Errors: Jaeger, Wirkus, S. Hodge, Wilderman, Schiller, Fosterling; Runs batted in: Gritzmacher 2, Leach 2, Antoine, Bley; Earned runs: Belgium 4; Two-base hits: Bley, Gritzmacher, Fosterling; Three-base hits: Antoine; Stolen bases: Bares; Left on base: Belles 4, Belgium 9; Base on balls-off Uelman 0, off F. Schramm 3; off Gritzmacher 1; Struck out-by Uelman 0, by F. Schramm 4, by Grizmacher 9; Hits-off Uelman 5 in 1 1-3 innings, off F. Schramm 7 in 6 2-3 innings; Umpires: Baudura and Badura.

Mercury Racing, a global provider of high-performance marine propulsion systems, continued its commitment to students pursuing careers in skilled trades and marine propulsion by issuing four scholarships.

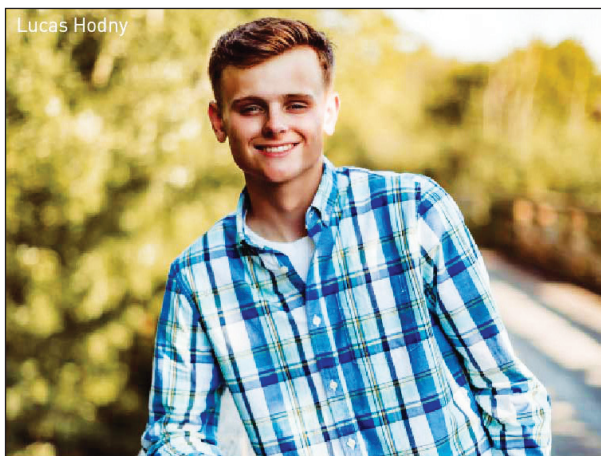

For the fourth year in a row, Mercury Racing presented two Fond du Lac, Wis.-area high school students with Excellence in Trade Scholarships. These awards are given annually to support the continued growth of skilled tradespeople within the community of the company's headquarters.

Earning this year's \$5,000 Excellence in Trade Scholarships are Brandon Loomans from Lomira High School and Lucas Hodny from Campbellsport High School. Loomans will attend Moraine Park Technical College and Hodny is continuing his education at Fox Valley Technical College.

New in 2022, Mercury Racing partnered with the Impact Institute in Indiana to provide two \$750 scholarships to high school juniors or seniors enrolled in the school's Marine Services Technology program. This series of courses provides classroom and lab experiences to prepare participants for employment in the boating industry. Upon completion of the two-year program students earn their Marine Industry Certification.

This year's Mercury Racing Impact Institute Education Scholarship recipients are Ben Teague from Churubusco High School and Cort Middleton from Prairie Heights High School.

Mercury Racing, like many companies, relies on skilled individuals to design, build, service and maintain its products. The Excellence in Trade and Impact Institute Education Scholarships provide funding to help students pursue their career goals, as well as grow the local workforce and marine industry talent pool with future employees

passionate about niche services and products. "Our scholarship programs allow Mercury Racing to recognize and financially support students who will learn skills, join the work force, and impact the future of the trades and the marine industry," shared Stuart Halley, general manager for Mercury Racing. "We're excited for the 2022 re-

ipients and look forward to watching them excel in their education endeavors."

Mercury Racing thanks and commends all its applicants for the 2022 scholarship programs and wishes them – as well as scholarship recipients Loomans, Hodny, Middleton and Teague – continued success pursuing their passion for skilled trades.

Lions Donkey Game Arranged

CAMPBELLSPORT NEWS
JULY 3, 1947

The following are articles from the July 3, 1947, edition of the Campbellsport News. The latter article covers a Campbellsport Belles baseball game. The pieces are largely unedited and displays the style and convention used "back in the day."

Members of the local Lions Club are completing arrangements for the Club's benefit donkey ball game to be played at the high school diamond under lights Friday evening, July 11.

Donkey ball games are colorful. The game will be fully explained by one of the officials before it starts. Each team will be composed of nine men as in regular baseball. Each however, will have his own donkey. Instead of running for a base after hitting the ball, the batter will have to get on his donkey to negotiate the base paths, and the fielders will have to field the ball after getting off their donkey.

Owners of the donkeys stated today that they would have well-trained animals of assorted colors on hand. The group of animals will be under the care of an experienced attendant, who referees the game and who pairs the donkey and rider according to the rider's ability, if any.

Several years ago the game was a complete success and was

attended by several hundred children and grown-ups.

Bad Playing by Belles Lost Game to Belgium Sunday

A crippled bunch of Belles, playing a sloppy brand of ball were upset by a hustling Belgium nine in a Kettle Moraine league game at Belgium by a score of 6 to 0.

The locals were unable to do anything against Gritzmacher who held them to three hits, walked but one, and struck out nine.

Up to Sunday the Belgium veteran had been unable to pitch a full game.

In the absence of Chuck Schramm, who is bothered by a sore arm, the pitching chore was turned over to Dave Uelman. Dave was touched for five hits in one and one third inning and was relieved by Fritz Schramm Jr. who allowed seven hits for the rest of the contest.

Several of the hits credited to the Belgium batters were of the scratch variety, so the defeat cannot be blamed on the youthful hurlers, as Dizzy Dean in his prime couldn't win without some batting support.

On Friday the fourth the Belles meet Kewaskum on the local diamond. They must win this one to remain in the running for the flag as Kewaskum is undefeated.

Chuck Schramm should be in shape to hurl this big game

and the veteran Mixie Marx, who is having one of his greatest years will go for the invaders.

windy, rainy and cold real quick. I got soaked.

Opening a camp is a lot of work, especially when you have only four days to do it.

Fishing opens Saturday, and the guests will be flown in Friday.

Later in the day, I went to two different portage lakes and bought motors, gas tanks and paddled to them. Each portage lake has one or two boats. A portage lake is a lake where the fisherman follows a trail anywhere from 100 to 900 yards carrying only his fishing gear to a boat and motor we have rigged up.

Between all of our camps, we have 75 boats and motors.

Its only Pete and I, so they keep us very busy.

On Wednesday, we opened up Schultz and Keeper River Outposts. The outposts only have hand pumps in the cabins for water along with gas lamps, a gas oven, a gas refrigerator and a gas freezer.

You really have to be a jack-of-all-trades in this business. It's a good thing Pete is. He's taught me a lot in the last year. It's not like you can just go to Sears and replace equipment up here or call a specialist to fix it.

Today, I got to Chimo Lodge ready for the 20 guests that are flying in tomorrow morning. I was the official outboard motor hanger and tester.

It is 12:30, and the guests will arrive anytime after 5:30 p.m.

The last five days, we have worked as many hours as we could. We're both tired, but we're both excited.

It will be hard to get letters every week. Sometimes it takes a week to get them out of the bush, and two weeks to get them to the States.

Sincerely,

Mark Walters

P.S. As I sit here, I can hear the loons calling. That's a nice way to end the day.

MARK WALTERS
COLUMNIST

As many of you may know, my beautiful girlfriend, Michelle Chiaro, passed away unexpectedly on June 15.

I am trying to find myself and begin a life minus Michelle and her children who were set to move into my house the week that she passed.

I wrote this week's column back in 1989. It was the first one that I ever wrote, and I will be doing this for the next five weeks as I take care of as much business as possible.

From 1989

You may have read the article in press about me a couple of weeks back.

My name is Mark Walters, and I manage a fly-in hunting and fishing [outfit] in Northwest, Ontario.

This summer and fall, I will send down some letters telling you about what's going on up here.

This is a very interesting business.

I arrived in Red Lake on Mother's Day. It was 90 degrees. There was still ice on the big lakes.

The owner of this camp is a German immigrant by the name of Peter Hagedorn. Pete started this camp in 1974 here on Roderick Lake. He built his first cabin in 1974 and now has 14 at nine different locations.

To get to all of them, you have to

fly.

Our guests come on Saturday and leave on Saturday.

We flew out of Red Lake on Sunday the 14th; I will probably not see town

more than two or three times before November 1.

Our main camp is located on Roderick Lake; 50 air-miles from Red Lake.

When we arrived here, the lake was still froze over. We landed on a smaller lake behind the camp that was opened up; a lake we call the "supper lake" because we can usually catch supper on it real quick.

I brought my golden retriever up. His name is Ben. It was his first plane ride, and he did not want to get out.

We have a 200-foot plane pier. The last 50 feet took some ice damage as did both of our boat docks. Other than that, everything was as we left it on October 24.

Monday, I put the plane pier back

together, and Pete got the water running for the camp. We have three cow tanks on top of a tower that have a 1,000 gallon capacity. We pump the water from the lake

and gravity brings the water from the tanks to the cabin. Simple, but efficient.

Tuesday, we flew to one of our outposts called Marvin Outpost. An outpost is one or two cabins on a chain of lakes where the guests are alone.

Last fall, I cut eight cords of wood into eight-foot logs across the lake. Tuesday, I hauled it back to the cabin by boat, pulling a boat behind mine. On one trip, I got caught in the middle of the lake by a storm. It got
